

In accordance with this policy, students in grades nine through twelve may receive academic or career and technical education credits that count toward the graduation requirements set out by the board for courses successfully completed in post-secondary educational institutions. Students and parents or guardians shall be made aware of the post-secondary instructional opportunities as part of the development of each student's individual career and academic plan as required by law. The Superintendent or designee is responsible for developing the appropriate forms and procedures for implementing this policy and the following post-secondary educational opportunities:

Concurrent Enrollment

The board may, in its discretion, enter into a contractual agreement with a community college to provide courses for eligible students in grades nine through twelve when comparable courses are not offered by the school district. Notice of the availability of the concurrent enrollment program shall be included in the school district's registration handbook, and the handbook shall identify which courses, if successfully completed, generate post-secondary credit. Students shall not be charged tuition for concurrent enrollment courses and shall not be required to reimburse the school district for tuition if they do not successfully complete a course. Students or their parents or guardians may be required to pay a fee consistent with the school district's established textbook policy and other materials for the concurrent enrollment course to the extent permitted by law. Students or their parents or guardians may also be required to provide their own transportation to and from concurrent enrollment courses to the extent permitted by law. However, transportation shall be the responsibility of the school district for any contracted course that is used to meet school district accreditation requirements.

Students who successfully complete a concurrent enrollment course, as determined by the postsecondary institution, shall receive postsecondary credit in accordance with the institution's policies and high school credit that will be reflected on their high school transcript. The Superintendent or designee shall grant to a student who successfully completes a concurrent enrollment course a unit of high school graduation credit for every unit of high school level instruction successfully completed.

Post-Secondary Enrollment Option

Ninth and tenth grade students who have been identified by the school district as gifted and talented, and eligible eleventh and twelfth grade students, may utilize the Post-Secondary Enrollment Option ("PSEO") program. To qualify, a course must be a nonsectarian, credit-bearing course that leads to a degree, and in the areas of: mathematics, science, social sciences, humanities, career and technical education. A course is not eligible for PSEO if a comparable course is offered by the school district. In addition, courses at a community college with which the district has a concurrent enrollment agreement are not eligible for PSEO. Students shall not be charged for tuition, textbooks, materials, or fees related to a PSEO course with the exception of equipment that becomes the property of the student.

The school district shall reimburse the post-secondary institution for tuition and other expenses for each PSEO course up to \$250. Students who successfully complete a PSEO course, as determined by the postsecondary institution, shall receive postsecondary credit and high school credit. The Superintendent or designee shall grant to a student who successfully completes a PSEO course a unit of high school graduation credit for every unit of high school level instruction successfully completed. Students may not enroll on a full-time basis to any post-secondary institution through the PSEO program.

Transportation to and from the postsecondary institution is the responsibility of the student or parent or legal guardian of the student enrolled in a PSEO course. Eligible students may take up to seven hours of post-secondary credit during the summer months and receive high school credit upon successful completion of a post-secondary course. However, the student or student's parent or legal guardian are responsible for all costs associated with courses taken during the summer.

Students who fail a PSEO course and fail to receive credit are required to reimburse the school district for all costs directly related to the course up to the \$250.00 reimbursement maximum. Prior to registering, students under the age of eighteen are required to have a parent or guardian sign a form indicating that the parent is responsible for the costs of the course should the student fail the course and fail to receive credit. Reimbursement waivers may be granted by the board if sufficient verification is provided to show that the student was unable to complete the course for reasons outside the student's control, including but not limited to physical incapacity, a death in the student's immediate family, or a move out of the school district.

If a student is unable to demonstrate proficiency or the school district determines that the course unit completed by the student does not meet the school district's standards, the superintendent shall provide in writing to the student's parent or guardian the reason for the denial of credit.

Successful completion of any course at a postsecondary educational institution is determined by the postsecondary educational institution. The board shall have complete discretion to determine the amount of academic credit to be awarded to the student for the courses taken during the school year and for the courses taken during the summer.

The following factors are considered in the board's determination of whether a student will receive academic and/or vocational-technical credit toward the graduation requirements set out by the board for a course at a post-secondary educational institution:

- the course is taken from a public or accredited private post-secondary educational institution;
- a comparable course is not offered in the school district;
- the course is in the discipline areas of mathematics, science, social sciences, humanities, vocational-technical education or a course offered in the community college career options program;
- the course is a credit-bearing course that leads to a degree;
- the course is not religious or sectarian; and
- the course meets any other requirements set out by the board.

All courses approved and paid for by the district, and those courses approved by the district and paid for by the student/family will:

1. Be recorded on the official student transcript, including the letter grade granted by the postsecondary educational institution or the pass-fail indication granted by the postsecondary educational institution.
2. Be included in figuring class rank, including valedictorian and salutatorian status, and GPA at Monticello High School.
3. Be given graduation credit, as determined by the board. Typically, a three (3) or four (4) semester hour postsecondary course will be awarded one (1) graduation credit at Monticello High School.

The superintendent or designee is responsible for annually notifying students and parents of the opportunity to take courses at post-secondary educational institutions in accordance with this policy. The superintendent or designee will also be responsible for developing the appropriate forms and procedures for implementing this policy.
