## **To provide scholarships for Safe Harbor Students**

The Art and Nature Class is a service learning partnership between Safe Harbor, Lubeznik Center for the Arts, & Lake Hills Elementary. As part of the service, students have made wonderful holiday items combining art and nature including ornaments from recycled materials and cement trivets. In order to raise money for families to provide Safe Harbor scholarships, the students want to sell their wares. Please help us by purchasing a handmade item for a gift or for you!
