

TRIANGLE CONGRUENCE

4.4

Triangle Congruence Theorems

Why AA (or AAA) doesn't work: <http://www.mathopenref.com/congruentaaa.html>

Why SSA doesn't work: <http://www.mathopenref.com/congruentssa.html>

SAS, SSS, SSA OR NONE OF THESE?

Determine whether the two triangles could be proven congruent by SSS, SAS, SSA or *none of these*. Draw any implied info in the picture & justify your answer. **TIP: Check the marks on BOTH triangles!

1.

2.

3.

4.

5.

ASA, AAS, or neither?

If possible, determine which triangles must be congruent (write a congruence statement). Draw any implied info in the picture & justify your answer.

Write a congruence statement for the two triangles that could be proven congruent by ASA.

Example:

$\triangle SUV \cong \triangle WTA$
by ASA

YOU TRY!

$\triangle OHG \cong \triangle NFI$
by ASA

Which theorem could be used to prove the triangles are congruent (SSS, SAS, ASA, AAS)? Or write *not enough information*.

Remember to draw on your picture when necessary.

6.

YOU TRY!

Which theorem could be used to prove the triangles are congruent (SSS, SAS, ASA, AAS)? Or write *not enough information*.

Remember to draw on your picture when necessary.

6.

8.

7.

9.

Think About It!

What other information do you need to prove

$\triangle DEF \cong \triangle FGD$ by SAS?

- 1) Mark and justify the implied information.
- 2) Determine what information is **MISSING** to use SAS

YOU TRY!

Your friend asks you for help on a geometry exercise. Below is your friend's paper. What error did your friend make? Explain.
