

SIGNIFICANT CONTAGIOUS DISEASES

The Dickinson Public School Board adopts this policy with the intent of protecting the health and safety of all district students, staff, and independent contractors.

Definitions

For the purposes of this policy, the terms affected person, decisionmaker, independent contractor, institution, reasonable accommodations, significant contagious disease, special provisions, and universal precautions will be defined in accordance with ND Administrative Code 33-06-05.1-02.

Universal Precautions

The District will use universal precautions as standard procedure in the care and maintenance of school property and in administering first aid or otherwise handling emergencies.

Nondiscrimination & Anti-Harassment

No person shall be denied admission as a student, a contract as an independent contractor, or employment solely because they have or they are perceived to have a significant contagious disease. The District prohibits harassment and/or discrimination against an individual diagnosed as having a significant contagious disease on district property, including, but not limited to, district buildings, vehicles, school events, and computer networks. Complaints alleging harassment/discrimination based on a significant contagious disease shall be handled in accordance with the district's Harassment and Discrimination Grievance Procedure.

Confidentiality

All information concerning an affected person's condition that is given to an employee or official of the District shall remain confidential. The Superintendent shall develop procedures to protect against confidentiality breeches.

No employee or official of the District may inform anyone of an affected individual's infection. No employee or official may release any information to the public either confirming or denying the presence within the institutional setting of a person who has contracted a significant contagious disease. An employee violating these prohibitions shall be subject to disciplinary consequences in accordance with policy, law, and, when applicable, the negotiated agreement.

Spokesperson

The Board designates the Superintendent as the person to receive information concerning the status of students, employees, and independent contractors from their physicians. The Superintendent shall be the official spokesperson for the institution when information concerning an affected individual becomes public and may not delegate this duty. The Superintendent may request assistance from the Department of Public Instruction or State Department of Health in developing a plan for conflict resolution and shall comply with all applicable requirements in the district's policy on relations with the news media (Policy KBA) when handling media requests related to significant contagious disease.

Reasonable Accommodations & Public Health Threats

Except as provided below, the personal physician of the affected individual shall be solely responsible for deciding whether the individual constitutes a public health threat and/or whether the individual has the ability to continue in school or perform his/her duties.

1. **Students:** When a student's personal physician or the multidisciplinary team (in the case of a student who is defined as having a disability under the state or federal law) determines that the student is unable to participate in regular classroom instruction, the District will provide either reasonable accommodations, special provisions, or an individualized education program. The Superintendent shall establish procedures for the development of special provisions.
2. **Employees & Contractors:** When an employee's, prospective employee's, or independent contractor's personal physician determines that the employee, prospective employee, or independent contractor is able to perform job duties and does not constitute a public health threat, the District will consider and implement reasonable accommodations to allow the affected individual to become/continue as an employee or become/continue as an independent contractor.

Education

1. **Students:** The District will implement an instructional program on significant contagious disease appropriate to each participating grade level, providing information about the diseases, methods of transmission, the means of protecting against contracting the diseases in an institutional setting, the use of universal precautions and prevention. Instruction will begin in Grade K and continue through Grade 12. The curriculum will be integrated into the health curriculum.

The Superintendent is charged with recommending revisions in the program to the Board to update and modify the curriculum as new information about significant contagious diseases is made available. The Department of Public Instruction and/or the State Department of Health will review and approve any curriculum and materials developed for use in this program according to the guidelines established by the Center for Disease Control.

Prior to the start of the significant contagious disease instructional program, and at any time thereafter, parents and guardians of students who will be involved in this program will have an opportunity to preview/review the curriculum and materials.

2. **Employees:** All district employees will receive appropriate training that addresses significant contagious disease prevention. The training will be presented by a health professional or someone specifically qualified in prevention of significant contagious diseases education. Training will include the proper use of universal precautions.

Those employees designated to teach significant contagious disease prevention to students will receive additional inservice from qualified health education professionals.

3. **Independent Contractors:** All independent contractors performing services for the District will receive a brochure concerning significant contagious diseases upon entering into a contract with the District. The brochure shall contain information regarding the transmission of significant contagious diseases in an institutional setting, the means of protecting against contracting the diseases in an institutional setting, and the use of universal precautions.
