(937)996-1511 ext 1203

COVID-19 UPDATES

PLEASE CONTINUE TO CHECK THE SCHOOL WEBSITE FOR COVID-19 UPDATES. [HTTPS://WWW.TRI-VILLAGE.K12.OH.US/](https://www.tri-village.k12.oh.us/)

***PLEASE REMEMBER TO SEND A MASK TO SCHOOL WITH YOUR CHILD. AN EXTRA MASK SHOULD ALSO BE KEPT IN THEIR BACKPACK IN CASE ONE IS FORGOTTEN.**

CPR/Basic First Aid

Did you know that CPR and Basic First Aid education are a graduation requirement? All 9th grade students will receive this instruction at school on May 19&20, 2021.

***** REMINDER OF REQUIRED SCHOOL IMMUNIZATIONS *****

ATTENTION ALL CURRENT 6TH AND 11TH GRADE STUDENTS:

Ohio Law Requires that All 7th and 12 grade students receive Vaccinations prior to the first day of the 2021-22 school year.

FOR 2021-22 SEVENTH GRADE STUDENTS: **TDAP & Meningococcal (Menveo)**

FOR 2021-22 SENIORS: **Meningococcal (Menveo)**

*** Please bring a record of your immunizations to the clinic. ***

COME LEARN WHAT PARENTS NEED TO KNOW ABOUT TEEN VAPING!

Have you heard of vaping? Have you heard of JUULing? Because your kids have!

The number of High School and Middle School students that vape is exploding. Come to our parent night on **May 12, 7pm at Versailles High School or May 13, 7pm at Radiant Church in Greenville** to learn about this trend. Learn the misinformation that your kids are getting and learn the truth to help your child make healthy choices!

The perception of vaping is that it's safe, just vapor. This along with the fun flavors and inconspicuous apparatus (like the JUUL) and vape wear, is resulting in teens flocking to it. But what's the truth behind it? Is it as safe as they think? What do parents need to know?

This highly interactive presentation will enlighten you on the latest trends, inform you about the risks and expose the misperceptions. We touch upon the commonly known dangers and then dive deeper into much less known medical studies and other eye opening information.

Some of the topics covered include:

- Marketing messages vs. the Truth
- Latest studies of health effects of vaping
- How to spot if your child is vaping?
- Inconspicuous vaping products
- Teen perceptions of marijuana
- Why age matters – marijuana's effect on developing brain
- How social & emotional awareness can help make healthy choices

Not Your Typical Lecture

Robert's amazing skills and presentation style has allowed students across the country and around the world to see through certain illusions and misperceptions that surround teen substance use and abuse.

This presentation delivers a captivating, inspirational, and eye-opening experience that infuses magic, eye-catching props, and illusion in a way that engages students while reinforcing the educational lessons.

The Dynamic Influence Presentation is scheduled at Tri-Village High School on May 14 for all students in grades 6-12.

MEDICATIONS

This is a reminder that any medications kept in the school clinic must be picked up by a parent no later than 1:00 Wednesday, June 2nd.

According to school board policy, medications cannot be kept at the school over the summer and any medications not picked up must be discarded.

Please contact the school nurse prior to this date to make other arrangements if necessary.

*Medications cannot be sent home with students.

CLINIC SUPPLIES

Thank

You

A special thank you to Adopt-A-Family for donating shoes and clothing to the clinic! These supplies are used when spills and accidents happen and are greatly appreciated.

Extra water bottles were also donated to help keep our students hydrated when they forget theirs at home!

Please continue to send water bottles to school with students so they can stay hydrated during the school day.

SUN SAFETY

Remember, it's not just about sunscreen...

- Apply lip balm with SPF 30 and reapply regularly
- Cover up by wearing wide-brimmed hats, sunglasses with UV protection and protective clothing
- Seek shade whenever possible
- Avoid prolonged sun exposure between 10 a.m. and 4 p.m.
- Drink plenty of water
