Brainstorming/Mind Mapping

Recycled Fashion Designs

Students were working collaboratively in pairs for this assignment.

In order to generate ideas and build ideas with your partner, student pairs brainstorm collaboratively through the use of automatic drawing.

*Automatic drawing can be described as “**expressing the subconscious.**”*

It is implied that one should draw randomly across the paper, without any rational thinking.

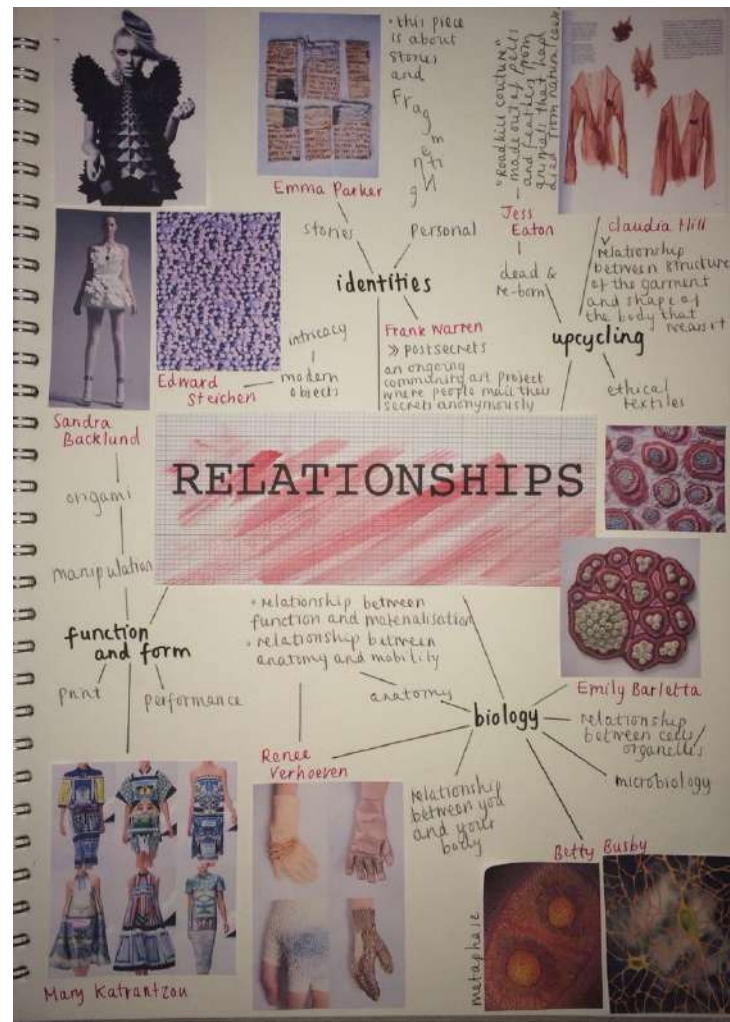

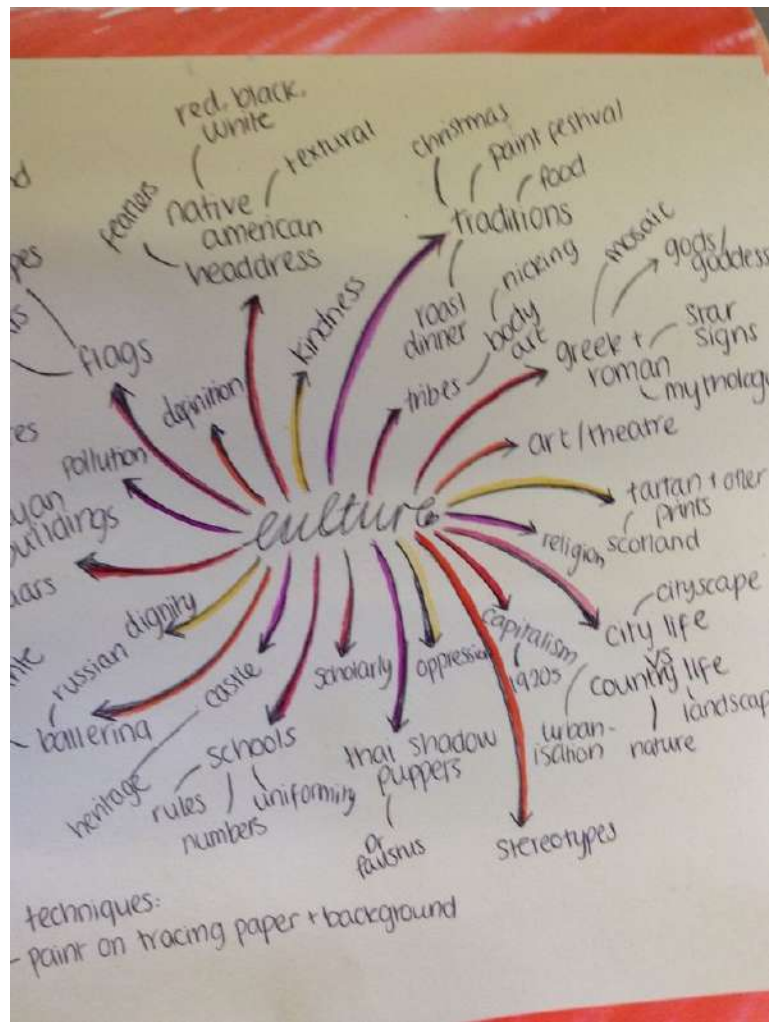

It is generating ideas through quick doodles of your first thoughts and ideas

Based upon the brainstorming, each student pair creates a description of a new creative wearable fashion ideas for a piece of wearable fashion (clothing) and an accessory (shoes, jewelry, handbag, etc...) by creating a Development board with 3 to 5 fashion design ideas

Brainstorming Recycled Fashion Designs Development Board
