

Barnstable K-5 Summer Learning Opportunities 2021

Summer Enrichment Menus – Students can choose from activities in ELA, math, social studies, science, music, art, physical education, and social/emotional learning. The Summer Enrichment Menus will be accessible on the Barnstable Public School webpage*: <https://www.barnstable.k12.ma.us/Page/1>

Summer Reading – This year we are encouraging families to “Feed Your Reading” by choosing a complete meal from their home school eatery, “Summer Reading Menu”. These menus will be available at all village libraries, HYCC, and digital version will be available on the Barnstable Public School webpage*: <https://www.barnstable.k12.ma.us/Page/1>

MobyMax – Students can access this online program to continue developing math skills over the summer. 60 minutes of math per week is suggested. Students can also enrich their learning in science and social studies using this program. MobyMax can be accessed by signing into Clever.

Lexia Core 5 – Students can access this online program to continue developing reading skills over the summer. 60 minutes of reading per week is suggested. Lexia can be accessed by signing into Clever.

Technology Support – An email address and a form will be used this summer to communicate requests for assistance. Coming soon on the Barnstable Public School webpage*: <https://www.barnstable.k12.ma.us/Page/1>

*The webpage will be updated next week with a new “Summer Opportunities” section.

We hope you enjoy these optional learning opportunities and have a wonderful summer!
