- Scissors
- Pencils
- Crayon
- Erasers
- Pencil case
- Notebook
- Folder
- Glue sticks
- Whiteboard Markers
- Lysol wipes
- Tissues
- Paper towels
- Sanitizer

In 4th grade, knowing your multiplication facts **really well** is super important! Multiplication facts are the building blocks for doing more advanced math like multi digit multiplication and division. Practice at home with flashcards and fun games to become a math superstar!

Also, reading smoothly and understanding what you read is also super important! In 4th grade, you'll make the switch from learning to read to reading to learn interesting and new things. Let's team up to make this year a success by practicing math and reading together!

Summer math and reading will be due when you return to school for 4th grade. We can't wait to see you then! We are excited to learn and grow with you,

~Mrs. Edwards~
~Mrs. Fotopoulos ~

Before Entering 4th Grade it is Important to Review:

- ★ Multiplication and Division Facts
- ★ Adding and subtracting with regrouping!

Educational Websites for Extra Practice:

- ★ roomrecess.com (Math and ELA games)
- ★ mathplayground.com
- ★ multiplicationgames.com
- ★ ST Math (through clever)
