Welcome from the RHS Administration

Parents of incoming 8th graders, on behalf of the Rochester faculty, staff and administration, we would like to welcome you to Rochester High School. As you may recall, entering high school can be an exciting experience full of new opportunities. Acclimating to new friends, teachers, and learning community is added to the many activities our kids already take part in. At RHS, it is our priority to make this transition as easy as possible for your family. Tonight, we will provide you with important information as we begin our learning journey over the next four years. We are certain our team of teachers and support staff will meet and exceed your expectations over the next four years.

High school marks a new chapter in your teenager's life, where as a freshman your son or daughter will encounter many new experiences. We are proud at Rochester High School that our school spirit and traditions create meaningful connections between the staff, student body, and our community, and we invite you to take a moment tonight to explore what RHS has to offer. We are committed to building positive character, continuing and creating new traditions, and pushing our students to achieve at their highest level. Representatives from our academic areas, athletics, and student clubs and activities will be set up downstairs in the mall immediately following the informational counselor breakout sessions.

Again, on behalf of our learning community, we welcome you.

Sincerely,

Josh Wrinkle
Dan Amore
Megan Pasquale
Taylor Antoski

RHS Administration

District Mission Statement

To provide a quality education in a caring atmosphere for students to attain the necessary skills and knowledge to become lifelong learners and contribute to a diverse, interdependent and changing world.
