The system will keep track of how many credits you have chosen.

If you make a mistake, click “Remove” next to the unwanted course and search for the correct course to add it to your list.

Step 4: Select Alternate Electives

We try to ensure that every student is given the opportunity to take all the classes they are interested in taking, but sometimes that is not possible.

In these cases the system will choose from your Alternate List of electives.

Things to keep in mind when requesting your alternates:

- ★ Courses will be chosen in the order they appear on your list. Make sure your favorite is listed first, your 2nd favorite second, etc. You can change the priority by clicking  next to the course name and dragging your requests up/down the list
- ★ Request at least 5 other courses that you are interested in taking.
- ★ If you do not request alternate electives, or if you list the same course more than once, your counselor will choose for you based on availability
