Advanced Placement World History
Summer Assignment 2016

We know that you will find the upcoming year in AP World History an exciting one! Students who have completed the course are always amazed at how much they have learned by the end of the year.

So . . . we are going to ask only **ONE** thing of you this summer:
know where these countries and geographic features are located.

We will spend an exciting year touring the globe and it is quite difficult to engage in a productive discussion if you do not have a solid understanding of where these places are located.

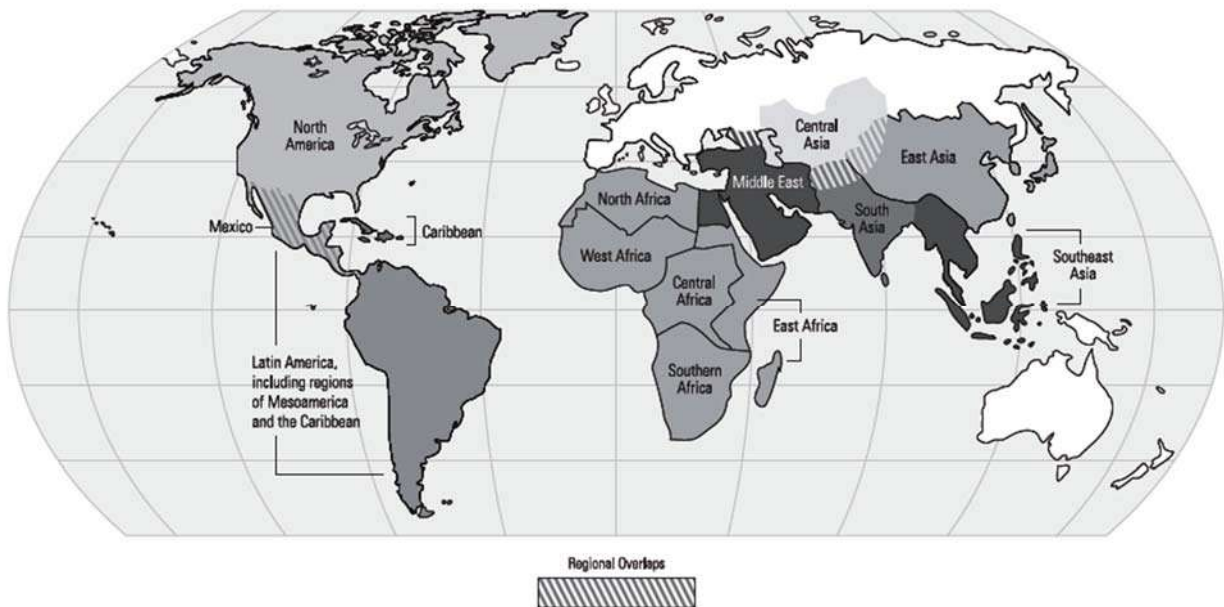

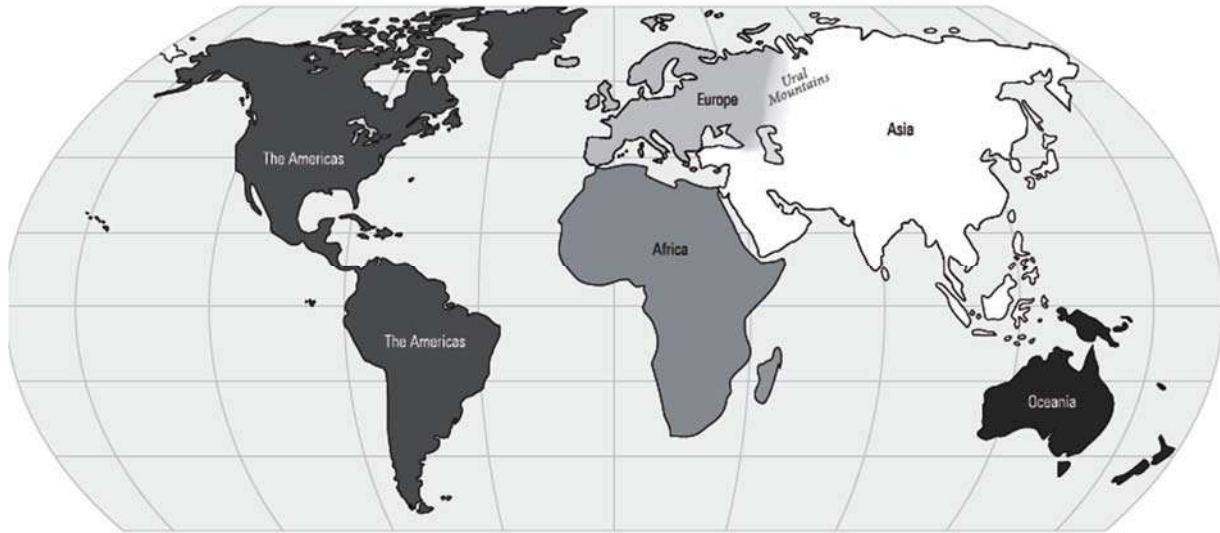

You can use game sites like the ones listed below to make learning the locations of these countries more interactive.
