

Artist Trading Card Project

In honor of the High School Nation Tour, you will be making an artist trading card. An artist trading card is a $3\frac{1}{2} \times 2\frac{1}{2}$ work of art. You can use whatever media you like, including collage. The subject matter, as always, must be school appropriate. After you have completed your card you will, sign the back and punch a hole in the top and you may wear it during the High School Nation Concert. The idea is that you if see someone with whom you would like to trade cards, you are encouraged to ask them to trade. Someone may ask you to trade and if you like the deal, then you can trade. All of my classes will be creating cards, as will Ms. Eaton's photo classes. That is roughly 300 trading cards.
