

Day 1	I can calculate slope	Notes – Slope and Rates of Change Practice – Calculating Slope
Day 2	I can calculate slope	Practice – Calculating Slope
Day 3	I can calculate slope	Activity – calculating slope
Day 4	I can write and graph an equation of a direct variation	WS – direct variation
Day 5	I can calculate slope and write equations of a direct variation	Review – slope and direct variation
Day 6	I can calculate slope and write equations of a direct variation	Quiz – slope and direct variation Enrichment Activity - Slope
Day 7	I can write equations of lines in slope-intercept form	Notes and practice – slope-intercept form
Day 8	I can write equations of lines in slope-intercept form	Practice – slope-intercept form Matching game
Day 9	I can solve equations for specific variables	Review – slope-intercept form Quiz – slope-intercept form
Day 10	I can write equations of lines in point-slope form	Notes and practice – point-slope form
Day 11	I can write equations of lines in point-slope form	Puzzle worksheet –point-slope form (club day)
Day 12	I can write equations of lines in point-slope form	Practice – point-slope form
Day 13	I can write equations of lines in point-slope form	Quiz – point-slope form
Day 14	I can find x and y intercepts and use them to graph lines	Notes and practice – finding intercepts
Day 15	I can find x and y intercepts and use them to graph lines	Notes and practice – finding intercepts
Day 16	I can calculate slope and write linear equations in various forms	Review, Quality Core Problems
Day 17	I can calculate slope and write linear equations in various forms	Review – Linear Equations
Day 18	I can calculate slope and write linear equations in	Review – Linear Equations

	various forms	
Day 19	I can calculate slope and write linear equations in various forms	Test – Linear Equations
