

Name:

AP Biology Essays: A Meta-Analytical Approach

To be completed on any essay that earns fewer than 7 points. Feel free to complete this work on a separate sheet of paper.

Overarching Essay Topic & breakdown of the ideas you must demonstrate in each section:

Pick 5 sentences from your essay that did not earn you any points. For each one:

- Restate the sentence from your essay verbatim.
- Explain why the sentence did not get you any points.
- Revise and rewrite the sentence in a way that you think will earn points.
- Explain why the revision will earn points.

1.

2.

3.

4.

5.

Provide examples of three things that you could have written about in your essay that would have earned points, but that you omitted:

Looking at the above sentences & revisions, describe any patterns or trends that you see and provide a brief statement as to what you can do in the future to address any issues you may re-encounter on future essays.
