Seventh Grade Classroom Newsletter

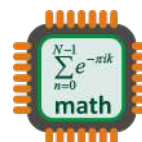

Language Arts News

This third nine weeks Mrs. Bickley's and Mrs. Stevens' seventh grade Language Arts classes have been hard at work practicing essay writing. Students have memorized a simple outline that will help them set up their essays properly. They have learned that the key to their essay is the thesis statement because it organizes their thoughts.

Students took their ELA State Test on Wednesday, March 23rd and Thursday, March 24th. Mrs. Bickley and Mrs. Stevens are very proud of all the students for their hard work and effort.

During the last quarter, students will begin novel studies including a mystery novel and a novel of teacher choice. The students will also be writing their own mystery story.

If you have any questions or concerns, please feel free to contact us.

Math News

Mr. Watson and Mr. Justice are pleased with the hard work the students have demonstrated in the third quarter of the school year. Going into the fourth quarter, we reviewed content covered over the school year in preparation for our Ohio State Tests. Students were administered the math portion of the state test before spring break.

Be sure to encourage your student to complete all assignments because it has a vital impact on your student's learning and his/her Math grade.

Here are effective ways to improve your student's Math grade and ensure his/her success.

- Ask Questions
- Participate in class
- Complete all assignments
- **STUDY** for all tests and quizzes
- Take notes in Math class (examples of problems)

Social Studies News

The 3rd quarter has been great in 7th Grade Social Studies. The students have been working hard to learn the Social Studies content for this year. They have impressed me with their swift acquisition of new knowledge of vocabulary, location of countries and world history. The students have also been respectful and are showing growth every day. The students have learned about The Middle Ages, the Mongols, major world religions, and much more in the past quarter. The last quarter will be even more enjoyable as we tackle new topics such as the Renaissance and the Reformation. The students will have everything in Google Classroom that can help them prepare for tests and quizzes. The students will not have any homework for Social Studies, but can always be studying something they have received in class or on Google Classroom.

Looking forward to a great finish of the school year!

- Mr. Evans

Science News

As the quarter comes to a close, I am proud of the kids' effort and enthusiasm. This third quarter we have studied such topics as energy, waves, and the atmosphere. The students have had the opportunities to work individually and in groups of varying size while conducting their investigations. In this final quarter, we are switching gears and studying earth and space science. As this year comes to a close, keep working hard and stay focused.

Great job!

Mr. Graham
