August 3 - 7, 2015

CSET Leading Teachers: Barbara Haig, Cheryl Ann Hollinger, Dana Grooms, Mickey Laney-Jarvis, Beth Dixon

EMPOWERING TEACHERS TO TRANSFORM BIOLOGY EDUCATION

The world is changing.

Expectations have changed.

Your passion for teaching endures.

Are you looking for new ideas on how to improve your students' understanding of biology?

Are you looking for ways to strengthen your teaching of biology at all levels?

Would you like to become part of a community of teachers who are passionately dedicated to excellence?

What's different about this professional development experience?

You will:

- Receive one year free membership in the National Association of Biology teachers, the leader in life science education
- Learn new tactics for engaging students in the 7 science practices
- Add strategies to your toolbox to guide your students to learn biology at a deeper level
- Work as a team with other dedicated AP instructors to discover new ways to better reflect the Big Ideas and unifying concepts of biology
- Start the year empowered, invigorated, and ready to engage your students

The leading teachers at Stanford's Center to Support Excellence in Teaching (CSET) are empowering educators to transform biology education.
