

AP Statistics – Chapter 8 Review (COMPUTER BASED REVIEW)	Goal: Prepare for Chapter 8 Test
---	----------------------------------

Today is a review day for the Chapter 8 Test next class. **This review will use a computer cart in class and students will need to go and sign out head phones if they do not have them.**

Today's class will be broken into 3 parts. I have given recommended amounts of time to spend on each part. But the schedule is flexible and spend time on what you feel will help prepare you for the test.

- I. (25 minutes **silent study**) Start the “*Chapter 8 AP Practice Test*,” completing the multiple choice. If you finish then keep work on the free response questions. The **Substitute Teacher** will tell you when it is time to open your computers. Go to my website and check your answers.
- II. (About 45 minutes) Go to my website to review key chapter concepts
 - a) Review picture and “*Glossary of Important Definitions*.” Make sure you know all the concepts presented.
 - b) You will need your head phones. Go to my website and complete the worked out example videos. Here is the website:
