MATCH the MEANINGS

Base
Word:

color

© Jennifer Findley

Highlight the word in each sentence that contains the base word. Read the sentence. Determine which meaning best defines the word you underlined. Drag the letter to each box.

B

Sally's lizard was colorful.

A

The white mouse was colorless.

C

The drawing of the lizard and mouse was colorable.

- A. having no color
- B. full of color
- C. capable of being colored

DAILY DOSE OF EDITING

#15

1

EDIT

Draw a line under each of the FIVE mistakes.

We started are science fare project buy first coming up withe a hypothesis?

2

FIX

Rewrite the sentence with the corrections made.

We started our science fair project by first coming up with a hypothesis.

3

STRENGTHEN & ELABORATE !

Use part of the sentence, but make some changes. Use more detail to make it stronger.

When we finally came up with a hypothesis, we were able to officially start our science fair project.

On Friday we left off with Dr. Lazear getting carried on a stretcher to the hospital with a high fever and he told his nurse that he had yellow fever. Let's listen to the rest of Chapter 10 to find out what happens next!

Directions

1. Why is Dr. Reed so eager to talk to Dean? Reread the passage.

2. Why does Dr. Reed offer Dean a "ten dollar gold piece" to say that he had left the base before returning with yellow fever?

- ☐ A Dr. Reed knows Dean needs money and wants to help him.
- ☐ B Dr. Reed is paying Dean to join the Yellow Fever team.
- ☐ C The coin belonged to Dr. Lazear who wanted Dean to have it after he died.
- ☐ D Dr. Reed wants to test the honesty and integrity of Dean's statements.

3. The information that Dean gives Dr. Reed during the interview the mosquito theory.

2

PARTNER

Work Visually: Interviewing Dean

2

A. strengthens

B. weakens

Directions

1. Reread the passage with a partner. Highlight the key details of each of Dr. Reed's experiments.

- Highlight details of the mosquito experiment in yellow.
- Highlight details of the contaminated clothing experiment in green.

2. Now work with your partner to brainstorm the risks and rewards of being a volunteer in the mosquito and contaminated clothing experiments. Summarize your ideas in the chart. Think about:

- How might the volunteer's health and life be affected if he got sick?
- What would the volunteer receive and how might he feel if he participated?

	Mosquito	Clothing
Risks		
Rewards		

In the next activity, you will be taking on the perspective of a potential volunteer for Dr. Reed's mosquito experiments. Before any volunteer could participate, Dr. Reed asked each person to review and sign a consent form.

In order to understand the central ideas in this consent form, the volunteers had to read the details carefully to determine exactly what they were signing up for.

What does the consent form say is the goal of the experiments? (*To determine the method of transmission of yellow fever.*)

The undersigned, Antonio Benino *Antonio Benino*
being more than twenty-five years of age, native of Cerceda,
in the province of Corima, the son of Manuel Benino
and Josefa Castro here states by these presents, being in
the enjoyment and exercise of his own very free will, that he consents
to submit himself to experiments for the purpose of determining the
methods of transmission of yellow fever, made upon his person by the
Commission appointed for this purpose by the Secretary of War of the
United States, and that he gives his consent to undergo the said ex-
periments for the reasons and under the conditions below stated.

The undersigned understands perfectly well that in case of the
development of yellow fever in him, that he endangers his life to a
certain extent but it being entirely impossible for him to avoid the
infection during his stay in this island, he prefers to take the
chance of contracting it intentionally in the belief that he will
receive from the said Commission the greatest care and the most skill-
ful medical service.

It is understood that at the completion of these experiments, with-
in two months from this date, the undersigned will receive the sum of
\$100 in American gold and that in case of his contracting yellow fever
at any time during his residence in this camp, he will receive in addi-
tion to that sum a further sum of \$100 in American gold, upon his re-
covery and that in case of his death because of this disease, the
Commission will transmit the said sum (two hundred American dollars)
to the person whom the undersigned shall designate at his convenience.

The undersigned binds himself not to leave the bounds of this camp
during the period of the experiments and will forfeit all right to the
benefits named in this contract if he breaks this agreement.

And to bind himself he signs this paper in duplicate, in the Experi-
mental Camp, near Quemados, Cuba, on the 26th day of November
nineteen hundred.

On the part of the Commission:
Walter Reed
Maj. & Surg., U.S.A.

The contracting party,
Antonio Benigno

CONSENT FORM

The undersigned understands perfectly well that in case of the development of yellow fever in him, that he endangers his life to a certain extent but it being entirely impossible for him to avoid the infection during his stay in this island, he prefers to take the chance of contracting it intentionally in the belief that he will receive from the same Commission the greatest care and the most skillful medical service.

Directions

1. Read the following passage from Dr. Reed's Medical Volunteer Consent form.

"The undersigned understands perfectly well that in case of the development of yellow fever in him, that he endangers his life to a certain extent but it being entirely impossible for him to avoid the infection during his stay in this island, he prefers to take the chance of contracting it intentionally in the belief that he will receive from the same Commission the greatest care and the most skillful medical service."

2. Paraphrase the passage and explain what the volunteers consent to.

Step 1: Read the passage. Discuss the meaning of any vocabulary words you do not know with your partner.

Step 2: Paraphrase each phrase of the passage that appears in the table below. When you paraphrase, you rewrite the text in your own words. (Hint: Think about the key words you need to capture and what they mean.)

Step 3: Share your paraphrase with your partner to determine if you both captured the meaning of the quote. If the paraphrase doesn't make sense, revise it.

NOTE: Look at the length of each quote. The paraphrase you write should be about the same length.

Quote

"The undersigned understands perfectly well..."
