

Fayette R-III

CMS- Curriculum Guide for 6th Grade English Language Arts

Fayette R-III Mission: To educate all students to be ethical, successful citizens.

The 6th grade English Language Arts Learning Goals are based on the Missouri Learning Standards. The Missouri Learning Standards define the knowledge and skills students need to succeed in college, other postsecondary training and careers. This document is designed to make clear what each child should know and be able to do by the end of 6th grade English Language Arts.

Course Description: Sixth grade language arts continues to develop reading, writing, information literacy, and listening and speaking skills. Students will use metacognitive and active reading strategies to comprehend increasingly more complex material, including fiction, non-fiction, poetry and drama. Students will use the writing process in order to create effective paragraphs while developing multi-paragraph essays. Emphasis will be placed on the 6 Traits of Quality Writing. Vocabulary instruction and word awareness will be embedded in the reading and writing processes. Students will further develop their media literacy, use of the research process, and their ability to evaluate both the relevance and reliability of information gathered. Formal and informal speaking and discussion will be further promoted, as will listening for information. Students will be expected to apply these skills in preparation for future years of study.

Course Rationale: The Fayette R-III English Language Arts program is the foundation upon which all other learning takes place. Communication skills are central to both cognitive and social development. Listening, speaking, reading, and writing are skills students need to help them solve problems, make decisions, interpret information and communicate their ideas to others. Fayette R-III schools will provide a balanced program of listening, speaking, reading and writing that emphasizes not only the understanding and appreciation of language and literature, but also the application of communication skills to the world and the workplace.
