Goal Setting Session

Monday, June 10, 2024 - 6:30 p.m.

Instructional Planning Center

Monday evening's goal setting meeting provides direction for our district and helps us to practice continuous improvement.

It is an opportunity for the school board and administrators to come together and better understand what administrators are doing to cause the board goals to become reality.

The materials in the Google Docs Full Admin Team file are a living document of our strategic planning.

Thank you school board for your leadership.

Thank you administrators for carrying the goals work to your staff.

We will embrace a student-centered focus and push for academic achievement.

Kraig Steinhoff
