

Social Media Post Design

Use one of the following templates to create your own social media advertisement for your nacho platter.

Consider including images, colors, text, and other items within the post that can help your customers make an informed decision about the nacho platter.

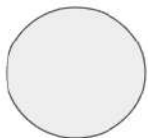

This will be your one of your only opportunities to communicate what your nacho platter features are to your customers. They will make their purchase decision based on the qualities of your nacho platter, your social media post, and your paper tray design.

The best mouthful this side of the Mississippi

Spicy Mama Nachos

***Chicken * Jalapenos * Nacho Cheese * Salsa**
