ACADEMIES OF SHAKOPEE

One Academy, Two Teams

As a 9th grader, you will be assigned to one of two teams:

Alpha

OR

Omega

*You do not need to (and are not able to) request a team during registration. Registering for certain classes will not make it more likely for you to be in one team over the other. Your team will be randomly assigned to you.

Being on a team, allows you to:

- Have a home base in the high school
- Get to know the same teachers
- Get to know the same students
- Reduce how far or often you need to travel to other areas of the high school

Block Schedule

Block - longer amount of time in one class

Next year: 4 blocks (classes) per quarter

Interior Design

Grade Level: 9,10,11,12

Credits: SHS: 1 Credit

Prerequisite: None

Program of Study: Arts & Communication - Elective

Description: When you walk into a room, do you imagine a new design? Do you want to re-create the space in your own way? In Interior Design I, you will learn the basics of designing spaces for the interior and exterior of homes. This course will emphasize designing and drawing floor plans, types of furniture and furniture layout, window treatments, wall coverings, the history of housing, and the elements and principles of design. These skills will guide students to creatively and knowledgeably design rooms. Students will create floor plans and presentation boards that reflect their creativity as an interior designer.

AP Studio Art – A & B

Grade Level: 11,12

Credits: SHS: 2 Credits

College: Possible college credit with a score of 4 or higher on a portfolio of work submitted to the College Board.

Prerequisite: Advanced Art Studio (must register in same academic year) This is an independent study course

Description: This class is designed for students who are seriously interested in the practical experience of art and want to focus on medium. For this course, in lieu of an AP exam, students will submit a portfolio of work to the College Board for potential college credit.

The AP Program offers three portfolios: Drawing, 2-D Design, and 3-D Design. The portfolios share a basic, three-section structure, which requires the student to show a fundamental competence and range of understanding in visual concerns (and methods). It is recommended that some students provide their own materials for their medium.
