## **GRADUATION REQUIREMENTS**

To receive a Medford School District (MSD) diploma, in addition to credit requirements outlined in Oregon Administrative Rule (OAR) 581-022-2000, respectively, a student must demonstrate proficiency in Essential Skills.

Students earn one-quarter (.25) credit by taking and passing one class for one nine-week quarter. They earn one (1.0) credit by taking and passing one class for two semesters.

Entering freshmen may bring a maximum of 2 credits with them from a Medford School District 549C middle school that count toward fulfilling 24 required graduation credits. Those brought to high school may include algebra, geometry, computers and/or a world language.

Additionally, students must develop an education plan and profile; demonstrate an extended application of academic knowledge through a collection of evidence; and participate in career-related learning experiences and/or coursework related to their plan/profile.

Activities to assist students in successfully meeting these requirements are integrated in required high school courses and the high school guidance and counseling program. Students and their parents will be notified of graduation and diploma requirements.

### **Required (18 Credits)**

<b><u>Classes</u></b>	<b><u>Credit</u></b>
English Language Arts – grade 9, 10, 11, 12	4.0
Mathematics (must be Algebra 1 & higher) – grade 9, 10, 11	3.0
Science – grade 9, 10, 11	3.0
Social Science – Grade 9, 10, 12	3.0
Health (Personal & Family) - grade 10, 12	1.0
Physical Education – beginning in grade 9	1.0
Applied Arts, Fine Arts, World Languages, or Career/Tech	3.0

### **Elective Classes (6 Credits)**

Select from courses listed in this handbook	6.0

## **FORECASTING CLASSES FOR NEXT YEAR**

Students request courses for the entire school year. Students and parents are urged to consider future goals, selected Pathways, previous grades, attendance habits and study habits when selecting classes.

**First choices are not always possible.** Sometimes, we are not able to offer classes for a variety of reasons. Often changes cannot be made once classes are full. Students need to be sure when making selections that the classes they are selecting are classes they are committed to taking. Placement in certain required courses will be determined by instructor recommendation, test scores, writing samples and/or published criteria. Students are encouraged to discuss course selections with parents/guardians, instructors and guidance counselors; then write them in the appropriate spaces on the forecasting scheduler.

## **ELIGIBILITY FOR ACTIVITIES, ATHLETICS & AWARDS**

North Medford High School students are expected to be enrolled in at least five classes per semester. Freshmen and sophomores are required to be enrolled in seven classes; juniors are required to be enrolled in six classes, and seniors must be enrolled in at least five classes. Some exceptions may be made for seniors. Students passing fewer than five graded classes may not be eligible for some school activities or awards. **Students must be enrolled in at least five classes and doing passing work in all of them to be eligible to compete in OSAA sanctioned extra-curricular activities.**

## **EARLY GRADUATION**

The administration and staff of North Medford High School believe that a four-year school program is desirable for most students. Medford High Schools will permit students to graduate after completion of course requirements.

Students requesting early graduation should plan well in advance.

**The Oregon Department of Education (ODE) may require early graduates to meet graduation requirements based on the year in which the student first enrolled in 9th grade.**

## **TORNADO FUTURE CENTER**

The Tornado Future Center is home to the NMHS Scholarship Director, and ASPIRE Coordinator. It provides assistance to all students at all grade levels as they explore post high school options. For more information, visit our website at <https://north.medford.k12.or.us/student-learning/tornado-future-center>.

The **Scholarship Director** seeks, announces and posts scholarship opportunities for all grade levels with a focus on seniors. Services include working with individuals, families and groups of students in applying for and financing a post high school education. Contact Jessica Driskell at 541-842-1243 (<https://north.medford.k12.or.us/student-learning/tornado-future-center>).

The **ASPIRE Coordinator** seeks and trains local community mentors to work one-on-one with students, helping them with various activities such as academic preparation, scholarship search and application, career exploration, college choice and college applications. Contact Jessica Driskell at 541-842-1243 (<https://north.medford.k12.or.us/student-learning/tornado-future-center/aspire>).

**MPACT:** Medford Pre-Apprenticeship for Construction Trades. MPACT is a pre-apprenticeship program that prepares students who may be seeking careers in the construction trades such as electrical, plumbing, residential/commercial construction, and heating/air conditioning. MPACT is designed to help students build the necessary skills to meet the entry qualifications needed to enter an apprenticeship program or workforce. Contact Nathan Chin 541-842-5222 (<https://north.medford.k12.or.us/student-learning/tornado-future-center/mpact-medford-pre-apprenticeship-for-construction-trades>).

**TRiO** Educational Talent Search (ETS) is a federally funded program that helps students in middle and high schools achieve their dreams of attending college. Students will receive information and personalized assistance in applying for college admission and financial aid applications, scholarships, and exposure to college campuses.

Eligibility Requirements:

To be eligible for TRiO ETS services, you must qualify as a low income and/or first generation student (neither parent obtained a four-year college degree). Please contact Tayo Mulholland, TRiO Transition Specialist at North Medford High School: (541) 842-1278 or [Tayo.Mulholland@medford.k12.or.us](mailto:Tayo.Mulholland@medford.k12.or.us)

## **National Honor Society (NHS)**

To become a member, applications are accepted in April. To maintain membership in National Honor Society, you must meet or exceed the following requirements:

- Must be enrolled in at least 5 classes, 3 of which must be AP or honors classes.
- Maintain a 3.6 GPA every term and accumulative. If you drop below you will be placed on probation.
- Earn a total of 9 credits in AP or honors classes by the end of your senior year.
- Complete at least 20 community service hours, three of which are National Honor Society sponsored activities.

We host at least one activity a month. In this handbook, courses which qualify as honors or advanced areas are listed on the Honors Diploma chart on page 7. Additional requirements for eligibility are outlined in our constitution.

**CHARACTER • SCHOLARSHIP • LEADERSHIP • SERVICE**

## **Honors Diploma**

The Medford Honors Diploma is available to those students who are seeking to challenge themselves academically. This program will prepare students for their post-secondary education by providing rigorous coursework along with the opportunity to earn college credit. Requirements must be met by the end of the 3rd quarter of a student's graduation year.

To earn the diploma, a student must earn an academic grade point average of 3.5 or higher and earn nine or more credits in courses identified as Advanced Placement, Honors or in other courses where evidence of academic rigor exists. The student must also meet the district guidelines for graduation, including the required 24 credits.

## Courses that Qualify for an Honors Diploma

Career and Technical Education	Credits	Science	Credits
AP Computer Science Principles	1	AP Biology	1
EDU: Practicum	1	AP Chemistry	1
Health Careers II	1	AP Physics	1

Chamber Orchestra	1	French 3 & 4	1
Wind Ensemble	1		

# College Admission Requirements

---

North Medford High School encourages all graduates to continue their education or training beyond high school. Postsecondary education or training helps young adults develop skills and expertise they can apply in later professional careers. Preparing for postsecondary education or training, both academically and financially, can begin as early as families might wish to do so. Parents and students should know the kinds of courses needed to be accepted into a postsecondary institution, how to find the right school, the costs of attending, and the financial assistance that might be available. Our Tornado Future Center and Student Services department can assist in this process.

## Oregon Public Universities:

The following courses meet the minimum entrance requirements for most public universities in Oregon. Contact individual schools for specific requirements.

Eastern Oregon University, La Grande  
Oregon Tech, Klamath Falls  
Oregon State University, Corvallis  
OSU-Cascades, Bend

Portland State University, Portland  
Southern Oregon University, Ashland  
University of Oregon, Eugene  
Western Oregon University, Monmouth

### English (4 credits)

Emphasis on writing during all four years

### Mathematics (3 credits)

Algebra 1, Geometry and Algebra 2

### Science (3 credits)

At least one year in each of two fields:

- Physical - Chemistry 1, Physics
- Biological - Biology, Human Anatomy & Physiology

### Social Studies (3 credits)

World Studies, AP Human Geography, or AP World History (1 year in 9th grade)

American Studies or AP U.S. History (1 year in 10th grade)

Economics (1/2 year in 12th grade)

Contemporary Issues (1/2 year in 12th grade)

### World Language (2 credits)

Minimum two years of the same world language

---

## COLLEGE ATHLETICS

Students planning to participate in NCAA/NAIA athletics must demonstrate eligibility by registering with the NCAA or NAIA Clearinghouse. To be certified by the NCAA clearing for Division I or II or the NAIA Clearinghouse, students must meet specific core-course requirements. Please visit the NCAA or NAIA Clearinghouse at [www.ncaa.org](http://www.ncaa.org) or [www.naia.org](http://www.naia.org) for details. Please communicate with your school counselor your goal of participating in college athletics.

---

Most 4-year colleges and universities might require either the **SAT** or **ACT** for admissions. Please log onto the following websites for more information and dates these tests will be offered.

◆ **SAT Test Information** - [www.collegeboard.com](http://www.collegeboard.com)

◆ **ACT Test Information** - [www.actstudent.org/regist/nextdates.html](http://www.actstudent.org/regist/nextdates.html)

For additional assistance with test registration, please work with our **Tornado Future Center**, 541-842-1243.

## PSAT/NMSQT

The Preliminary Scholastic Assessment Test/National Merit Scholarship Qualifying Test is administered each October at NMHS. We offer this as a free test to all of our Sophomores and is a recommended test for both Sophomores and Juniors. We have limited space for Juniors and there will be a fee charged to their account to take the test. This is the only way to qualify for the National Merit Scholarship Program.

# College & Online Credits

---

## **Advanced Placement Credit**

Some of the upper level courses we offer are designated Advanced Placement (AP) classes. This means that the curriculum parallels the content tested on the Advanced Placement Exams offered each May by the College Board (a national testing agency).

AP courses are offered at NMHS for the following subjects: Biology, Calculus, Chemistry, Computer Science, English Language, English Composition, Human Geography, Government, Macroeconomics, Microeconomics, Physics, Psychology, Statistics, Studio Art, US History and US Government & Politics, World History. Note: Some courses are offered every other year.

If you take an AP class, it is recorded on your high school transcript and counts as credit toward graduation. To receive college credit, you must take and pass the AP exam for that subject. If you are interested in taking an AP course, you should talk with your counselor. It is possible to take an AP exam even if you are not enrolled in an AP class. Additionally, while some advanced level classes may not have the AP designation, their content may still provide excellent preparation for the exam. You can read more information about Advanced Placement Exams at [www.collegeboard.org/ap/index.html](http://www.collegeboard.org/ap/index.html).

## **Southern Oregon University and Rogue Community College Credit**

Rogue Community College (RCC) offers college credit for many courses taken as part of a student's regular schedule at NMHS. These courses are designated as RCC College Now credit.

Students may earn college credit at Southern Oregon University (SOU) for some of the advanced courses offered at NMHS – this is generally referred to as “Advanced Southern Credit”. Usually these courses are identified in the course description; however, since we are continuing to add this option to more classes, you should ask your classroom instructor. There is a fee per credit charged by SOU. Check with the classroom instructor for the current cost.

SOU credit is also available to high school students through the Early Entry program. Students can take lower division college classes on the SOU campus at a significantly reduced cost for tuition.

Classes taken at SOU or RCC may be counted as one of the classes on your high school schedule for eligibility purposes. For more information about how you can receive Southern Oregon University or Rogue Community College credit, please talk with your instructors, your school counselor or the Tornado Future Center.

## **Early College Connections**

Medford School District and Rogue Community College have partnered to provide students with a path toward an AAOT or other Associate's program while the student is in high school. Students can complete their degree through a combination of dual credit courses taken at [School Name] and courses taken online or on an RCC-campus. This program includes:

- High school graduation advising from students' counselor
- Degree advising from an RCC advisor
- Check-ins with an RCC advisor on your high school campus
- Assistance navigating RCC processes
- Progressive, flexible scheduling
- Tuition and textbooks

Students may begin the program after completion of the first semester of their freshman year. Contact your school counselor or Future Center Coordinator for more information.

## **EDGENUITY/ONLINE**

Medford School District has partnered with Edgenuity, a leading provider of online courses to provide original credit and credit retrieval courses to supplement the educational program at NMHS. These courses offer flexible options to address a variety of student needs such as scheduling conflicts, health concerns, work, athletic or extracurricular commitments. We also offer courses that are not currently available in the traditional classroom. Online courses are not a good fit for every student. **See your counselor** to discuss online course options at your school and to view a current list of Medford approved online courses.

# NMHS College Credit Opportunities

---

All North Medford High School students have the opportunity to earn college credit. These credits may be earned free or at a significantly reduced rate.

## **There are three options available to earn college credit while in high school:**

- 1) Take a NMHS course that offers credit in conjunction with Rogue Community College or Southern Oregon University.
- 2) Take a NMHS Advanced Placement course and pass the AP exam (your score and requirements of the university you choose to attend will dictate how much credit you may receive).
- 3) Take an RCC or SOU course through RCC Early College Connections, SOU Early Entry or SOU while enrolled in high school.

## **When may I start earning college credit?**

Students and parents should consider college credit opportunities beginning freshman year. A strong four-year plan may result in significant savings in terms of time and money.

## **Where are these classes offered?**

The majority of these classes are taught on the NMHS campus. There are additional opportunities for college credit by taking online courses through RCC and on the SOU and RCC campus.

## **How do I get started?**

Begin by reviewing the NMHS Course Handbook. Courses with potential college credit are noted on page 11. Once you have your plan, discuss your selection with your counselor. Once enrolled, you may check with your instructor or counselor for any paperwork needed in order to receive college credit.

NMHS Course Name	AP or College Credit?	College Course #	SOU/RCC Course Title	College Credits	AP Credits

# What is?

# Pathways

MEDFORD SCHOOL DISTRICT

The Medford School District is committed to connecting school with your interests and aspirations. By selecting a Pathway, you also select courses and clubs or activities that fit your special interests and emerging career goals. In the MSD, your journey to a hopeful career starts today!

## Career and Technical Education

## Academic

## Visual and Performing Arts

Learn more about each of our Pathways by scanning this QR code

### Each Pathway includes:

- Four relevant courses
- Opportunities to earn professional certifications, industry credentials and/or college credits
- Participation in related clubs, activities, and student organizations
- A personalized, post-high school career plan

ALL ARE LEARNING &  
LEARNING IS FOR **ALL**

# ACADEMIC PATHWAY

The Academic Pathway is intended for students who are interested in exploring advanced concepts in traditional content areas. If you are passionate about the fields of English, Math, World languages, Science or Social Science, one of the Academic Concentrations is for you. Engaging in an Academic Pathway provides relevant preparation for post-secondary education at a college or university. Students in an Academic Pathway will be required to take one additional course beyond what is required for graduation in that area and at least one advanced placement (AP) course.

Courses Range From:

- Math (Algebra through AP Calculus)
- English (English 1-4, Language & Comp, Literature & Comp, Speech & Debate)
- World Languages (beginning through advanced Spanish & French)
- Social Science (required courses through Psychology and AP History)
- Science (required courses through physical, life, horticulture and medical sciences and AP chemistry, AP biology and AP physics)

# CAREER & TECHNICAL EDUCATION PATHWAY

The CTE Pathway integrates core academics into hands-on and project-based learning activities that allow students to explore and develop the knowledge and skills for the high wage, in-demand 21<sup>st</sup> century job market. Students in the CTE Pathway may take dual credit, college courses and benefit from internships within the local job market. The CTE Pathway concentrations are concurrent with a state-endorsed CTE Program of Study.

Courses Include:

- Automotive Technology
- Business & Marketing
- Computer Science
- Construction Technology
- Culinary Arts
- Early Childhood Education/Pre-Education
- Engineering
- Health Sciences
- Manufacturing

The Visual and Performing Arts Pathways are for students who want to nurture and cultivate their creativity, passion, and skill in both visual and performing arts. Students who enjoy art, music, and theater will benefit from taking courses in one of these concentrations.

Courses Include:

- Theater, Advanced Theater, Physical Theater, Stagecraft
- Chamber & Symphonic Band
- Concert Choir & Chamber Choir
- Wind Ensemble & Vocal Ensemble
- Jazz Cadets & Jazz Ambassadors
- Art I, II, AP Art Studio 1 & 2
- Sculpture I & Metals
- Concert Orchestra & Chamber Orchestra

# MPACT (Medford Pre-Apprenticeship for Construction Trades)

Medford Pre-Apprenticeship in the Construction Trades (MPACT) is a BOLI-approved pre-apprenticeship program that prepares youth for careers in the construction and manufacturing trades. Juniors and seniors who have completed at least one year in a construction or manufacturing CTE course and passed algebra 1 are eligible to participate. Youth who complete the program:

- Experience a minimum of 3 industry tours to established construction or manufacturing sites, including apprenticeship training sites, job sites, education programs, job fairs, and more,
- Complete OSHA-10 certification,
- Complete National Career Readiness Certification (NCRC – also known as WorkKeys),
- Talk with industry professionals,
- Complete a trades-based resume,
- Engage in at least 6 hours of work experience related to their career goals,
- Collect at least one letter of recommendation, and
- Receive support for apprenticeship applications.

Upon completion, students receive a pre-apprenticeship certificate from BOLI which improves their employability and may provide them with additional points toward a formal apprenticeship.

Interested students should contact their Future Center Coordinator or Dr. Larina Warnock at [larina.warnock@medford.k12.or.us](mailto:larina.warnock@medford.k12.or.us) / 541.842.3872.

# MPACT

Medford Pre-Apprenticeship for Construction Trades

**ELECTRICAL**

**PLUMBING**

**CONSTRUCTION**

MPACT is a pre-apprenticeship program designed to carve a career pathway into trades. This program provides students with the necessary entry level qualifications needed to enter an apprenticeship program or a job.

*Do you love to work with your hands?*

*Want to have a career in a high-wage, high-demand field?*

*Interested in getting paid to go to school?*

*If you're a junior or senior in high school and interested in a career in the high-wage construction trades- Carpentry, Plumbing, Electrical, or HVAC- complete the MPACT application.*

*Young women and students of color are especially encouraged to apply!*

## SYMPHONIC BAND

**Term:** Year

**Grades:** 9-12 (Could include advanced 9<sup>th</sup> graders)

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Students must have prior experience playing a band instrument.

This course covers a variety of band literature for both concert and marching bands. Students will learn and/or review major scales/rudiments/arpeggios as they pertain to their instrument along with complex rhythms, proper tone quality, music terminology, and history as it relates to music being performed. Students will be expected to: demonstrate respect for music, instruments, and each other; follow the directions of the teacher, and attend all performances. Regular practice at home is expected. This course meets the fine arts graduation requirement. **Students must be willing to commit to all requirements of both the Symphonic and Marching Band. This is a performance-based class that requires numerous extracurricular performances throughout the year.** These performances include, but are not limited to, home basketball and football games, concerts, parades, and festivals. [Click here for course video!!](#)

## WIND ENSEMBLE

**Term:** Year

**Grades:** 9-12

**Level:** Honors

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Audition prior to enrollment

Wind Ensemble is an auditioned ensemble, and is designed to develop skills and techniques for advanced woodwind, brass, and percussion players. This course covers a variety of band literature for both concert and marching bands. Students will learn and/or review major and minor scales/rudiments/arpeggios as they pertain to their instrument along with complex rhythms, proper tone quality, music terminology, and history as it relates to music being performed. Students will be expected to: demonstrate respect for music, instruments, and each other; follow the directions of the teacher, and attend all performances. Regular practice at home is expected. **Students must be willing to commit to all requirements of both the Wind Ensemble and Marching Band before they will be allowed to enroll in Wind Ensemble. This performance-based class requires numerous extracurricular performances throughout the year.** These performances include, but are not limited to, home basketball and football games, concerts, parades, and festivals. Students may repeat this course for credit.

## JAZZ CADETS

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Students must audition prior to enrollment; active participation in Symphonic Band, or Wind Ensemble required/exceptions cleared with band director.

Jazz Cadets is a performance-based class designed for serious intermediate level students. Various styles of music will be explored including swing, rock, Latin jazz, and pop. Students will learn jazz music theory and improvisational skills. Jazz Cadets is open by audition to all band students who play saxophone, trombone, trumpet, piano, bass, drums, and guitar. **CONCURRENT ENROLLMENT IN SYMPHONIC BAND, OR WIND ENSEMBLE IS REQUIRED.** All exceptions must be cleared with the band director. Students are required to participate in several concerts throughout the year.

## JAZZ AMBASSADORS

**Term:** Year

**Grades:** 10-12

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Students must audition prior to enrollment; active participation in Symphonic Band, or Wind Ensemble required/exceptions cleared with band director.

This course is designed to be a performing group with an emphasis on improvisational skills and professional playing atmospheres. Students are required to participate in several concerts throughout the year. This class is for the serious musician who is interested in expanding their understanding, appreciation, and ability to play all forms of jazz, rock, and contemporary music. It is open by audition to all advanced students playing saxophone, trombone, trumpet, piano, bass, drums, and guitar. Auditions will be held in late spring, and students will be selected according to ability level and instrumentation needs. **CONCURRENT ENROLLMENT IN SYMPHONIC BAND, OR WIND ENSEMBLE IS REQUIRED.** All exceptions must be cleared with the band director.

# Art: Performing Arts

---

## **MUSIC THEORY**

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** None

This course will introduce students to the five main elements of music (melody, harmony, form, rhythm, and timbre) using an interactive and collaborative approach. In this class, students will experience music by learning to decode its symbols, listen for the concepts in famous compositions, analyze beat and rhythm, and compose and perform music in a variety of ways. This course will focus on traditional western music theory, and will also emphasize training the ear and the voice as essential tools toward building a foundation in musical skills. Concurrent enrollment in a band, choir, or orchestra class is required; or with instructor approval.

## **UKULELE**

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** No audition required

The course focuses on building skills relating to playing the ukulele: chords, strumming, playing melodies, etc. Students of this class will have a solid foundation for being able to play your favorite songs on the ukulele. This class is designed for beginners, but will offer students with playing experience new skills and the opportunity to make more music! There are no required performances in this class.

## **CHOIR: CLOUDBURST VOCAL ENSEMBLE**

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** No audition required

Students will practice vocal production techniques, study choral literature of all kinds, and participate in several concerts and performances throughout the year. Students will continue to develop their understanding of music reading, sight reading and music theory. Special attention will be given to music from various musical periods. This class may be repeated for credit.

## **NMHS TORNADO CHORALE**

**Term:** Year

**Grades:** 10-12

**Level:** Honors

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Audition or instructor approval

This course is the major choral performing organization at NMHS. Students will practice vocal techniques, study a variety of choral literature styles, and participate in numerous concerts and performances. Students will also develop an understanding of music reading and music theory. Special attention will be given to music from various musical periods. This class may be repeated for credit.

## **CHAMBER CHOIR: STORM**

**Term:** Year

**Grades:** 10-12

**Level:** Honors

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Audition - Members must enrolled in Tornado Chorale

This course is the premier choral performing ensemble at NMHS. Students will practice vocal techniques, study a variety of choral literature styles, and participate in numerous concerts and performances. Students will deepen their understanding of music reading and music theory. Special attention will be given to music arranged for small ensembles. This class may be repeated for credit.

# Art: Performing Arts

---

## CONCERT ORCHESTRA

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Must have at least two years of playing experience and/or instructor approval

Concert Orchestra is offered to students with previous experience on a traditional string instrument: violin, viola, cello or bass. Continued emphasis is given to the development of musicianship skills, aural and technical facility (with emphasis on bowing, fingering, and reading music with good intonation and rhythm) through a large repertoire of string orchestra literature and technical studies. Student involvement in concert and performance activities will be part of the grading process for this course. Periodically there are special events, rehearsals, or concerts during non-school hours. Participation in such activities is an essential extension of the requirements. Group lessons that focus on instrumental technique, solo literature, and/or chamber literature may be included in this course offering.

## CHAMBER ORCHESTRA

**Term:** Year

**Grades:** 9-12

**Level:** Honors

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Audition and/or instructor approval

**Other:** Middle school students may audition to participate

This course is a selected ensemble offered to students with advanced string experience. Its purpose is to study and perform chamber orchestra literature of varying styles from the archives of standard repertoire. Performance activities, including special events, rehearsals, and concerts during non-school hours, are an essential part of the course and will be considered in the grading process. This course challenges music students interested in the finest concert performance and is strongly recommended for students who plan to major in music. Select winds, keyboard, and/or percussion will be invited to join this ensemble on occasion as instrumentation dictates. The orchestra performs several concerts a year and participates in district and regional music festivals and all-state orchestra. Chamber Orchestra students are strongly encouraged to enroll in Sinfonia.

## SINFONIA

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Audition and/or instructor approval

Sinfonia is offered to string students who want to challenge themselves with more advanced music and music theory as well as a higher level of focus towards facility on the instrument, including both technique and expression. Good attention to foundation skills including appropriate posture, correct bowing, fingering, and reading music with good intonation and rhythm should already be in place. More emphasis will be placed on the finer details of string playing including bow speed and placement, vibrato, shifting, and tone. Performance activities, including special events, rehearsals, and concerts all during non-school hours, are an essential part of the course and will be considered in the grading process. Participation in such activities is an essential extension of the requirements.

## HISTORY OF ROCK AND ROLL

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** None

This course will look at the History of Rock and Roll by examining music, changes in technology, and important historical events that have affected the music industry. Students will learn the importance of earlier music forms (including Jazz and blues) had on the formation of Rock and Roll. Whether you are a fan of rock and roll or interested in the history of music, this class is for you. There are no required performances in this class.

# Art: Performing Arts

---

## INTRO TO THEATRE ARTS

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** None

Intro to Theatre Arts is a performance-based course, regularly performing in front of classmates during the period. Topics covered include improvisation, movement, vocal production, memorization, and script analysis. Students will showcase their knowledge of these skills twice in a semester with an in-class presentation of a selected monologue and an evening performance of a duo scene. Additionally, this course has a required evening performance during the second half of the term. Grading emphasis placed on participation, effort given everyday, and willingness to engage with the material. Click [here](#) to watch course video!

## THEATRE ADVANCED

**Term:** Year

**Grades:** 10-12

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Introduction to Performance, Physical, or Instructor Approval

Advanced Theatre is a performance-based course, regularly performing in front of classmates during the period. Students explore several different formats of performance, including but not limited to: theatre competition, historical theatre, film acting, staged productions, and alternative theatre. Additionally, this course has a required evening performance during the second half of the year. Grading emphasis placed on participation, effort given everyday, and willingness to engage with the material. Enrollment in the class is either through earning a C or higher in Intro to theatre or through instructor's approval. Freshman can enroll in the second semester after passing intro to theatre in the first semester. Click [here](#) to watch course video!

## PHYSICAL THEATRE

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** None

Physical Theatre is a performance-based course, regularly performing in front of classmates during the period. This course is a study of the use of the body and movement skills on stage to tell a story. Activities include stage combat (unarmed and single sword), improvisation, pantomime, and devised theatre. Additionally, this course has a required evening performance during the second half of the term. Grading emphasis placed on participation, effort given everyday, and willingness to engage with the material. Click [here](#) to watch course video!

## STAGECRAFT

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** None

This course is an introduction to the technical aspects of theatre arts with a focus on design. Classroom activities include the following design aspects: lighting design, set design, costume design, sound design, theatrical marketing, and stage management. This introductory class is a requirement for those that want to enter Production and Rehearsal. Grading emphasis placed on participation, effort given everyday, and willingness to engage with the material. Click [here](#) to watch course video!

# Art: Performing Arts

---

## **THEATRE: PRODUCTION AND REHEARSAL**

**Term:** Year

**Grades:** 10-12

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Stagecraft or Instructor Approval

In this advanced technical theatre class, the students will be responsible for producing, designing, and running the various theatre events that occur throughout the year at North. This class is a requirement for those that want to design or direct the technical elements of any NMHS production during or after school. Additionally, this course has a required evening performance aspect tied to one of the productions. Grading emphasis placed on self-motivated learning, work produced in class everyday, and ability to work on assigned projects independently. Enrollment in the class is either through earning a C or higher in Stagecraft or through instructor's approval. Freshman can enroll in the second semester after passing intro to theatre in the first semester. Click [here](#) to watch course video!

## **THEATRE: HISTORY OF DRAMA**

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** None

Exploration of dramatic literary elements, history of theatre, playwriting, play analysis, and determination of theme and intent. Writing assignments are focused on understanding and comprehension of the literature. Student writing ranges from short stories to small one-acts. Students will be actively involved in the reading, discussion, and staging scenes from Ancient Greek Theatre to Modern American Theatre. As well as, analyzing the work and discussing how it reflects on the current society's problems and culture.

# Art: Visual Arts

## Overview

Course Title	Semesters	Repeat for Credit	Prerequisite	Grade Offered
Art 1	2	Yes	None	9-12
Art 2	1	Yes	Art 1	10-12
AP Art & Design 1	2	No	Art 1, Art 2, and instructor approval	10-12
AP Art & Design 2	2	No	AP Art & Design 1 and instructor approval	11-12
Sculpture 1	1	Yes	None	9-12
Sculpture 2	1	Yes	Sculpture 1	9-12
Sculpture 3	1	Yes	Sculpture 1, Sculpture 2, and instructor approval	10-12

### ART 1

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** None

This course provides students with the knowledge, skills, and opportunity to explore and create individual works of art. Design concepts, analysis of art, and technical skills will be emphasized in this beginning level drawing and painting course. This class focuses on two-dimensional media, primarily drawing with graphite and colored pencils, acrylic painting, and watercolor. Students will develop a variety of skills including technical drawing and painting skills with a focus on problem-solving and personal expression through their artwork.

### ART 2

**Term:** Semester

**Grades:** 10-12

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Art 1 or Instructor Approval

Art 2 provides students with the opportunity to further develop their skills as an artist and create individual works of art. Design concepts, analysis of art, and personal growth as an artist will be emphasized in this course. This class focuses on expanding students' exploration with materials as well as mixed media. Students will develop a variety of skills and knowledge including color theory, art analysis, and continued development of technical drawing and painting skills. Students will be encouraged to develop unique compositions that represent themselves. Projects and assignments change each term, so this course may be repeated if students are interested in continuing in this level.

### AP ART & DESIGN 1

**Term:** Year

**Grades:** 10-12

**Level:** AP

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** Art 1, Art 2, and/or Instructor approval

**Other:** SOU credit may be available

This course is a college level course designed for students who are seriously interested in the experience of developing a two-dimensional art portfolio. This includes a range of approaches that demonstrate a variety of drawing and painting topics. This course encourages creative and systematic investigations of formal and conceptual issues, emphasizing making art as an ongoing process that involves the student in informed and critical decision making. During the final term of this course, students will begin inquiry work on their "Sustained Investigation" portfolio for the following year.

# Art: Visual Arts

---

## AP ART & DESIGN 2

**Term:** Year

**Grades:** 11-12

**Level:** AP

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** AP Art & Design 1 & instructor approval

**Other:** SOU credit may be available

This course is a college level course designed for students who are seriously interested in the rigorous experience of creating a "Sustained Investigation," an extensive two-dimensional art portfolio (as defined by the AP College Board, and as aligned with SOU), a body of 15 artworks unified by the investigation of a concept or idea that has visual coherence. Each student will submit their completed AP Art & Design portfolios to the AP College Board in early May for the AP Art & Design exam.

## SCULPTURE 1

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** None

This course provides students with the knowledge, skills, and opportunity to create individual works of art. Technical skills, analysis of art, and personal growth as an artist will be emphasized in this semester-long course. Students are introduced to a wide variety of unique materials for exploring the three-dimensional world of sculpture. We will learn about the elements of art and focus on the unlimited world of form. Click [here](#) to watch course video!

## SCULPTURE 2

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Sculpture 1

Students will have the opportunity to work more in-depth with the sculpting process and begin to explore the Principles of Art in this semester-long course. Students will work with a variety of new materials as they continue to apply the Elements of Art. Sculptural materials may include ceramics, wood carving, fused glass, metal, alternative clay, paper, and more. The focus of the class is more conceptual and students will be working to solve real-world problems, and creating works of art with a greater purpose. Collaboration and creative problem-solving are essentials for developing, professional large-scale or public art projects. Click [here](#) to watch course video!

## SCULPTURE 3

**Term:** Semester

**Grades:** 10-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Sculpture 1, Sculpture 2, and instructor approval

This course is designed for students who are seriously interested in the practical experience of creating an extensive three-dimensional art portfolio. The course will require more independent creation of an extensive three-dimensional art portfolio. The course will require more independent project conception, collaboration, and advanced sculptural techniques. This class encourages creative and systematic investigation of technical and conceptual issues and emphasizes producing art as an ongoing process that involves the student in informal and critical decision-making. Click [here](#) to watch course video!

## Automotive Service

### **AUTOMOTIVE SERVICE 1**

**Term:** Semester

**Credits:** .50 Arts/CTE/2nd Language

**Prerequisite:** None

**Grades:** 9-12

**Repeat for Credit:** No

**Other:** RCC credit may be available

This course emphasizes shop and personal safety as well as proper use of hand tools. It includes preventative auto maintenance and small engine troubleshooting and repair. Mechanical tasks include tune-up; oil change and lubrication skills; basic knowledge of cooling, electrical, emission, fuel, and ignition systems. This class will require the ability to take weekly written tests over theory and parts as well as hands-on lab skills.

### **AUTOMOTIVE SERVICE 2**

**Term:** Semester

**Credits:** .50 Arts/CTE/2nd Language

**Prerequisite:** Automotive Service 1- C or better in all terms of prerequisite. Must be at least a sophomore

**Other:** RCC dual credit may be available

**Grades:** 9-12

**Repeat for Credit:** No

This course emphasizes specific topics in brake and steering repair and tire replacement and balancing. It includes automotive engine diagnosis and repair and other automotive systems such as emission systems, cooling systems, and electrical systems. This class requires the ability to take weekly written tests over theory and parts as well as hands-on lab skills.

### **AUTOMOTIVE SERVICE 3**

**Term:** Year

**Credits:** 1.0 Arts/CTE/2nd Language

**Prerequisite:** Automotive Service 2 - C or better in all terms of prerequisite. Must be at least a sophomore

**Other:** RCC dual credit may be available.

**Grades:** 10-12

**Repeat for Credit:** No

This course emphasizes specific topics in brake and steering repair and tire replacement and balancing. It includes automotive engine diagnosis and repair and other automotive systems such as emission systems, cooling systems, and electrical systems. This class requires the ability to take weekly written tests over theory and parts as well as hands-on lab skills. RCC College Now credit may be available.

# Career & Technical Education (CTE)

---

## **AUTOMOTIVE SERVICE 4-5**

**Term:** Year

**Credits:** 1.0 Arts/CTE/2nd Language

**Prerequisite:** Automotive Service 3.  
Must be at least a junior.

**Grades:** 11-12

**Repeat for Credit:** No

**Must have a driver's license by the end of first quarter.**

Students entering the NMHS Automotive Service Program from any other school in or outside the Medford School District must take and pass an entry exam before taking the Advanced Automotive class.

This technical preparatory course is for the advanced student who has demonstrated an ability and desire to do more extensive work in the automotive area. The student will learn good techniques for electronics and computer tune up and will have an introduction to drive train, air conditioning service, and brake system overhaul. This course is taught at NMHS. RCC College Now credit may be available.

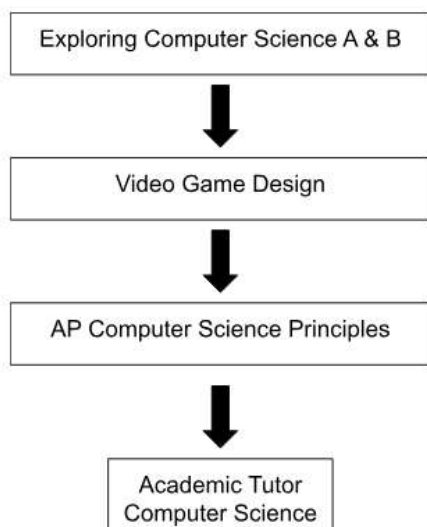

# Career & Technical Education (CTE)

---

## Computer Science

### AP COMPUTER SCIENCE PRINCIPLES

**Term:** Year

**Credits:** 1.0 Arts/CTE/2nd Language

**Prerequisite:** Exploring Computer Science (ECS)

**Grades:** 10-12

**Repeat for Credit:** No

**Level:** AP

The AP Computer Science Principles course is an introduction to computer science that covers the seven big ideas of: creativity, abstraction, data and information, algorithms, programming, the Internet, and global impact.

### EXPLORING COMPUTER SCIENCE

**Term:** Year

**Credits:** 1.0 Arts/CTE/2nd Language

**Prerequisite:** No

**Grades:** 9-12

**Repeat for Credit:** No

**Other:** RCC credit may be available

This class is designed to introduce students to the breadth of the field of computer science through an exploration of engaging and accessible topics. Rather than focusing the entire course on learning particular software tools or programming languages, the course is designed to focus the conceptual ideas of computing and help students understand why certain tools or languages might be utilized to solve particular problems. The goal of this class is to develop in students the computational thinking practices of algorithm development, problem solving and programming within the context of problems that are relevant to the lives of today's students. Students will also be introduced to topics such as interface design, limits of computers, and societal and ethical issues. This course can count as computer skills graduation requirement.

### VIDEO GAME DESIGN

**Term:** Year

**Credits:** 1.0 Arts/CTE/2nd Language

**Prerequisite:** Exploring Computer Science

**Grades:** 10-12

**Repeat for Credit:** No

Students will learn coding and game design strategies by designing and developing video games. Students will also learn how the gaming industry works through collaborative projects.

Click [here](#) to watch the video about our computer science courses!

# Career & Technical Education (CTE)

---

## Construction Tech

### **CONSTRUCTION TECHNOLOGY 1**

**Term:** Semester

**Credits:** .50 Arts/CTE/2nd Language

**Prerequisite:** None

**Grades:** 9-12

**Repeat for Credit:** No

Students will learn how to safely operate hand and power tools as they design and build projects. Students will receive an introduction to construction trades. This is a creative, hands-on class that involves building projects.

### **CONSTRUCTION TECHNOLOGY 2**

**Term:** Semester

**Credits:** .50 Arts/CTE/2nd Language

**Prerequisite:** Construction Technology 1 - C or better in all terms of prerequisite

**Grades:** 9-12

**Repeat for Credit:** No

Students will use the knowledge and skills developed in Con Tech 1 to design and build more advanced projects. There will also be a focus on subcontractor trades (electrical, framing). Students will build more advanced projects. This is a creative, hands-on class that involves building projects.

### **CONSTRUCTION TECHNOLOGY 3**

**Term:** Semester

**Credits:** .50 Arts/CTE/2nd Language

**Prerequisite:** Construction Technology 1 & 2 - C or better in all terms of prerequisite

**Grades:** 10-12

**Repeat for Credit:** No

Construction Technology 3 is the first half of a full year advanced Construction Technology series. Construction Technology 3 students will become members of the elite NMHS **Con Tech Crew**, learn job site roles and collaborate to build a variety of projects such as CNC & laser engraving, cabinetmaking, and school and community based projects. They will also develop on-the job skills needed for employment in the construction field.

# Career & Technical Education (CTE)

---

## **CONSTRUCTION TECHNOLOGY 4-6**

**Term:** Semester

**Grades:** 10-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** Construction Technology 3

Construction Technology 4-6 students will work with their Crew to complete projects that they started in Construction Technology 3 which may include carpentry, concrete work, framing, electrical, plumbing, siding, finishing, CNC, cabinetmaking, and school and community based projects. Students will have the opportunity to learn computer aided drafting (CAD) and 3D modeling for the production of small and large scale building projects. Students may also participate in internships with local building companies or trades, and/or interview for employment in the Rogue Valley construction industry if they meet requirements of the opening.

# Career & Technical Education (CTE)

---

## Culinary Art

### **CULINARY ARTS 1**

**Term:** Semester

**Credits:** .50 Arts/CTE/2nd Language

**Prerequisite:** None

**Grades:** 9-12

**Repeat for Credit:** No

Impress your friends and family with new culinary skills you will learn in Culinary Arts 1. You will learn basic food preparation skills including knowledge of kitchen safety, sanitation, measuring equivalents, cooking terms, equipment, nutrition, and meal planning and service. This is the class for those with an interest in food, food preparation, or the restaurant industry.

### **CULINARY ARTS 2**

**Term:** Semester

**Credits:** .50 Arts/CTE/2nd Language

**Prerequisite:** Culinary Arts 1 – C or higher both quarters

**Grades:** 9-12

**Repeat for Credit:** No

Learn even more about the art and skills involved in food preparation. In this course you will be given the opportunity to learn and practice more advanced food preparation skills including nutrition, food purchasing and marketing, and service.

### **CULINARY ARTS 3-5**

**Term:** Year

**Credits:** 1.0 Arts/CTE/2nd Language

**Prerequisite:** Culinary Arts 1 and 2 with a B or higher

**Grades:** 10-12

**Repeat for Credit:** No

Culinary Arts 3-5 is designed for students with more advanced culinary skills and interests. The students operate a school-based catering business where they will have the opportunity to plan and cater school-related events and to learn by doing.

### **SOUS CHEF**

**Term:** Semester

**Credits:** 0.5 Arts/CTE/2nd Language

**Prerequisite:** Culinary Arts 1-4 with a B or higher

**Grades:** 11-12

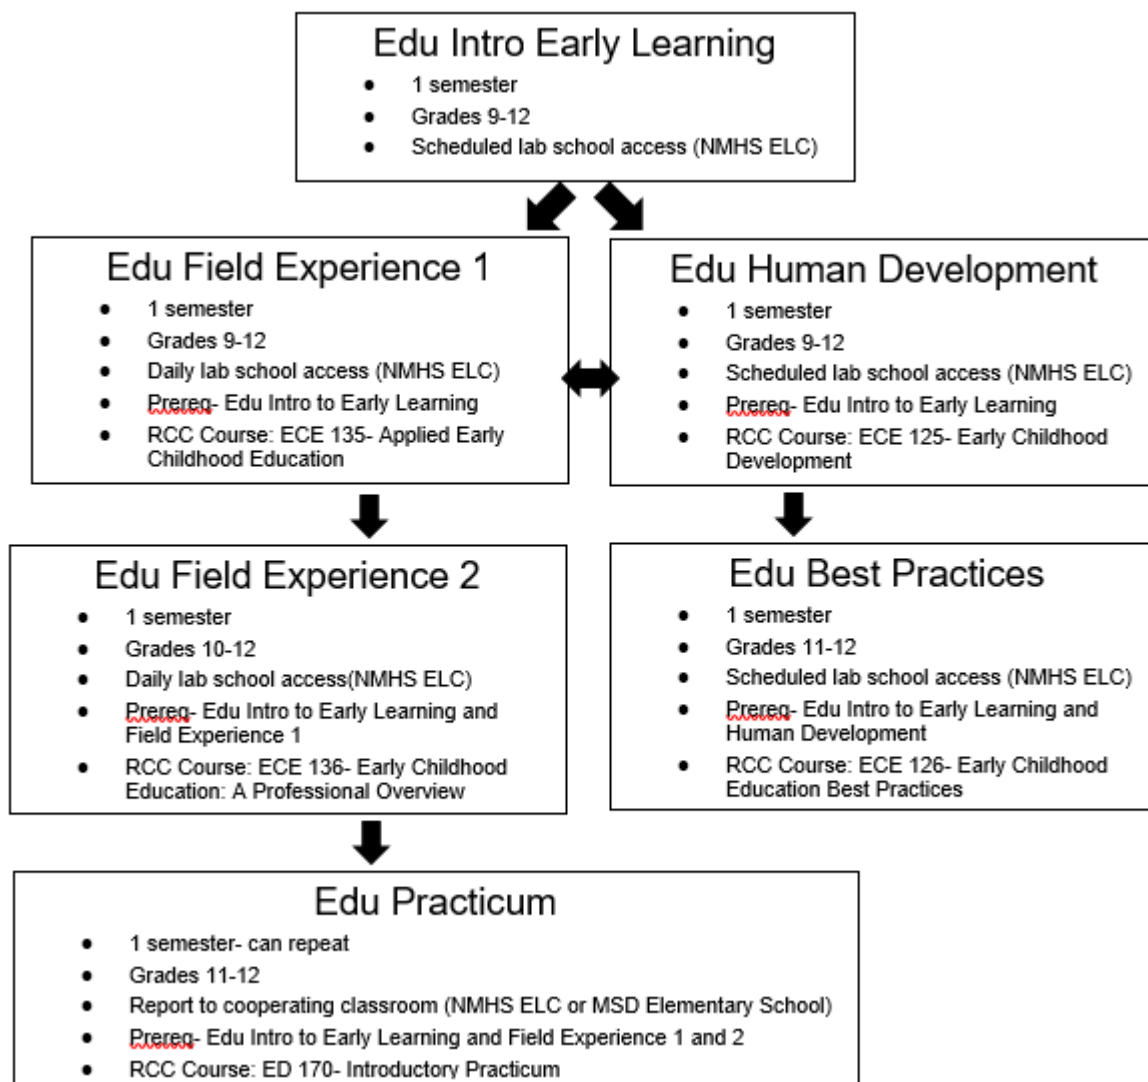

**Repeat for Credit:** Yes

Students work as a “Sous Chef” to the instructor, helping set-up and clean-up demonstrations, assisting students in lab activities, preparing ingredients for labs, and other tasks that are necessary to maintain the lab environment. This class builds students’ leadership and employability skills that will prepare them for post-secondary education and the workplace.

## Early Learning

### **BEST PRACTICES IN EDUCATION**

**Term:** Semester

**Grades:** 10-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** Intro to Early Learning & Human Development - C or better in all terms of prerequisite

**Other:** RCC credit may be available

This is the third course in a series of three courses that introduces students to the field of education and human development. Learn how to set up classroom environments so that children will become self-directed in their learning, and learn to promote good health and nutrition. Promote children's physical development by determining their needs and providing appropriate materials and activities. Learn and practice skills for promoting children's cognitive development by involving them in exploring their world. Promote children's communication skills through listening, speaking, emergent reading, and emergent writing. Completion of this course may meet RCC College Now requirements for three college credits.

# Career & Technical Education (CTE)

---

## EARLY LEARNING FIELD EXPERIENCE 1

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** Intro to Early Learning with a C or better in all terms of prerequisite

**Other:** RCC credit may be available/Good attendance is required

This is the first of two courses that provides students with hands-on experiences (field experience) in education and human development. Students will work in a lab setting in the North Medford Child Development Center under the supervision of staff. Students will help promote creativity through encouraging playful expression and freedom of activity. Students will explore dramatic play, creative art materials, and music and movement activities. They will work to enhance the emotional, social, physical, and intellectual development of the children. Three credits of RCC College Now credit may be available if requirements are met.

## EARLY LEARNING FIELD EXPERIENCE 2

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** Intro to Early Learning, Early Learning Field Experience 1, with a C or better in all terms of prerequisite courses

**Other:** RCC credit may be available/Good attendance is required

This is the second of the two courses that provides students with hands-on experiences (field experience) in education and human development. Students will work in a lab setting in the North Medford Child Development Center under the supervision of staff. This is an opportunity to acquire advanced skills and professional practices applicable in the fields of education and program management. Three credits of RCC College Now credit may be available if requirements are met.

## HUMAN DEVELOPMENT

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** Intro to Early Learning - C or better in all terms of prerequisite

This is the second course in a series of three courses that introduces students to the field of early education and human development. Learn more about human development starting with prenatal development. Work through infant milestones, toddler temperament, preschool/school age curriculum, and developmentally appropriate practices. Students will study physical, cognitive, language, emotional, and social characteristics of children. Students will learn through classroom instruction, activities, projects, demonstrations and observations in the NMHS Child Development Center. Completion of this course may meet RCC College Now requirements for three college credits.

## INTRO TO EARLY LEARNING

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** None

**Other:** RCC credit may be available

This course explores professional education and career directions for teachers of young children. Students will be able to observe children in the NMHS Child Development Center. Students considering careers in education, pediatric medicine, speech pathology, teaching, etc. would benefit from this curriculum. This class is a prerequisite for all classes in the Early Learning/Teaching pathway.

## PRACTICUM IN EDUCATION

**Term:** Semester

**Grades:** 11-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Intro to Early Learning & Early Learning Field Experience 1 and 2 with a C or higher in all terms of all prerequisite

**Other:** RCC credit may be available

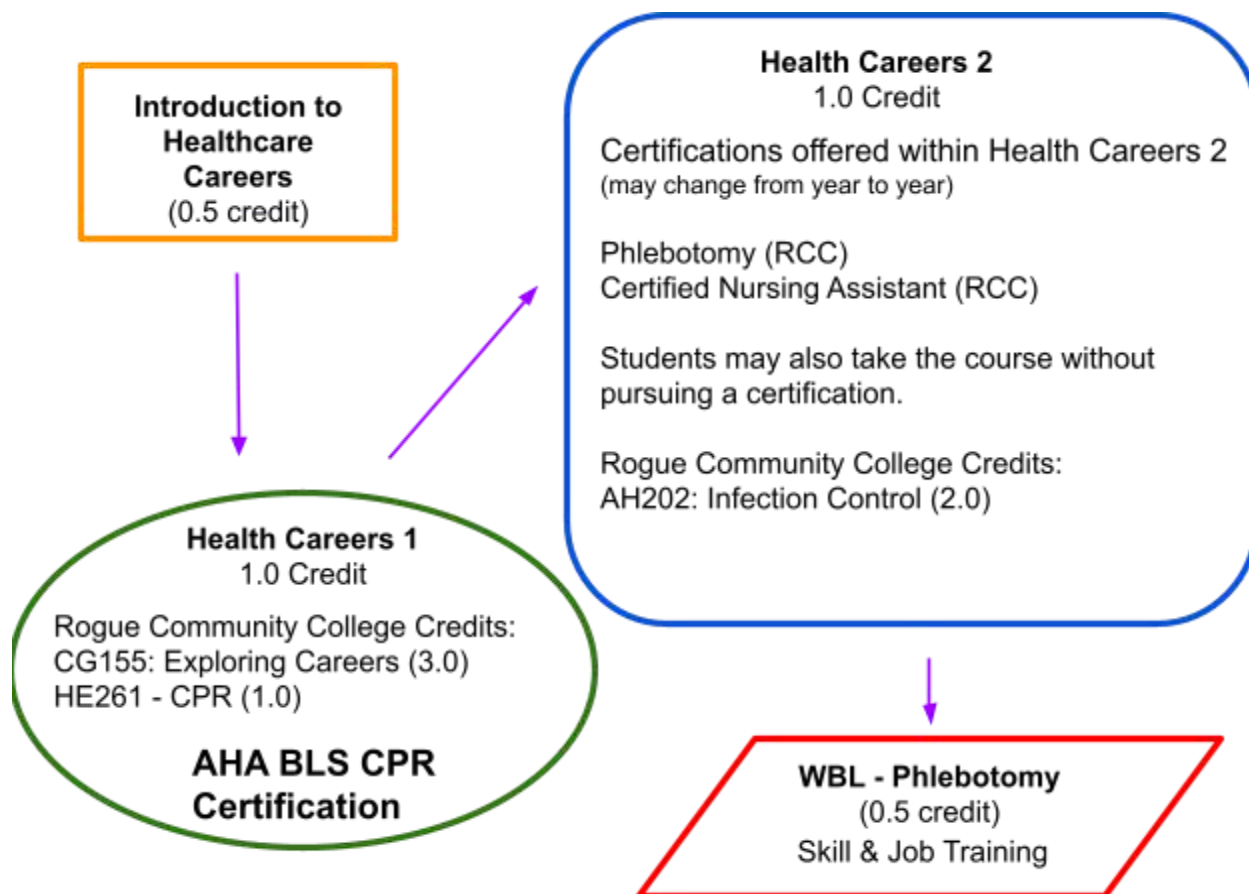

This is the final step in the Early Learning/Teaching Pathway. Students work directly with children gaining experience needed for employment in the field of education. Students will demonstrate professional practices and enhance their communication, collaboration and teaching skills. Practicum hours may be achieved in the NMHS CDC or Medford Elementary Schools. Up to two credits of RCC College Now credits are available if requirements are met. See instructor for specific requirements.

# Career & Technical Education (CTE)

## Health Careers

### HEALTH CAREERS I

**Term:** Year

**Credits:** 1.0 Elective

**Prerequisite:** Intro to Healthcare Careers

**Grades:** 11-12

**Repeat for Credit:** No

**Other:** RCC credit may be available

This course focuses on exploring Healthcare careers. Students are introduced to a comprehensive range of professions in healthcare. Students will continue to build on academic foundations. Students will learn to take vital signs and interpret their meaning. Students will explore career choices including educational requirements, job outlooks, requirements, wages, and employer expectations. Students have an opportunity to become BLS certified. Students will also study medical terminology in preparation for Health Careers 2.

### HEALTH CAREERS II

**Term:** Year

**Credits:** 1.0 Elective

**Prerequisite:** Health Careers I

**Grades:** 12

**Repeat for Credit:** No

**Other:** RCC credit may be available

This class will focus on building skills for those wanting to work in the healthcare field. Students will build on the information learned in Health Careers 1. This course will include hands-on skills, performing patient care, participating in simulation, and real clinical experience in the community. Students also may have opportunities to earn certifications in phlebotomy, nursing assistant, and earn their BLS Healthcare Providers card if they have not done so already.

# Career & Technical Education (CTE)

---

## INTRODUCTION TO HEALTHCARE CAREERS

**Term:** Semester

**Grades:** 9-10

**Credits:** .5 Elective

**Repeat for Credit:** No

**Prerequisite:** None

Introduction to Healthcare Careers is a one semester introductory course designed to introduce students to the field of Health Services. Topics included in this course: academic foundations, safety practices, chain of infection, diseases, growth and development, post high school options, and career exploration.

## MEDICAL TERMINOLOGY

**Term:** Semester

**Grades:** 10-12

**Credits:** .5 Elective

**Repeat for Credit:** No

**Prerequisite:** Health Careers I

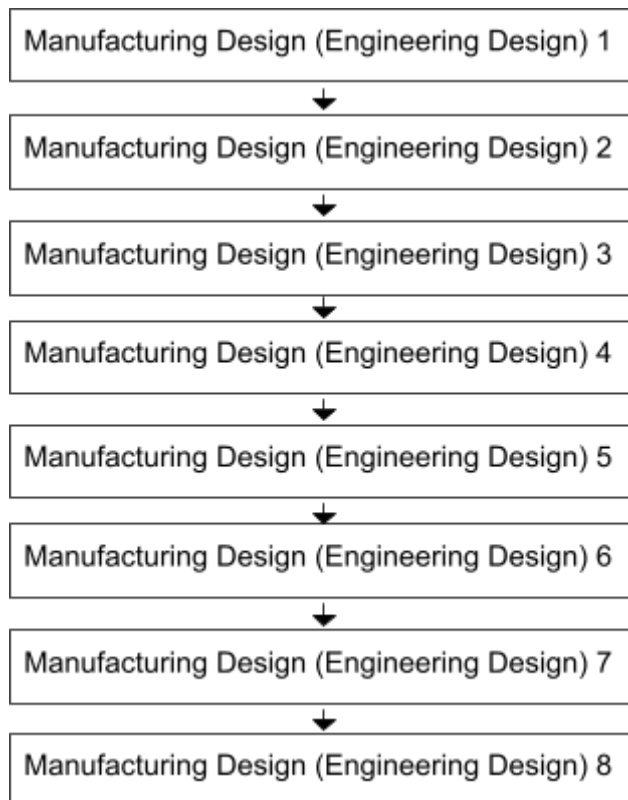

Provides a basic understanding of medical terminology using a word-building approach based on the systems of the human body. Prefixes, suffixes, word roots, combining forms, special endings, plural forms, abbreviations, and symbols are included in the content. Emphasis is placed on spelling, definition and usage.

# Career & Technical Education (CTE)

---

## Manufacturing Design (Engineering Design)

### **MANUFACTURING DESIGN (ENGINEERING DESIGN) 1**

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** Algebra 1 with a B or higher

**Other:** RCC credit may be available

This course introduces students to the technical skills of drawing illustrations to represent and/or analyze design specifications, and then refine these skills to meet industry standards. This course uses exercises from a variety of applications to provide students with the knowledge and experience to develop the ability to perform freehand sketching, lettering, geometric constructions, and multiview projections (orthographic) to produce various types of drawings. Three RCC College Now credits may be available.

### **MANUFACTURING DESIGN (ENGINEERING DESIGN) 2-8**

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** Must pass previous level of

**Other:** RCC credit may be available

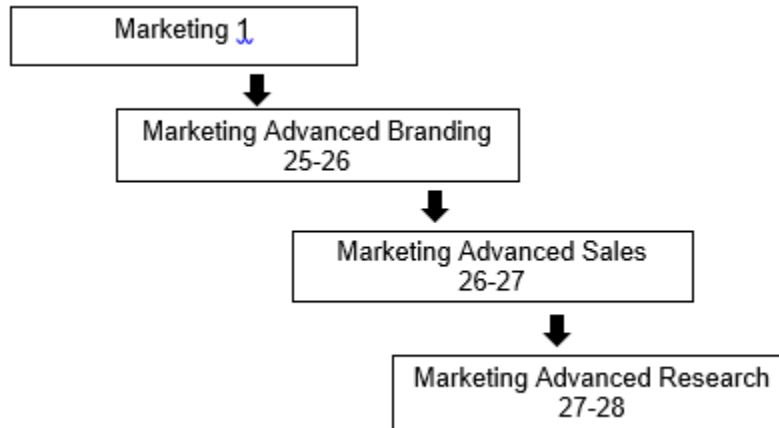

Manufacturing Design (Engineering Design) with C or better

This course refines the technical skills of drawing illustrations to represent and/or analyze design specifications using examples drawn from architectural and/or mechanical applications. Basic machining and fabrication processes may be introduced as students draw schematic diagrams featuring cams, gears, linkages, levers, and pulleys using CAD techniques. Dimensioning standards are emphasized. Solidworks, MasterCAM, IntelliCAD, ProEngineer, Inventor, AutoCADD, and ProDesktop are all available software programs. 3-D printing will be introduced. Three RCC College Now credits may be available.

# Career & Technical Education (CTE)

---

## Marketing

### **MARKETING 1**

**Term:** Year

**Credits:** 1.0 Arts/CTE/2<sup>nd</sup> Language

**Prerequisite:** None

**Grades:** 9-12

**Repeat for Credit:** No

**Other:** RCC credit may be available

Do you want to develop leadership skills? Do you want the opportunity to travel? Do you want to develop job skills that employers really value? If you answered “yes” to any of these questions, then marketing may be the course for you! By enrolling in marketing education and joining DECA, you will gain skills in buying and pricing, promotion and sales, advertising and display, and human relations. Through DECA you will travel and gain leadership skills. By working in the Student Store, you will gain work experience and management skills. Marketing makes sense! RCC College Now credit may be available.

### **MARKETING ADVANCED - BRANDING**

**Term:** Year

**Credits:** 1.0 Arts/CTE/2<sup>nd</sup> Language

**Prerequisite:** Marketing 1

**Grades:** 10-12

**Repeat for Credit:** Yes

**Other:** RCC credit may be available

In-depth analysis of marketing strategies including market segmentation, branding, product positioning, market research, consumer behavior, and the four P's of marketing .In this course, you will go through and learn the entire branding process, from how companies choose their brands, measure their effectiveness, and what strategies they use to keep a brand successful in today's marketplace.

### **MARKETING ADVANCED – SALES MANAGEMENT**

**Term:** Year

**Credits:** 1.0 Arts/CTE/2<sup>nd</sup> Language

**Prerequisite:** Marketing 1

**Grades:** 10-12

**Repeat for Credit:** Yes

**Other:** RCC credit may be available

In-depth analysis of marketing strategies including selling, distribution, inventory management, product/service management, product mix, product life cycle, product planning, packaging, and product launch.

### **MARKETING ADVANCED - RESEARCH**

**Term:** Year

**Credits:** 1.0 Arts/CTE/2<sup>nd</sup> Language

**Prerequisite:** Marketing 1

**Grades:** 10-12

**Repeat for Credit:** Yes

**Other:** RCC credit may be available

In-depth analysis of marketing strategies including market segmentation, branding, product positioning, market research, consumer behavior, and the four P's of marketing.

# Career & Technical Education (CTE)

---

## Metals Manufacturing

### **METALS MANUFACTURING 1**

**Term:** Semester

**Credits:** .50 Arts/CTE/2nd Language

**Prerequisite:** None

**Grades:** 9-12

**Repeat for Credit:** No

Metals 1 introduces students to the skills needed for the creation and engineering of various required projects using metal as a medium. This course emphasizes learning the correct and safe use of tools for welding and fabrication. Students must consistently demonstrate safety, maturity, and coordination with machine use to maintain enrollment in the class. Students complete required projects to demonstrate competency in beginning welding and fabrication. Due to the size of the lab, class is limited to 20 students total, with priority given to upperclassmen. RCC College Now credit may be available.

### **METALS MANUFACTURING 2**

**Term:** Semester

**Credits:** .50 Arts/CTE/2nd Language

**Prerequisite:** C or better in all terms of prerequisite or instructor/admin approval

**Grades:** 9-12

**Repeat for Credit:** No

Metals 2 provides students an opportunity to further develop their skills needed for the creation and engineering of various projects using carbon steel and aluminum as a medium. Students will choose from a list of projects or design their own that meet the required skill sets. Students will need to consistently demonstrate safety, maturity, and coordination with machine use to maintain enrollment in the class. Students complete projects to demonstrate competency of welding and fabrication techniques. Students are introduced to other welding types (SMAW, GMAW). Due to the size of the lab, the class is limited to 15 students total, with priority given to upperclassmen. RCC College Now credit may be available.

# Career & Technical Education (CTE)

---

## **METALS MANUFACTURING 3-8**

**Term:** Semester

**Grades:** 10-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** Metals Manufacturing 2-7

Advanced Metals (3-8) provides students a more in-depth opportunity to further develop their skills needed for the creation and engineering of various projects using carbon steel and aluminum as a medium. Students continue to choose from a list of projects or design their own that meet the required skill sets. Students still will need to consistently demonstrate safety, maturity, and coordination with machine use to maintain enrollment in the class. Students complete projects to demonstrate competency of welding, sheet metal, and advanced fabrication techniques. Students are also introduced to TIG welding and becoming more proficient at already learned welding techniques by completing portfolios of specific welds. Due to the size of the lab, the class is limited to 15 students total, with priority given to upperclassmen. RCC College Now credit may be available.

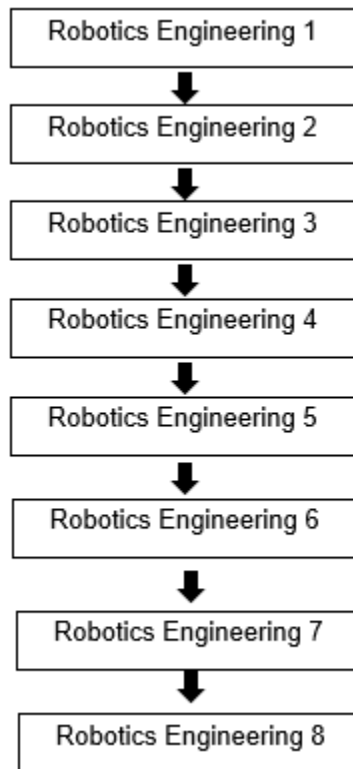

# Career & Technical Education (CTE)

---

## Robotics Engineering

### **ROBOTICS ENGINEERING 1-2**

**Term:** Semester

**Grades:** 10-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** 10th grade and passed algebra 1 with a B or higher; 9th graders are welcome to take the class if they have passed Algebra 1 with a B or higher and any one of the following courses: Architectural Design 1, Auto Service 1, Manufacturing Design 1, Metals Manufacturing 1, or Woods Manufacturing 1

Robotics Engineering is for the student who has demonstrated a strong ability with problem solving skills and wishes to develop and explore the robotics engineering process. Programming and robotic design are emphasized. Group and individual projects are required. Students will need to consistently demonstrate safety, maturity, and coordination with equipment use to maintain enrollment in the class.

### **ROBOTICS ENGINEERING 3-8**

**Term:** Semester

**Grades:** 10-12

**Credits:** .50 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Robotics 1 - C or better in all terms of prerequisite.

Advanced Robotics Engineering is for the student who has demonstrated a strong ability with problem solving skills and wishes to develop and explore the robotics engineering process. Programming and robotic design are emphasized. Group and individual projects are required. Students will need to consistently demonstrate safety, maturity, and coordination with equipment use to maintain enrollment in the class. Strong Algebra 1 skills are recommended.

Pre-AP English 1	2	No	None	9
English 2	2	No	English 1 or equivalent course	10
Pre-AP English 2	2	No	None	10
English 3	2	No	English 1 or 2 or equivalent course	11
English 4	2	No	English 3 or equivalent course	12
Creative Writing	1	Yes	None	9-12

### ENGLISH 1

**Term:** Year

**Credits:** 1.0 English Language Arts

**Prerequisite:** None

**Grades:** 9

**Repeat for Credit:** No

**NCAA Approved Course**

This 9th-grade English course builds on students' foundational knowledge of grammar, vocabulary, word usage, and writing mechanics. It integrates the four essential aspects of language: reading, writing, speaking, and listening. Students are introduced to a variety of literary genres, with writing assignments closely tied to their reading experiences. Scaffolded instruction supports students as they engage with complex texts, fostering critical thinking and building skills necessary for future academic success.

### PRE-AP ENGLISH 1

**Term:** Year

**Credits:** 1.0 English Language Arts

**Prerequisite:** None

**Grades:** 9

**Repeat for Credit:** No

**NCAA Approved Course**

**Level:** Honors

Texts take center stage in the Pre-AP English 1 classroom, inspiring and preparing all students for close, critical reading and analytical writing. This course trains the reader to observe the small details in a text to arrive at a deeper understanding of the whole. It also trains the reader to appreciate authors' sometimes-subtle choices, developing an awareness of how words produce effects and how the conventions of the English language are used for both precision and style. As writers, students focus first on crafting complex sentences, building this foundational skill; they then move on to producing well-organized paragraphs and, as the year progresses, more sophisticated, longer-form analyses. Click [here](#) to watch course video!

# English Language Arts

---

## ENGLISH 2

**Term:** Year

**Grades:** 10

**Credits:** 1.0 English Language Arts

**Repeat for Credit:** No

**Prerequisite:** English 1 or equivalent course

**NCAA Approved Course**

This course offers a balanced focus on composition and literature. Students learn about the alternate aims and audiences of written compositions by writing persuasive, critical and creative multi-paragraph thematic essays and compositions. The study of literature encompasses various genres as students improve their close reading skills and vocabulary acquisition. Students develop the ability to determine an author's intent and theme and to recognize the writing techniques employed to achieve the author's purpose.

## PRE-AP ENGLISH 2

**Term:** Year

**Grades:** 10

**Level:** Honors

**Credits:** 1.0 English Language Arts

**Repeat for Credit:** No

**Prerequisite:** None

**NCAA Approved Course**

Pre-AP English 2 builds on the foundation of the Pre-AP English 1 course, with an emphasis on the recursive moves that matter in preparing students for the challenges of college-level reading, writing, and discussion. While Pre-AP English 1 introduces the fundamental routines of close observation, critical analysis, and appreciation of author's craft, Pre-AP English 2 requires students to apply those same practices to a new host of nonfiction and literary texts. As readers, students develop a vigilant awareness of how the poet, playwright, novelist, and writer of nonfiction alike can masterfully manipulate language to serve their unique purposes. As writers, students compose more nuanced analytical essays without losing sight of the importance of well-crafted sentences and a sense of cohesion. Each unit of Pre-AP English 2 culminates in a writing task that reflects the rigor of similar tasks they will eventually encounter on standardized writing exams, in AP English courses, and in college classes.

## ENGLISH 3

**Term:** Year

**Grades:** 11

**Credits:** 1.0 English Language Arts

**Repeat for Credit:** No

**Prerequisite:** English 1 or 2 or equivalent course

**NCAA Approved Course**

This course continues to refine students' writing skills, with a focus on logical structure, precise word choice, and effective usage. Students cultivate critical thinking through multifaceted projects, integrating textual evidence from American historical documents, dystopian fiction, and personal reflections to demonstrate understanding. They create digital portfolios to analyze arguments using rhetorical strategies. Additionally, students engage in historical, present-day, and future-focused research, building relevant and lasting skills. Through literature circles and literary analysis, students explore literary elements and participate in rich discussions that deepen their understanding of texts.

## AP ENGLISH LANGUAGE & COMPOSITION

**Term:** Year

**Grades:** 11

**Level:** AP

**Credits:** 1.0 English Language Arts

**Repeat for Credit:** No

**NCAA Approved Course**

**Prerequisite:** Open enrollment with instructor approval **Other:** SOU credit may be available

Designed to parallel college-level English courses, AP Language and Composition exposes students to prose written in a variety of periods, disciplines and rhetorical contexts. Emphasis is placed on the interaction of authorial purpose, intended audience, and the subject at hand; students learn to develop stylistic flexibility as they write compositions covering a variety of subjects and intended for various purposes. Students may earn advanced credits through Southern Oregon University, or may elect to take the AP Language & Composition exam. Students completing this course fulfill the district & state requirements for English 3 Honors.

# English Language Arts

---

## ENGLISH 4

**Term:** Year

**Credits:** 1.0 English Language Arts

**Prerequisite:** English 3 or equivalent course

**Grades:** 12

**Repeat for Credit:** No

**NCAA Approved Course**

English 4 (12th grade) offers a comprehensive exploration of literature, composition, and critical thinking, preparing students for their post-secondary journeys. This course challenges students to analyze complex texts through varied perspectives, refine their writing skills, and engage in meaningful discussions about themes that define the human experience. Throughout the year, students will explore leadership, craft editorial arguments, analyze literature through critical lenses, and reflect on personal growth through creative and research-based projects. This course fosters critical reading, thoughtful writing, and collaborative discussions, equipping students with the skills necessary for success in college, the workforce, and beyond.

## AP ENGLISH LITERATURE & COMPOSITION

**Term:** Year

**Credits:** 1.0 English Language Arts

**Prerequisite:** Open enrollment with instructor approval

**Grades:** 12

**Repeat for Credit:** No

**Other:** SOU credit may be available

**Level:** AP

**NCAA Approved Course**

Designed to parallel college-level English courses, AP Literature and Composition introduces students to a variety of literature in order to enrich their understanding of the great works and to explore the deep and profound questions about life and meaning that authors, playwrights, and poets have been addressing for centuries. This course builds students' skills, allowing them to

- read, comprehend, and analyze a broad section of literature from a variety of historical periods, cultures, literary perspectives and genres;
- write valid interpretations of literary content and analysis, expressing ideas clearly and skillfully with stylistic maturity, and
- discuss literary themes with empathy and insight.

For those interested, students may elect to take the AP Literature and Composition exam for credit with a passing score. In addition, this course qualifies for English 104 & 105 through Advanced Southern Credits.

---

## COMPETITIVE SPEECH & DEBATE

**Term:** Year

**Credits:** 1.0 Elective

**Prerequisite:** None

**Grades:** 9-12

**Repeat for Credit:** Yes

**Other:** College credit may/may not be available

This course is intended to prepare students for competition in the OSAA and NSDA sanctioned speech tournaments. Through participation in the class, students will gain confidence in their speaking abilities, learn organization and time management skills, and prepare and practice speeches and debates. In addition to tournament competition, they will also focus on developing listening, writing and analyzing abilities through classroom participation and demonstration.

## CREATIVE WRITING

**Term:** Semester

**Credits:** .50 Elective

**Prerequisite:** None

**Grades:** 9-12

**Repeat for Credit:** Yes

In this course students will read, critique, and compose original poetry, essays, short fiction, and creative non-fiction. Students will examine the works of published writers as well as peers to discover, expand, and refine their own skills, voice, and repertoire. Students will share their work for both written and oral peer critique. Publication will be strongly encouraged as students develop portfolios of their writing. Click [here](#) to watch course video!

# Health

## Overview

Course Title	Semesters	Repeat for Credit	Prerequisite	Grade Offered
Family Health	1	No	None	12
Personal Health	1	No	None	10

### PERSONAL HEALTH

**Term:** Semester

**Grades:** 10

**Credits:** .50 Health Ed

**Repeat for Credit:** No

**Prerequisite:** None

One semester of Personal Health is required. This comprehensive health class places emphasis on the wellness lifestyle concept. Areas of study include self-responsibility and decision making, nutrition, stress management, physical fitness, mental health, American Health Association Heartsaver First Aid/CPR, drug education and prevention education, and sexual health.

### FAMILY HEALTH

**Term:** Semester

**Grades:** 12

**Credits:** .50 Health Ed

**Repeat for Credit:** No

**Prerequisite:** None

One semester of Family Health is required. This semester's class places an emphasis on being health-literate, and being able to obtain and apply knowledge and skills to enhance personal health and the health of others – both now and in the future as needs change throughout life. Topics include concepts related to health promotion, interpersonal relationships and how they change throughout life, and analysis of the influences of family, peers, culture, media, and technology on healthy behaviors. Students will also demonstrate the ability to advocate for personal, family, and community health, and for the promotion of respect and empathy for individual differences.

## EXPANDED ALGEBRA A/B

**Term:** Year

**Credits:** 1.0 Mathematics

**Prerequisite:** None

**Grades:** 9

**Repeat for Credit:** Yes (Elective)

**NCAA Approved Course**

Expanded Algebra A/B is the first and second semester of the three semester series to complete Algebra 1 learning standards. It is a prerequisite for Expanded Algebra C. This course lays the foundation for mathematical literacy that will help students be successful in every subsequent course in mathematics.

## EXPANDED ALGEBRA C

**Term:** Semester

**Credits:** .50 Mathematics

**Prerequisite:** Expanded Algebra A/B or one semester of Algebra 1

**Grades:** 10

**Repeat for Credit:** Yes (Elective)

Expanded Algebra C is the third and final semester of the three semester series to complete Algebra 1 learning standards. This course lays the foundation for mathematical literacy that will help students be successful in every subsequent course in mathematics.

## ALGEBRA 1

**Term:** Year

**Credits:** 1.0 Mathematics

**Prerequisite:** None

**Grades:** 9-12

**Repeat for Credit:** Yes (Elective)

**NCAA Approved Course**

Algebra 1 is a foundational course, introducing students to the advanced concepts covered in high school mathematics. Algebra 1 is the bridge between concrete and abstract mathematics. Topics include solving equations, applications of equations, graphing solution sets of equations, applications and interpretations of graphs, solving inequalities, graphing solution sets of inequalities, methods of finding a solution to a system of equations, and applications of a system of equations.

## GEOMETRY

**Term:** Semester

**Credits:** .50 Mathematics

**Prerequisite:** Algebra 1 or Expanded Algebra 1A/1B

**Grades:** 9-12

**Repeat for Credit:** Yes (Elective)

**NCAA Approved Course**

This course will focus on the use of modeling and problem solving through the study of shapes and spatial relationships. The essential learnings include topics such as right triangle trigonometry and volume in the context of real world problems; and angle relationships represented by algebraic expressions and equations.

## PROBABILITY & STATISTICS

**Term:** Semester

**Credits:** .50 Mathematics

**Prerequisite:** Algebra 1 or Expanded Algebra C

**Grades:** 9-12

**Repeat for Credit:** Yes (Elective)

**NCAA Approved Course**

This course provides students the opportunity to study up-to-date statistical topics and techniques that will prepare them for success in post-secondary careers and statistics courses. Activities will involve students in collecting, displaying and interpreting data.

# Mathematics

---

## GEOMETRY HONORS

**Term:** Semester

**Credits:** .50 Mathematics

**Prerequisite:** Algebra 1 and instructor approval

**Grades:** 9-12

**Repeat for Credit:** Yes (Elective)

**NCAA Approved Course**

**Level:** Honors

This advanced course will focus on the accelerated use of modeling and problem solving through the study of shapes and spatial relationships. The essential learnings include topics such as trigonometry and volume in the context of real world problems, similarity, and angle relationships represented by algebraic expressions and equations.

## PROBABILITY & STATISTICS HONORS

**Term:** Semester

**Credits:** .50 Mathematics

**Prerequisite:** Algebra 1 or Algebra 1A/1B (Honors with instructor approval)

**Grades:** 9-12

**Repeat for Credit:** Yes (Elective)

**NCAA Approved Course**

**Level:** Honors

**NCAA Approved Course**

This advanced course will focus on the accelerated opportunity to study up-to-date statistical topics and techniques that will prepare them for success in post-secondary careers and statistics courses. Activities will involve students in collecting, displaying and interpreting data.

## TRANSITIONAL ALGEBRA

**Term:** Year

**Credits:** 1.0 Mathematics

**Prerequisite:** Instructor approval

**Grades:** 1-12

**Repeat for Credit:** Yes (Elective)

Students will study several basic topics in Algebra 2 and Geometry. The pacing will allow for extended practice on each topic. The course has a restricted enrollment. Students may be recommended for this class through their IEP and/or by recommendation of an NMHS math teacher.

## ALGEBRA 2

**Term:** Year

**Credits:** 1.0 Mathematics

**Prerequisite:** Algebra 1 and Geometry

**Grades:** 9-12

**Repeat for Credit:** Yes (Elective)

**NCAA Approved Course**

Algebra 2 continues the study of Algebra and is a college-prep course. This course includes topics such as systems of inequalities, linear programming, exponential functions, logarithmic functions, function notation and applications, operations with polynomials, and test-taking strategies.

## ALGEBRA 2 HONORS

**Term:** Year

**Credits:** 1.0 Mathematics

**Prerequisite:** Algebra 1 and Geometry,

**Grades:** 9-12

**Repeat for Credit:** Yes (Elective)

**NCAA Approved Course**

**Level:** Honors

Algebra 2 Honors course covers the topics found in the Algebra 2 course description. It is designed for students who are advanced in their conceptual understanding and math skills. The course is taught in such a way as to allow for greater depth, faster pace, and higher level thinking skills.

## PRE-CALCULUS

**Term:** Year

**Credits:** 1.0 Mathematics

**Prerequisite:** Algebra 2

**Grades:** 10-12

**Repeat for Credit:** Yes (Elective)

**Other:** SOU credit may be available

**Level:** Honors

**NCAA Approved Course**

Pre-Calculus topics include linear functions, quadratic functions, graphing polynomials, rational and inverse functions, systems of equations and inequalities, zeros of polynomials, complex numbers, exponential and logarithmic functions, and conic sections. Students may be eligible to earn Math 111 College Now credit through RCC for this course. See instructor for details.

# Mathematics

---

## PRE-CALCULUS HONORS

**Term:** Year

**Grades:** 10-12

**Level:** Honors

**Credits:** 1.0 Mathematics

**Repeat for Credit:** Yes (Elective)

**NCAA Approved Course**

**Prerequisite:** Algebra 2 Honors or Instructor approval **Other:** SOU credit may be available

Pre-Calculus Honors covers all of the topics found in the Pre-Calculus course description above. This course is designed for students who are advanced in their maturity and math ability. Throughout the year, students will develop a conceptual understanding of the derivative as well as acquire skill in its fundamental computations. Additional topics include polar coordinates, parametric equations, and vectors. Students may be eligible to register for college credit through SOU for this course. See instructor for details.

## AP STATISTICS

**Term:** Year

**Grades:** 10-12

**Level:** AP

**Credits:** 1.0 Mathematics

**Repeat for Credit:** Yes (Elective)

**NCAA Approved Course**

**Prerequisite:** Algebra 2 **Other:** SOU credit may be available

AP Statistics closely parallels a college-level statistics course, emphasizing reading and problem solving. The learning strategies, activities, and labs emphasize real-life applications using real data. Calculators and computers will be used. Students will have the opportunity to take the AP Statistics exam. Topics include event probability, probability distributions including binomial and normal distributions, analysis of data, measures of central tendency and variability, random variables, random sampling, central limit theorem, confidence intervals, and hypothesis testing. College credit may be available through SOU. Click [here](#) to watch course video!

## AP CALCULUS AB

**Term:** Year

**Grades:** 11-12

**Level:** AP

**Credits:** 1.0 Mathematics

**Repeat for Credit:** Yes (Elective)

**NCAA Approved Course**

**Prerequisite:** Pre-Calculus Honors and Instructor approval **Other:** SOU credit may be available

AP Calculus AB is a year-long college level course that is demanding and exhilarating. The two branches of Calculus will be explored: differentiation and integration. This course is designed for students who are advanced in their maturity and math ability. It is taught in such a way as to allow for greater depth, faster pace, and higher level thinking skills. Students in this class can either take the AP Calculus AB exam or register for college credit through SOU.

## AP CALCULUS BC

**Term:** Year

**Grades:** 11-12

**Level:** AP

**Credits:** 1.0 Mathematics

**Repeat for Credit:** Yes (Elective)

**NCAA Approved Course**

**Prerequisite:** AP Calculus AB **Other:** SOU credit may be available

AP Calculus BC is a year of Calculus for those students who have already successfully completed first year Calculus. It is designed to have students deepen their understanding of year one topics in differentiation and integration through additional applications and projects and learn a variety of new topics including: sequences and series, Taylor and MacLaurin series, and parametric, polar, and vector functions. Upon completion of the course, students will be prepared to take the AP Calculus BC exam and/or earn Calculus 3 college credit through SOU.

# Physical Education

**Repeat for Credit:** Yes

**Prerequisite:** None

Injury Prevention & Sports Development is a one-semester Physical Education course designed to teach high school students how to prevent common sports-related injuries, enhance athletic performance, and develop a deeper understanding of the physical demands of sports. The course will provide students with practical techniques for injury prevention, rehabilitation strategies, and an introduction to sports science concepts such as biomechanics and fitness training principles. This class aims to equip students with the skills needed to safely participate in sports, while also introducing them to the foundations of sports development that will benefit them both in competitive and recreational settings.

### PE - RECREATIONAL GAMES/FITNESS

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Physical Education

**Repeat for Credit:** Yes

**Prerequisite:** None

Recreational Games is a course that emphasizes various activities incorporating large team, small team and individual participation. Sportsmanship, and positive social interaction are stressed. This course comprises net sports, including volleyball, badminton, and pickleball, as well as the more traditional games like basketball, flag football, soccer, and Frisbee golf. There is a portion of fitness, strength and cardiovascular training in addition to the games.

### PE - SELF-DIRECTED FITNESS

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Physical Education

**Repeat for Credit:** Yes

**Prerequisite:** None

Self-directed Fitness introduces the student to the fundamental relationship between physical fitness and a healthy lifestyle. Varied physical activities are introduced to give the student practical experiences with the ultimate goal of self directed lifetime wellness. Guest teachers will supplement quality instruction to inspire and prepare students for the world of fitness and wellness in the local community. This class will be for students to work out in the weightroom or play a sport of their choice. The class will be structured as a gym and the students will maintain a membership for a grade, it will give students the opportunity to showcase their ability to maintain a healthy physical lifestyle that is not directed by a school. Students will have a subject matter expert that can assist them with questions or workouts.

# Physical Education

---

## **PE – WEIGHTS 1**

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Physical Education

**Repeat for Credit:** Yes

**Prerequisite:** None

This class is intended as an introduction to concepts associated with strength and conditioning. Ideally for 9th graders, it is open to anyone new to the tenets of gaining strength. A large emphasis on beginning technique, activities, and safety will be given.

## **PE – WEIGHTS 2**

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Physical Education

**Repeat for Credit:** Yes

**Prerequisite:** Weights 1

This is a physically demanding course with major emphasis directed to athletic development through strength, speed, and flexibility training.

## **PE – STRENGTH AND CONDITIONING**

**Term:** Semester

**Grades:** 9-12

**Credits:** .50 Physical Education

**Repeat for Credit:** Yes

**Prerequisite:** Weights 1, Weights 2, and Teacher approval

Strength and Conditioning is an advanced weight training class to provide opportunities for students to become better all around athletes. This course is designed to give students the opportunity to learn weight training concepts and techniques used for obtaining optimal physical fitness. Students will benefit from comprehensive weight training, speed, and agility based activities. Students will learn the basic fundamentals of strength, speed, and agility training. The class will include a variety of activities through multiple strength phases. Students will be empowered to make wise choices, challenge themselves, and develop positive behaviors in fitness, wellness, and movement activity for a lifetime.

Chemistry 1	2	No	Biology & passed Algebra 1	10-12
Chemistry 1 Honors	2	No	Biology & passed Algebra 1	10-12
Forensic Science	2	No	Passed Biology & Chemistry (or concurrent enrollment)	12
General Zoology	2	No	Grades 11 & 12 – One year of Biology or instructor approval, and one year of Physical Science (may be concurrent) Grade 10 – In addition, must be enrolled concurrently in Chemistry 1 or Chemistry 1 Honors	11-12
Physics	2	No	Concurrent enrollment in Algebra 1 or Geometry	11-12

### BIOLOGY

**Term:** Year

**Credits:** 1.0 Science

**Prerequisite:**

**Grades:** 9-12

**Repeat for Credit:** No

**NCAA Approved Course**

This course is a COLLEGE-PREPARATORY course designed to provide a student with a solid background in the fundamental concepts of life and life processes. Students will study selected biological topics including cellular biology, taxonomy, cell chemistry, genetics, microbiology, reproduction, photosynthesis, respiration, embryology, and ecology.

# Science

---

## BIOLOGY HONORS

**Term:** Year

**Grades:** 9-10

**Level:** Honors

**Credits:** 1.0 Science

**Repeat for Credit:** No

**NCAA Approved Course**

**Prerequisite:** Teacher recommendation from MSD middle school or supporting data from out-of-district school

**Other:** RCC credit may be available

This COLLEGE-LEVEL course is designed for motivated students of high academic ability and maturity. Students in this class also should have a keen interest in science. While the general course description for Biology also applies to Biology Honors, the topics will often be covered in greater depth and breadth. Some topics will likely be covered more quickly. Students are expected to complete independent individual projects. In addition, an emphasis will be placed on higher level thinking skills. RCC-SOU credit option.

## CHEMISTRY 1

**Term:** Year

**Grades:** 10-12

**Credits:** 1.0 Science

**Repeat for Credit:** No

**NCAA Approved Course**

**Prerequisite:** Biology, and concurrent enrollment in Geometry or higher math course

This is a COLLEGE-PREPARATORY course which covers the fundamental concepts of lab skills and safety, atomic theory and nuclear chemistry, EMR, stoichiometry, bonding, chemical reactions, gas laws, solutions, and the energy changes involved in chemical reactions. Student knowledge and insight into how chemistry principles are present in the home and in the real world is expanded through collaborative learning, lectures, laboratory activities, classroom discussion, textbook readings, and demonstrations. Scientific inquiry methods provide the foundation for learning concepts.

## CHEMISTRY 1 HONORS

**Term:** Year

**Grades:** 10-12

**Level:** Honors

**Credits:** 1.0 Science

**Repeat for Credit:** No

**NCAA Approved Course**

**Prerequisite:** Biology & concurrent enrollment in Geometry or higher math course

**Other:** SOU & RCC credit may be available

Honors Chemistry is a hands-on course designed to prepare students for college level work. Students will be expected to understand the theory and mathematical relationships describing the behavior of particles on the atomic scale. This will include consistent exposure to lab techniques that will give students the ability to understand the data they collect and use that data to create college level lab reports. Topics covered include physical and chemical changes, atomic structure, nuclear chemistry, chemical bonding, intermolecular forces, chemical reactions, energy of reaction, Acids and Bases, and kinetic molecular theory. 100 level college credit can be earned through SOU.

## PHYSICS

**Term:** Year

**Grades:** 11-12

**Credits:** 1.0 Science

**Repeat for Credit:** No

**NCAA Approved Course**

**Prerequisite:** Completion of Algebra 1 and Geometry

This Physics course provides students with an opportunity to develop their overall scientific literacy while engaging with real-world phenomena and the physical laws that explain them. Students will use science and engineering practices to gain an understanding of topics like motion, forces, energy, electromagnetism, and various wave phenomena like sound and light. Special focus will be placed on developing a deep conceptual understanding of physics. Through daily inquiry, hands-on labs, demonstrations, group discussions, and other activities, students will learn to relate their growing scientific awareness to the world around them. To be successful in this class, students need a firm grasp of basic algebra along with a strong sense of curiosity.

# Science

---

## AP PHYSICS

**Term:** Year

**Grades:** 11-12

**Level:** AP

**Credits:** 1.0 Science

**Repeat for Credit:** No

**NCAA Approved Course**

**Prerequisite:** Completion of Algebra 2 or higher (or concurrent enrollment)

This COLLEGE-LEVEL course is a broad survey designed to present a wide range of real-world phenomena and the physical laws that explain them. Students will make use of science and engineering practices to investigate topics ranging from motion, forces, gravitation, energy, waves, momentum, simple harmonic motion, torque, and rotational motion. Special focus will be placed on designing and conducting experiments, analyzing data, and developing solutions to complex real-world problems. The rigor of this class is equivalent to an introductory college physics course and will make regular use of skills learned in Geometry and Algebra 2. To be successful, students will need to be comfortable with algebraic manipulations and trigonometry. Students will leave the course with the ability to apply their understanding of physics to solve complex real-world problems. We will accomplish these objectives through lab work, class activities, class discussions, and solving and presenting problems. By the end of the school year, students will be prepared to take the AP Physics exam.

## ASTRONOMY

**Term:** Year

**Grades:** 10-12

**Level:** Honors

**Credits:** 1.0 Science

**NCAA Approved Course**

**Prerequisite:** 11/12th grade or 10th grade concurrently enrolled in Chemistry; 2 years of Science: 1 year in Biological Sciences and 1 year in Physical Sciences; 2 years of Math of at least Algebra 1 & Geometry and enrolled in Algebra 2

**Repeat for Credit:** Yes, as Science elective credit

**Other:** SOU credit may be available

This course is a COLLEGE-LEVEL COURSE taught by the use of the district planetarium and includes study in the solar system, stars, galaxies, and interstellar bodies, and deep space research. Students learn how to operate telescopes and identify the essential parts of the solar system. Astronomy culminates with a rocketry unit where each student designs, engineers, tests, and launches a homemade rocket. Students enrolled in this class may register for college credit through SOU if they have completed or are currently enrolled in Algebra 2.

## AP ENVIRONMENTAL SCIENCE

**Term:** Year

**Grades:** 11-12

**Level:** Honors

**Credits:** 1.0 Science

**Repeat for Credit:** No

**NCAA Approved Course**

**Prerequisite:** Biology and Chemistry

This class is a dynamic, hands-on course that dives into the connections between humans and this planet we call home. Students will tackle pressing issues like resource management, climate change, and biodiversity loss - exploring the science behind these challenges and the solutions to address them. The class will bring together earlier science learning with new concepts of government, economics, and history to empower students with a well-informed and evidence-based understanding of the Earth and its complex systems. Through experiments, data analysis, and real-world case studies, students will learn to think critically and develop strategies to create a sustainable future. This course isn't just about earning AP credit, it's about building curiosity, uncovering new connections, and learning more about the world every day.

## BIOCHEMISTRY

**Term:** Year

**Grades:** 11-12

**Credits:** 1.0 Science

**Repeat for Credit:** No

**Prerequisite:** Chemistry and Biology

This course explores the many varieties of carbon compounds and focuses on the four basic macromolecules present in life forms. Studies begin with hydrocarbons and expand to include recognition and classification of the common functional groups. The course will also incorporate an exploration of genetics. Students pursuing a career in the medical arts can use this course to provide basic knowledge that will be applied in college level Organic Chemistry.

# Science

---

## ANATOMY AND PHYSIOLOGY

**Term:** Year

**Credits:** 1.0 Science

**Prerequisite:** Biology

**Grades:** 11-12

**Repeat for Credit:** No

**Other:** SOU credit may be available

**Level:** Honors

**NCAA Approved Course**

This is an advanced college-level biological course of study which focuses on the general body plan and specific systems within a human (skeletal, muscular, nervous, circulatory, digestive etc.). This course involves extensive laboratory activities including anatomical dissections. This course is recommended for students interested in careers in medicine. Students enrolled in this class may register for college credit through SOU.

## FORENSIC SCIENCE

**Term:** Year

**Credits:** 1.0 Science

**Prerequisite:** Passed Biology & Physical Science (or concurrent enrollment)

**Grades:** 12

**Repeat for Credit:** No

**NCAA Approved Course**

This course is a lab-based introduction to Forensics – the application of scientific tools and principles to help solve crimes. Students will gain skills in scientific inquiry, critical thinking, and macroscopic/microscopic investigation as they explore how to recognize, collect, and analyze evidences from the following areas: hair, fibers, fingerprints, blood spatter, DNA, drugs, poisons, documents, wildlife, plants, ballistics, death, insects, skeletal remains, and criminal psychology.

## GENERAL ZOOLOGY

**Term:** Year

**Credits:** 1.0 Science

**Prerequisite:** *For grades 11 and 12* - One year of Biology or permission of instructor, and one year of a Physical Science (may be concurrent)  
*For grade 10* – In addition to the above prerequisites, sophomores must also be enrolled concurrently in Chemistry or Chemistry Honors

**Grades:** 10-12

**Repeat for Credit:** No

**Level:** Honors

**NCAA Approved Course**

**Other:** SOU or RCC credit may be available

This is an advanced COLLEGE-LEVEL biology course where students will learn about the classification and biology of animals. This course has been designed to provide a general study of the Animal Kingdom, including both invertebrates and vertebrates. Specific topics covered will include phylogeny, diversity, anatomy, morphology, physiology and life cycles. Aspects of their ecology and behavior will also be discussed. Students are expected to have extensive study skills which will assist them in classroom discussion, textbook readings, and pre-lab assignments. This course will also require extensive laboratory activities, including anatomical dissections and individual projects. This course may be taken for RCC credit (4 credits) & SOU credit (8 credits).

## AP BIOLOGY

**Term:** Year

**Credits:** 1.0 Science

**Prerequisite:** Biology & Chemistry or instructor approval

**Grades:** 11-12

**Repeat for Credit:** No

**Other:** SOU credit may be available

**Level:** AP

**NCAA Approved Course**

This is a COLLEGE-LEVEL course that is, as much as possible, a comprehensive coverage of the biological sciences. This course stresses the development of the conceptual framework, factual knowledge, and (through labs) analytical skills essential for dealing in a critical manner with the ever-changing nature of biology as a science. Three general areas are dealt with in this course. Twenty-five percent of the course addresses molecules and cells, 25% is devoted to genetics and evolution, and the remaining 50% focuses on organisms and populations. Potential benefits of taking AP Biology include being prepared to take the AP Biology exam. SOU credit optional.

# Science

---

## AP CHEMISTRY

**Term:** Year

**Credits:** 1.0 Science

**Prerequisite:** Honors Chemistry; concurrent enrollment  
in pre-calculus or higher math course

**Other:** SOU credit may be available

**Grades:** 11-12

**Repeat for Credit:** No

**Level:** AP

**NCAA Approved Course**

AP chemistry is a fast paced college level course designed for students interested in a career in science or medicine. This class will prepare students for the workload they will experience on their way to a science degree. During the year we will be preparing for the AP Chemistry test. Passing the test requires students to have a deep understanding of the relationships between different concepts studied in chemistry. In addition, they will have numerous opportunities to practice lab techniques that will give them a strong familiarity with the data obtained from experiments. Students will use the data they collect to prepare college lab reports analyzing and critiquing the data collected and evaluating their results. Topics covered include atomic structure, quantum mechanics, chemical bonding, intermolecular forces, chemical reactions, energy of reaction, reaction rates, equilibrium, acids and bases, and thermodynamics. 200 level college credit can be earned through SOU.

# Social Science

---

## WORLD STUDIES

**Term:** Year

**Credits:** 1.0 Social Science

**Prerequisite:** None

**Grades:** 9-10

**Repeat for Credit:** No

**NCAA Approved Course**

This course examines the history, politics, economics, geography, society, and cultures of the world and covers the expanse of history beginning with the periods of imperialism and colonialism and continuing through World War II. This course takes an interdisciplinary approach blending reading, writing, and speaking with history.

## AP HUMAN GEOGRAPHY

**Term:** Year

**Credits:** 1.0 Social Science

**Prerequisite:** None

**Grades:** 9-12

**Repeat for Credit:** No

**NCAA Approved Course**

**Level:** AP

This course prepares students for the AP Human Geography exam by introducing students to world population issues, border disputes, and international conflicts. The course exposes students to economic theories and models as well as world religions and the origins and diffusion of languages. Students will study urban development, industrialization, and city planning along with examining human social organization and its environmental consequences.

## AP WORLD HISTORY

**Term:** Year

**Credits:** 1.0 Social Science

**Prerequisite:** None

**Grades:** 9-12

**Repeat for Credit:** No

**Other:** SOU credit may be available

**Level:** AP

**NCAA Approved Course**

This course prepares students for the AP World History exam while inviting committed students to take a global view of historical processes and contacts between people in different societies from 1200 C.E. to the present. The course offers balanced global coverage with Africa, the Americas, Asia, and Europe all represented. This course devotes considerable time to critical evaluation of primary and secondary sources, analysis of historiography, oral presentations, and analytical essay writing. Students enrolled in this course should develop a broad vision of human societies, beginning as sparse and disconnected communities and arriving at a Twenty-First Century world in which people increasingly visualize a single global community. College credit through SOU may be available.

## AMERICAN STUDIES

**Term:** Year

**Credits:** 1.0 Social Science

**Prerequisite:** None

**Grades:** 10-11

**Repeat for Credit:** No

**NCAA Approved Course**

This course provides an overview of the history of the United States, examining time periods from the post-industrial revolution through the Vietnam War. Political, military, scientific, geography, and social developments are included in this historical overview.

## AP U.S. HISTORY

**Term:** Year

**Credits:** 1.0 Social Science

**Prerequisite:** None

**Grades:** 10-12

**Repeat for Credit:** No

**Other:** SOU credit may be available

**Level:** AP

**NCAA Approved Course**

This course prepares students for the AP U.S. History exam and provides students with the analytical skills and factual knowledge necessary to deal critically with the events, people, concepts, and problems associated with United States history. Students learn to assess historical materials and to weigh the evidence and interpretations presented in historical scholarship. The course examines U.S history from pre-Columbian America times through the early 2000s. College credit through SOU is available.

# Social Science

---

## **CIVICS**

**Term:** Semester  
**Credits:** .50 Social Science  
**Prerequisite:** None

**Grades:** 12  
**Repeat for Credit:** No  
**NCAA Approved Course**

This course is designed to empower students with the knowledge and skills necessary to engage as informed, thoughtful, and active participants in a democratic society. The Civics curriculum focuses on key areas, including: the structure and function of government at the local, state, and federal levels, as well as the development and mechanisms of the government-to-government relationship between the state and the nine federally recognized tribal governments; the rights and responsibilities of citizenship; the election process and the role of political parties; civil discourse, media literacy, and critical thinking in evaluating current events and societal issues; the significance of civic participation, advocacy, and community involvement. This course encourages students to explore the foundations of democracy while equipping them with tools to contribute meaningfully to their communities and beyond.

## **AP GOVERNMENT**

**Term:** Year  
**Credits:** 1.0 Social Science  
**Prerequisite:** American Studies/AP U.S. History

**Grades:** 11-12  
**Repeat for Credit:** No  
**Level:** AP  
**NCAA Approved Course**  
**Other:** SOU credit may be available

This course prepares students for AP exams in U.S. Government & Politics. This course provides students with an analytical perspective on government and politics in the United States, involving both the study of general concepts used to interpret U.S. politics and analysis of specific case studies. Additional comparative analysis of other political systems (including the United Kingdom, the French Republic, and the Russian Federation) provide students with a comprehensive understanding of government and politics. College credit through SOU may be available. Click [here](#) to watch course video!

## **ECONOMICS**

**Term:** Semester  
**Credits:** .50 Social Science  
**Prerequisite:** None

**Grades:** 12  
**Repeat for Credit:** No  
**NCAA Approved Course**

This course provides an overview of economics with a primary emphasis on the U.S. economic system. This course covers topics such as pricing, economic performance, taxes, and monetary and fiscal policy. Economic principles are studied in both a formal and applied manner. RCC College Now credit may be available.

## **AP ECONOMICS**

**Term:** Year  
**Credits:** 1.0 Social Science  
**Prerequisite:** Open enrollment with instructor approval

**Grades:** 11-12  
**Repeat for Credit:** No  
**Level:** AP  
**NCAA Approved Course**

This course prepares students for AP exams in both microeconomics and macroeconomics. This course includes in-depth instruction in the course content of the Economics course described above. Additionally, the microeconomics content provides students with a thorough understanding of the principles of economics that apply to an economic system as a whole. The course places particular emphasis on the study of national income and price determination and developing students' familiarity with economic performance measures, economic growth, and international economics.

---

## **INTRODUCTION TO LAW**

**Term:** Semester  
**Credits:** .50 Social Science/Contemporary Issues  
**Prerequisite:** None

**Grades:** 10-12  
**Repeat for Credit:** No  
**NCAA Approved Course**

For students interested in working in law enforcement or as an attorney, this course would be a great option. Introduction to Law is designed to help students understand and appreciate the impact of law and the legal system in our society. Students will learn how the legal system functions, the constitutional underpinning of our civil rights and liberties, and examine case studies that help analyze both the 'hows' and 'whys' of the legal system's operations. Be prepared to write! Students will earn Contemporary Issues credit for this class.

# Social Science

---

## CRIMINAL LAW

**Term:** Semester

**Credits:** .50 Elective

**Prerequisite:** Intro to Law

**Grades:** 10-12

**Repeat for Credit:** No

**NCAA Approved Course**

Criminal Law is an exploration of the historical development, current operation, and future trends of criminal justice. Emphasis will be placed on contemporary problems in the definitions of law, the enforcement of law, strategies of policing, judicial systems, sentencing strategies, correctional practices, and emerging forms of justice. While the focus of the content will be practices in the United States, we will also look at other cultures and their systems of justice. Students will be introduced to the notion that our definitions of what constitutes a “crime”, how society responds to it, and how we explain crime and criminals have changed over time. Similarly, those methods used to measure and compare crime have also changed and students will be introduced to the major sources of our understanding of what we know about the extent of crime in society. A broad survey of the origins, historical development of policing, prosecution, adjudication, sentencing and corrections in the United States will provide students with a basic understanding of the administration of criminal justice and challenge them to decide whether the criminal justice system is a “system” or a “process”.

## MOCK TRIAL

**Term:** Year

**Credits:** 1.0 Elective

**Prerequisite:** Criminal Law

**Grades:** 10-12

**Repeat for Credit:** Yes

Mock Trial is the focused study of the intersection between trial law and courtroom procedure. This class will prepare students to analyze criminal cases based on merit, to select jury members, create strategies for both defending and prosecuting defendants and to present evidence in a courtroom setting in the attempt to “win” a legal case. This class will be interactive, as students will be expected to argue routinely for the guilt or innocence of alleged criminals.

## AP PSYCHOLOGY

**Term:** Year

**Credits:** 1.0 Elective

**Prerequisite:** None

**Grades:** 10-12

**Repeat for Credit:** No

**Other:** SOU credit may be available.

**Level:** AP

**NCAA Approved Course**

The purpose of this course is to introduce committed students to systematic and scientific study of the behavior and mental processes of human beings and other animals. Students taking this course are exposed to the psychological facts, principles, and phenomena associated with each of the major subfields within psychology. In this course we will survey Psychology by examining topics ranging from the biological bases of behavior to social and cultural interactions. The main goal of this course is to provide the AP student with a learning experience equivalent to that obtained in most college introductory psychology courses while preparing the students to take the AP Psychology exam.

## MILITARY SCIENCE

**Term:** Semester

**Credits:** .50 Elective

**Prerequisite:** None

**Grades:** 9-12

**Repeat for Credit:** Yes

The Military Science course provides an overview of leadership fundamentals and explores the competencies that are important for personal development. This class explores essential leader knowledge areas such as direction setting, problem solving, effective writing, citizenship and the basics of military service.

## PSYCHOLOGY

**Term:** Semester

**Credits:** .50 Elective

**Prerequisite:** None

**Grades:** 10-12

**Repeat for Credit:** No

**NCAA Approved Course**

This course offers a general survey of the field of psychology covering a range of scientific and applied areas including the methodology, developmental, biopsychological, and cognitive domains. Specific topics may include psychological science, neuroscience and behavior, the developing person, sensation & perception, learning, memory, thinking and intelligence, personality, psychological disorders, therapy, and social psychology.

# Social Science

---

## **PERSONAL FINANCE**

**Term:** Semester

**Credits:** .50 Elective

**Prerequisite:** None

**Grades:** 10-12

**Repeat for Credit:** No

Course covers financial literacy using curriculum from Foundations in Personal Finance (Dave Ramsey company)

Opportunities include: Budgeting, Resume Building, Savings, College Planning, Insurance evaluation, Debt Analysis, and many other financial literacy topics.

# World Languages & English Language Development

### ACADEMIC LANGUAGE & LITERACY

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0

**Repeat for Credit:** Yes

**Prerequisite:** Placement based on need

This course is designed to build the academic reading and writing skills of students who are learning English. The overarching purpose of the class is to accelerate language development so students can better access the content of core classes. Key components of the class are: reading fiction and non-fiction texts, writing informative and argumentative essays, developing academic vocabulary and oral proficiency.

### ELD LEVEL 1 - BEGINNER

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Elective

**Repeat for Credit:** Yes

**Prerequisite:** Placement based on data

Non-English proficient students are given intensive English Language Development using the state approved Systematic English Language Development program (ELD), comprising 5 levels. Courses focus on vocabulary and grammar development, reading, writing and speaking. Students may enroll in non-ELL courses. Emphasis in all classes is on developing English language proficiency and pronunciation. Elective credit will be earned for all ELD courses taken and passed.

# World Languages & English Language Development

---

## **ELD LEVEL 2 - BEGINNER**

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Elective

**Repeat for Credit:** Yes

**Prerequisite:** Placement based on data

Non-English proficient students are given intensive English Language Development using the state approved Systematic English Language Development program (ELD), comprising 5 levels. Courses focus on vocabulary and grammar development, reading, writing and speaking. Students may enroll in non-ELL courses. Emphasis in all classes is on developing English language proficiency and pronunciation. Elective credit will be earned for all ELD courses taken and passed.

## **ELD LEVEL 3 - INTERMEDIATE**

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Elective

**Repeat for Credit:** Yes

**Prerequisite:** Score of 2 required on ELPA

English learners at this level have developed some competence in oral and conversational English. Course continues to focus on vocabulary and grammar development, with continued emphasis on reading, writing, and speaking. These students will also be enrolled in mainstream courses.

## **ELD LEVEL 4 - ADVANCED**

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Elective

**Repeat for Credit:** Yes

**Prerequisite:** Score of 3 required on ELPA

ELL students at this level have developed a significant level of competence in oral and conversational English but may need additional support with specialized vocabulary, reading and writing skills. A student may exit the ELL program by passing the ELPA exam (English Language Proficiency Assessment). Results from the ELPA exam will be considered in addition to the sample. Emphasis for this course is on academic vocabulary, writing and higher level grammatical forms. These students will also be enrolled in mainstream courses.

## **ELD LEVEL 5 - ADVANCED**

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Elective

**Repeat for Credit:** Yes

**Prerequisite:** Score of 4 required on ELPA

ELL students at this level have developed a significant level of competence in oral and conversational English but may need additional support with specialized vocabulary, reading and writing skills. A student may exit the ELL program by passing the ELPA exam (English Language Proficiency Assessment). Emphasis for this course is on academic vocabulary, writing and higher level grammatical forms. Level 5 students will exhibit more advanced paragraph construction. These students will also be enrolled in mainstream courses.

## **FRENCH I**

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** None

**NCAA Approved Course**

Students will begin to learn the language, geography and cultures of French-speaking countries. Students will gain an understanding of how languages are structured and be able to make linguistic and cultural comparisons. The course is designed for students to communicate by speaking, reading, writing, and understanding both written and spoken French. Students beginning their Freshman year will be able to complete the full program of study and apply to earn university credit their Senior year.

# World Languages & English Language Development

---

## FRENCH 2

**Term:** Year

**Credits:** 1.0 Arts/CTE/2nd Language

**Prerequisite:** French 1, or instructor approval

**Grades:** 9-12

**Repeat for Credit:** No

**NCAA Approved Course**

Students will continue to build and expand upon their learning from their first year of language study. Students will learn to express themselves on everyday topics using language that is more complex and detailed, and will further develop their knowledge and understanding of the target culture(s).

## FRENCH 3

**Term:** Year

**Credits:** 1.0 Arts/CTE/2nd Language

**Prerequisite:** French 2, or instructor approval

**Grades:** 10-12

**Repeat for Credit:** No

**NCAA Approved Course**

**Level:** Honors

These courses are designed for students who intend to attain intermediate fluency in the target language. Emphasis is on oral proficiency and creative production with the language. Vocabulary will focus on familiar, common topics and everyday situations. Students will be able to initiate, sustain and close an extended conversation. Students will have the opportunity to earn articulated university credit for French 3 from Rogue Community College.

## FRENCH 4

**Term:** Year

**Credits:** 1.0 Arts/CTE/2nd Language

**Prerequisite:** French 3, or instructor approval

**Grades:** 11-12

**Repeat for Credit:** No

**NCAA Approved Course**

**Level:** Honors

Students who complete their fourth year of language study will become largely fluent in the language. Students who are able to demonstrate advanced proficiency will also have the opportunity to earn the Oregon State Seal of Biliteracy as well as earn articulated university credit for French 4 from Rogue Community College. Topical vocabulary will be expanded to include situations that are both familiar and unfamiliar, and emphasis will be on the sustained and creative use of the language.

## SPANISH I

**Term:** Year

**Credits:** 1.0 Arts/CTE/2nd Language

**Prerequisite:** None

**Grades:** 9-12

**Repeat for Credit:** No

**NCAA Approved Course**

Students will begin to learn the language, geography and cultures of Spanish-speaking countries. Students will gain an understanding of how language is structured and be able to make linguistic and cultural comparisons. The course is designed for students to communicate by speaking, reading, writing, and understanding both written and spoken Spanish.

## SPANISH 2

**Term:** Year

**Credits:** 1.0 Arts/CTE/2nd Language

**Prerequisite:** Spanish 1, or instructor approval

**Grades:** 9-12

**Repeat for Credit:** No

**NCAA Approved Course**

Students will continue to build and expand upon their learning from their first year of language study. Students will learn to express themselves on everyday topics using language that is more complex and detailed, and will further develop their knowledge and understanding of the target culture(s). **Spanish 2 is not recommended for Spanish language heritage speakers.**

# World Languages & English Language Development

---

## SPANISH 3

**Term:** Year

**Grades:** 10-12

**Level:** Honors

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** Spanish 2 or instructor approval

**NCAA Approved Course**

These courses are designed for students who intend to attain intermediate fluency in the target language. Emphasis is on oral proficiency and creative production with the language. Vocabulary will focus on familiar, common topics and everyday situations. Students will be able to initiate, sustain and close an extended conversation.

## SPANISH 4

**Term:** Year

**Grades:** 11-12

**Level:** Honors

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** Spanish 3 or instructor approval

**NCAA Approved Course**

Students who complete their fourth year of language study will become largely fluent in the language. One of the primary goals of these courses is for students to achieve a level of linguistic proficiency. Students who are able to demonstrate advanced proficiency will also have the opportunity to earn the Oregon State Seal of Biliteracy. Topical vocabulary will be expanded to include situations that are both familiar and unfamiliar, and emphasis will be on the sustained and creative use of the language.

## SPANISH 5

**Term:** Year

**Grades:** 12

**Level:** Honors

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** Spanish 4 or instructor approval

**NCAA Approved Course**

Continuing development of increasingly complex target language skills with an emphasis on oral and written proficiency and production. Students will demonstrate a strong desire to converse in the target language only (in a clearly participatory manner) in order to communicate information on practical and factual matters. Students are required to communicate in Spanish and formulate opinions about topics while demonstrating control of the present, past and future time.

## SPANISH FOR HERITAGE SPEAKERS 3

**Term:** Year

**Grades:** 9-12

**Level:** Honors

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** No

**Prerequisite:** Student is a heritage speaker, or counselor/ instructor approval

**NCAA Approved Course**

This course is designed for Heritage Spanish speakers; native speakers are also welcome. Students will develop their reading, writing, speaking and listening skills in Spanish. Students are expected to participate in a variety of activities designed to improve their linguistic and literacy skills in Spanish. Students who are able to demonstrate advanced proficiency will also have the opportunity to earn the Oregon State Seal of Biliteracy. Click [here](#) to watch course video!

## SPANISH FOR HERITAGE SPEAKERS 4

**Term:** Year

**Grades:** 9-12

**Level:** Honors

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** Yes

**Prerequisite:** Heritage 3, & counselor or instructor approval

**NCAA Approved Course**

In this course, academically motivated Spanish speaking students will build on the foundational reading, listening, writing and speaking skills gained in Heritage 3. The focus of this college-preparatory course is language acquisition at the novice-high to intermediate-low proficiency levels and preparation for the demands, depth and complexity of the AP Spanish Language and Culture course. Students who are able to demonstrate advanced proficiency will also have the opportunity to earn the Oregon State Seal of Biliteracy. Click [here](#) to watch course video!

## **AP SPANISH LANGUAGE FOR HERITAGE SPEAKERS**

**Term:** Year

**Grades:** 11-12

**Level:** AP

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** No

**NCAA Approved:** Yes

**Prerequisite:** Heritage 4/Pre-AP or instructor approval

The AP Spanish Language and Culture course is a rigorous course taught exclusively in Spanish that requires students to improve their proficiency across the three modes of communication [CR1]. The course focuses on the integration of authentic resources including online print, audio, and audiovisual resources, as well as traditional print resources that include literature, essays, and magazine and newspaper articles with the goal of providing a rich, diverse learning experience. Students communicate using rich, advanced vocabulary and linguistic structures as they build proficiency in all modes of communication toward the pre-advanced level. Organization The course is divided into thematic units which are further based on recommended contexts and guided by essential questions. Corresponding cultural elements are integrated into the study of the units, and activities are directed with those cultural connections in mind. Discussion of the topics completely in Spanish is a requirement for this course. It is assumed that students have previously been exposed to advanced language structures in the courses leading up to the AP Spanish Language and Culture course; however, review of the mechanics is done within the contextual framework of each unit as needed.

## **AP SPANISH LITERATURE**

**Term:** Year

**Grades:** 11-12

**Level:** AP

**Credits:** 1.0 Arts/CTE/2nd Language

**Repeat for Credit:** No

**NCAA Approved:** Yes

**Prerequisite:** AP Spanish Language or instructor approval

AP Spanish Literature and Culture is designed to introduce students to the formal study of Peninsular Spanish, Latin American, and U.S. Hispanic literature. The course aims to develop students' critical reading and analytical writing skills in Spanish as well as their ability to make interdisciplinary connections and explore linguistic and cultural comparisons. This class will be conducted entirely in Spanish appropriate to this level and covers the entire official AP Spanish Literature and Culture reading list. Literary texts are grouped by themes and presented in chronological order within each theme. Students are expected to discuss literary texts and their different historical, socio-cultural and geopolitical contexts in a variety of interactive oral and written formats in Spanish. Additionally, students will analyze themes and features of artistic representations, audiovisual materials and audio sources in Spanish related to course content.

# Non-Departmental Programs

---

## ACADEMIC TUTOR

**Term:** Semester

**Credits:** .50 Elective

**Prerequisite:** Instructor approval

**Grades:** 10-12

**Repeat for Credit:** Yes

This course allows students to work alongside a supervising teacher and serve as tutor or mentor to other students in a regular classroom. There may be required training prior to starting the course.

## COMMERCIAL DRONE PILOT GROUND SCHOOL

**Term:** Semester

**Credits:** .50 Elective

**Prerequisite:** Student must be age 16 to participate

**Grades:** 11-12

**Repeat for Credit:** No

This course provides an in-depth understanding of the essential principles of aviation, safety regulations, flight planning, and drone technologies. Through interactive lessons, practical exercises, and hands-on flight training, students will gain the skills and knowledge necessary to operate drones for commercial purposes legally and safely. In addition, students will explore various career opportunities within the rapidly growing drone industry, such as aerial photography, surveying, agriculture, and emergency response. By the end of the course, students will be well prepared to take the FAA Part 107 exam and pursue a career in drone-based fields.

## COOPERATIVE WORK EXPERIENCE

**Term:** Semester

**Credits:** .50 Elective

**Prerequisite:** Approval of the Work Experience Coordinator

**Grades:** 11-12

**Repeat for Credit:** Yes

This program gives students the opportunity to "earn and learn" while applying the "8 Keys to Employability." Students interested in applying for this program must pick up an application and overview of student responsibilities from the College and Career Center. Students are required to complete educational components, maintain employment for a minimum of 60 hours per quarter, and receive positive employer evaluations. Grading is on a pass/no pass basis. Students will be allowed to earn a maximum of (2) credits through Work Experience.

## CREDIT RETRIEVAL

**Term:** Semester

**Credits:** Credits recovered only

**Prerequisite:** Assigned by counselor

**Grades:** 9-12

**Repeat for Credit:** N/A

Credit Retrieval offers students the opportunity to recover credit for core courses that were failed through the use of an online learning tool. Only credits for the courses recovered will be given.

## LEADERSHIP

**Term:** Year

**Credits:** 1.0 Elective

**Prerequisite:** Selected through application

**Grades:** 9-12

**Repeat for Credit:** Yes

This course is for those students who successfully go through the application process and who want to make a difference at our school and in our community. Leadership students are expected to strive toward our mission statement: "We will work as a family to infuse service, inclusiveness, and positivity into North Medford High School by embodying BTP (Black Tornado Pride) and leading by example." This program requires dedication, creativity and intense participation. Students will spend a great deal of time and effort developing into young community leaders.

# Non-Departmental Programs

---

## PRIVATE PILOT GROUND SCHOOL

**Term:** Semester

**Grades:** 11-12

**Credits:** .50 Elective

**Repeat for Credit:** Yes

**Prerequisite:** Student is 16yo, strong algebra skills, passing Physics or Astronomy

Students will explore the theoretical knowledge required to become a private pilot, including principles of flight, navigation, weather patterns, airspace, aviation regulations, and flight safety. Through a combination of lectures, hands-on activities, multimedia resources, and real-world flight planning exercises, students will build a comprehensive understanding of what it takes to operate an aircraft safely and effectively. The course aligns with the curriculum for the FAA Private Pilot Knowledge Test. Upon completion, students will gain both the knowledge and confidence to pursue further flight training and aviation-related career paths.

## SPECIAL EDUCATION PEER MENTOR

**Term:** Semester

**Grades:** 10-12

**Credits:** .50 Elective

**Repeat for Credit:** Yes

**Prerequisite:** Instructor approval

Students will assist peer students with academic, social, or physical struggles to access curriculum as determined by the teacher. Students will actually participate in class activities and provide an example of proper citizenship. Duties could include attending classes, participating and supervising students in classroom activities, tutoring and mentoring students with a variety of abilities, taking data and preparing materials in class to assist the teacher. Training will be provided and will be required to participate.

## STUDENT AIDE

**Term:** Semester

**Grades:** 10-12

**Credits:** .50 Elective

**Repeat for Credit:** Yes

**Prerequisite:** Instructor approval

A student aide will support the staff member to which they are assigned through task completion that will support the teaching and learning environment. Regular attendance and dependability are required to earn credit.

## STUDENT GOVERNMENT

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Elective

**Repeat for Credit:** Yes

**Prerequisite:** Election by student body

This course is for those students who are elected to represent their class and who want to make a difference at our school and in our community. Representatives are expected to strive toward our mission statement: "We will work as a family to infuse service, inclusiveness, and positivity into North Medford High School by embodying BTP (Black Tornado Pride) and leading by example." This program requires dedication, creativity and intense participation. Students will spend a great deal of time and effort developing into young community leaders.

## TUTORIAL COURSES

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Elective

**Repeat for Credit:** Yes

**Prerequisite:** Instructor approval

Tutorial offers a structured study hall for those students on Individualized Education Plans.

## YEARBOOK

**Term:** Year

**Grades:** 9-12

**Credits:** 1.0 Elective

**Repeat for Credit:** Yes

**Prerequisite:** None, Teacher approval for returning students

Students produce the school's yearbook. Students with skills in photography, writing, and layout design are encouraged to apply for staff positions. Yearbook staff members are selected by the instructor on the basis of application, interview, and Instructor approval. This course may be repeated for credit.
