General Information

(continued)

Warranty

Price Industries warrants and guarantees for a period limited to one (1) year from date of shipment that the products manufactured by Price Industries are manufactured in accordance with Price Industries's published catalogue specifications and of specified material.

Since product improvement is a continuing endeavour at Price Industries, catalogue specifications are subject to change without notice. Price Industries shall provide the Representative with current specifications.

In the event the goods supplied do not comply with published catalogue specifications and/or material quality in the warranty period, Price Industries will either repair the goods supplied or provide free replacement of such goods at their factory, at Price Industries's sole discretion. In either case, Price Industries will not be responsible for labour and freight charges in replacing goods nor will they be responsible for incidental or consequential damages.

In the event Price Industries elects to repair the goods supplied, the Representative will assist by providing Price Industries with all details of the problem and written quotation for costs of such work required to be carried out. If repair is authorized by Price Industries, then the Representative will assist by coordinating and supervising the repair work.

Price Industries makes no warranty whatsoever with respect to components or items supplied which may be warranted separately by their manufacturer. Price Industries does not warrant factory mounted controls and components supplied and owned by a third party for mounting by Price. Backcharges to Price Industries for equipment under warranty by others will only be accepted if prior written approval is given by Price Industries.

The warranties and liabilities set forth in the prior paragraphs are the only warranties or conditions of Price Industries, and are in lieu of all other warranties and liabilities, whether in contract or in negligence, expressed or implied, in law or in fact, including implied warranties or merchantability and fitness for particular use.

The foregoing warranty shall not take effect unless the Representative shall inform Price Industries in writing of any flaw, defect or deficiency in the product promptly after such flaw, defect or deficiency becomes apparent and, in any case, within one year from date of shipment.

The Representative will be responsible for notifying its clients of this policy. Unauthorized repair by others of equipment claimed to be defective will void the warranty and/or guarantee of Price Industries.
