We will explore and learn about the Hour of Code by using the websites: Scratch and Code.org. Due to a generous W.E.S.T. Grant, we will also build, create, and code with our new LEGO Education WeDo 2.0 Kits. Hour of Code is an introduction to computer science, app development, and gaming creation. Are you feeling crafty? Great! We will be working with a variety of materials to make an assortment of crafts for our library. ### Chess Club

Teacher: Mr. McGuire

Grades: 4-6

Another session of Chess Club is here! Whether you are just starting out or are already a chess player this is the place for you. We welcome chess fans of all levels. In a friendly atmosphere you will get to play chess with many other students. You will not be "board." New players will learn the rules and play against other newcomers until they feel comfortable.

Experienced players will find many knowledgeable opponents. We look forward to starting another exciting year!

### Books and Movies Book Club!

Teacher: Miss Downing

Grades: 4-6

Total Cost: \$45

If you love reading and movies that are made from books, this is the class for you! As a group we will choose one book to read that has been made into a movie. We will read and talk about the book together as a book club. Near the end of our time together we will start watching the movie that was made from the book. We will talk about all the things that we notice between the book and the movie. At the end we can decide which was better; the book or the movie. Some of the books that we will choose from include: *Divergent*, *The Hunger Games*, *Wonder*, *Holes*, *Life of PI*, *The Giver*, *Harry Potter*, *The BFG*, *Percy Jackson The Lightning Theif*, *The Maze Runner*, *Freak the Mighty*, *Number the Stars*, and *the Tale of Despereaux*.
