Have you ever yearned for that special project – one that engages artists to develop their vision of peace and that inspires a global audience? Arts4Peace is that project.

Entries will be displayed at the National School Board Association's (NSBA) Annual Conference at the end of March, the World Culture Festival in September on the National Mall in Washington, DC, galleries and museums, and online.

Selected classes in schools will have an opportunity to collaborate with a professional artist to create group artwork for the World Culture Festival.
