Dom Corcuera
Teacher of Chemistry

June 2021

Dear AP Chemistry Student,

Hello and welcome to AP Chemistry! I am looking forward to being your instructor for the upcoming school year!

I have invited you to join the AP Chemistry Google Classroom, but just in case you did not receive the invite email, the join code is (without quotes) "4egjoi6".

To prepare you for the start of the course, the summer assignment will be watching and interacting with a screencast lesson on EdPuzzle about the following topics:

- Introducing the concepts of atoms, molecules, and compounds
- Significant figures
- Calculations using dimensional analysis
- Calculations using algebraic manipulations

Regardless if these topics are a refresher or are new to you, completing this assignment will help all of us start on the same page. The EdPuzzle assignment *should only take about a half hour* to complete. Your submission of the assignment is based on watching the video from start to finish and answering the questions that are embedded in the video. Please do your best!

The assignment will be released to the Google Classroom on **Wednesday, August 18th** and will be due by the first day of school, **Tuesday, September 7th**.

If you have any questions, please feel free to email me (dcorcuera@pointpleasant.k12.nj.us) or stop by my classroom (Room 110) if school is in session.

Thank you and welcome again!

Best,

Mr. Corcuera
(Please call me Mr. C.!)
