*Hedin says - The Bohan book is the best. With the Pearson/Addison Wesley and the McGraw Hill book "5 steps to a 5" a close second. You will have to buy the Bohan and Pearson/Addison Wesley books off the internet, but you can buy "5 Steps To A 5" at your local bookstore. The more I look at "5 Steps To A 5" the more impressed I am with it. The Barron's AP Statistics book is not bad either. The Barron's Flash Cards are awesome for AP prep and to have while in the course. Don't wait till the course is over to get supplementary material to help you succeed.*
