6th Grade

SUBJECT SPOTLIGHT:

Mathematics:

Sixth Grade Everyday Math students are completing Unit 5- Area and Volume Explorations and will be working through Unit 6 Equivalent Expressions and Solving Equations. Advanced Glencoe students are working in Unit 6- Equations and Inequalities. Our next Study Island Benchmark will be on Friday, March 6th.

Social Studies:

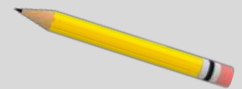

Sixth graders have continued learning about the creation of the United States government in Social Studies classes. We recently finished learning about George Washington and the precedents and traditions that he established. The precedents and traditions established by George Washington are still practiced today over 200 years later. We will continue learning about U.S. government as we begin learning about Political Parties and The Age of Jefferson.

Science:

In Science we just wrapped up our Cell Unit. Students completed Study Guides and worked really hard on their unit tests. Please look on Firefly to see how your child did on his/her Unit Test. Moving forward, we will be learning about Multicellular Organisms and the Cambrian period.

ELA:

This month in ELA, we will continue our Persuasive Writing Unit. We will begin Unit 4 focusing on author's point of view, theme, and summarizing. As a reminder, students are assessed on spelling and vocabulary every cycle! Reading assessments occur every other cycle. Please check folders for assessments so test corrections can be made!
