

APUSH Summer Work

Summer work is a critical component of this course. Expect to do approximately 1 Chapter of reading and notes each week of the summer for a total of 8 Chapters. Units 1 & 2 will be completed in their entirety and very little time in school will be spent on this content. You will have an assessment on this material during the first week of school. In addition, you will have completed the independent chapter work for approximately half of Unit 3 prior to school beginning and we will complete that unit in September.

Here is the breakdown of the assignments:

Chapter 1: Cornell Notes

Chapter 2: Cornell Notes

Unit 1: Unit Review Questions (Due by July 31, 2022)

Chapter 3: Cornell Notes

Chapter 4: Cornell Notes

Chapter 5: Cornell Notes

Unit 2: Unit Review Questions (Due by August 20, 2022)

Chapter 6: Cornell Notes

Chapter 7: Cornell Notes

Chapter 8: Cornell Notes

Unit 3: No review until after school starts, but Chapters 6, 7, 8 should be completed before school starts)

You are expected to complete Cornell Notes for each chapter and Review Questions for the two units that will be completed during the summer. Due dates and all material for each assignment are located on this Google Classroom in our summer work class (**code: 3s7qvex**).

Attached is a tentative copy of the [course syllabus](#). This will be adjusted/edited as we find out more information about next school year.

APUSH is an exciting and intense course. I look forward to working with you and supporting your learning in the new school year!
