

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the [Return on Investment of Afterschool Programs in Pennsylvania](#) study determined that for every dollar invested in after-school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link to PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students, examine disproportionate impacts on specific student groups, and highlight the LEA's promising practices in supporting students' needs since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in after-school programming. Include a brief description of the indicators used in the decision-making process.

The district relied on evidenced based interventions and progress monitoring tools to carefully examine the educational progress of students to determine if the break in services due to the pandemic caused a significant regression in skills. The district used data from STAR Reading, Read 180, System 44, Easy CBM and other teacher and district created progress monitoring tools. If students failed to demonstrate adequate progress, building level teams met to discuss the need for additional support. Students were then encouraged to take part in the school district's after-school program entitled, "Classroom Success".

Section: Narratives - After-school Program

After-school Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide after- school programming for their students.

- Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	35	The focus of the after school program is to remediate skills and promote student achievement thorough targeted, small group intervention. The students are selected based on area of need and placed appropriately.

- Describe the evidence-based resources that will be used to support student growth during the after- school program.

Multiple sources of data will be used to measure student growth. Small group, targeted instruction based on identified areas of need will be the focus of the after-school program.

- Describe the staff that will provide the after- school program (i.e., Internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
7	Internal	Facilitate Student learning to recoup learning loss and promote academic success.

- a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

- b. The LEA assures it understands it is responsible to ensure that all after-school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the after-school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Teacher created progress report at the end of the five-week program	data will be collected daily, reported at the end of the five-week program	Students will be expected to show improved classroom performance as measured by grades, and performance on state/local/district assessments. Students will receive a progress report at the end of the five-week program. The progress report will document progress in academic subject matter and progress will be measured by performance in the program as well as classroom performance.

6. How will the LEA engage families in the after-school program?

The LEA will notify families of the after-school program by a letter home and emails. If the LEA feels that a particular student should participate and did not receive a response back, school personnel will personally reach out to the family.
