Evaluation of Prior Year Interventions and Data Analysis

PRIOR YEAR INTERVENTIONS

| Analysis of Key Interventions | Content Area | Target Populations | Was this key intervention implemented as planned? | Do you plan to continue with this intervention? | Do you have evidence this intervention was effective? | Measurable Outcomes (state the data that supports the continuation of this intervention) |
|---|---------------|--|---|---|---|---|
| Interventionist - Small Group Pull-Out (Grades K - 6) | Language Arts | Students who are 1 or more years behind their peers. | Yes | Yes | Yes | <p>Assessments Used: RAZ/TCA Level/STAR Early Literacy Scores/STAR Reading Scores/PAR/TOWRE-2/ NJSLA ELA Scores</p> <p>Outcomes: Students were selected based on multiple measures and criteria. Using this information particular skills are targeted and focused on. Students work with interventionists up to three times per week for up to forty minutes per session. On average these students increased their RAZ/TCA reading level by 1 - 2 levels.</p> <p>There were 69 students receiving these services through our hybrid model as well as virtually and in person.</p> |

| Analysis of Key Interventions | Content Area | Target Populations | Was this key intervention implemented as planned? | Do you plan to continue with this intervention? | Do you have evidence this intervention was effective? | Measurable Outcomes (state the data that supports the continuation of this intervention) |
|--|---------------|--|---|---|---|--|
| Interventionist - Small Group Push-In (Grades K - 6) | Language Arts | Students who are behind their grade level peers. | Yes | Yes | Yes | <p>Assessments Used: RAZ/TCA Level/STAR Early Literacy Scores/STAR Reading Scores/NJSLA ELA Scores</p> <p>Outcomes: Students were selected based on multiple measures and criteria. Using this information particular skills are targeted and focused on. Students work with interventionists up to two times per week for up to forty minutes per session. On average these students increased their RAZ/TCA reading level by 2 levels.</p> <p>There were 84 students receiving these services through our hybrid model as well as virtually and in person.</p> |

| Analysis of Key Interventions | Content Area | Target Populations | Was this key intervention implemented as planned? | Do you plan to continue with this intervention? | Do you have evidence this intervention was effective? | Measurable Outcomes (state the data that supports the continuation of this intervention) |
|---|---------------|--|---|---|---|---|
| Interventionist - Whole Class Teacher Support (Grades K - 6) | Language Arts | Students who are behind or roughly at grade level. | Yes | Yes | Yes | <p>Assessments Used: RAZ/TCA Level/STAR Early Literacy Scores/Star Reading Scores/NJSLA ELA Scores</p> <p>Outcomes: Assessment data is utilized to implement differentiated instruction to support a variety of learners. Various strategies, techniques and practices are used to help all learners.</p> |
| Interventionist - Whole Class Support with Question Analysis (Grades 3 - 6) | Language Arts | Students who are behind or roughly at grade level. | Yes | Yes | Yes | <p>Assessments Used: RAZ/TCA Level/STAR Early Literacy Scores/Star Reading Scores/NJSLA ELA Scores</p> <p>Outcomes: Assessment data was utilized to implement differentiated instruction to support a variety of learners. Various strategies, techniques and practices were used to help all learners. There were 255 students receiving these services. Due to COVID-19 students were unable to take a post assessment to gauge student growth.</p> |

| SGP* | <p>Student growth on state assessments. (Grades 4-8)</p> <p>*Identify overall school wide growth performance by content.</p> <p>*Identify interaction between student proficiency level.</p> | Student Group | ELA | Math | <p>Our school-wide NJSLA ELA student growth scores increased by 19%. Through the implementation of instructional practices and additional interventions, this has facilitated and supported the increase in student achievement. Overall, the school-wide proficiency level is still lower than the state's proficiency requirements. For example, students have made growth in their understanding of literary texts, however, all grades continue to struggle with informational texts.</p> <p>Our school-wide NJSLA Math student growth scores increased by 2%. Through the implementation of instructional practices and additional interventions, this has facilitated and supported the increase in student achievement. Overall, the school-wide proficiency level is still lower than the state's proficiency requirements. For example, students have made growth in their ability to reason and how they derived an answer related to major content,</p> | <p>The Bloomfield Public School District established goals for teachers during the school year to help improve student growth. In literacy, teachers will continue with the implementation of the New Jersey State Standards at the elementary level, as well as carrying out the curricular initiative to support a balanced literacy approach. In mathematics, teachers will continue with the implementation of the New Jersey State Standards at the elementary level, as well as placing a greater emphasis on differentiated instruction. These goals will help to support students in progressing along the learning continuum in both literacy and mathematics.</p> |

| Benchmark Assessment (Proficiency) Math Rates* | Please share results of analysis of % passing, including YTD analysis by grades and subgroups. *Identify patterns by grade/subgroups *Identify patterns by chronic absenteeism *Identify patterns by students with chronic disciplinary infractions | Grade | Cycle 1 | Cycle 2 | Cycle 3 | Cycle 4 | Math STAR Data: Math STAR Data: Kindergarten does not take the STAR Math Assessment. | STAR scores in Grades 1- 6 for Math demonstrated inconsistent proficiency growth and there is no grade at this time that is meeting grade level expectations. Based on the student data, derived from the STAR assessment and using our district growth model, the data helped to determine which students were in need of intervention services, the summer school program and/or referral services. Additionally, teachers used this data to determine and differentiate the instructional needs of their varying student levels throughout the academic school year. |

| Book Fairs | Book Fairs give out students the opportunity to purchase books while benefiting the school at the same time. | <p>Fall Book Fair (Online Only) 11/11/20 - 11/24/20</p> <p>Spring Book Fair was cancelled due to Covid-19.</p> | Due to poor fall participation, the Spring book fair was cancelled. |
| Author Visits | Visits from authors provided our students with lessons on reading and writing. | <p>Mariana Llanos 4/3/21 2nd & 3rd Graders Kutu: The Tiny Inca Princess</p> <p>Najani LaRocca 6/9/21 2 Sessions for Reading 2 Sessions for Writing</p> | All students were provided an opportunity to meet with an author this school year. |

Process Questions and Growth and Reflection Tool

| Component | Indicator Descriptor Level | | | Overall Strengths Summary | Areas of Focus Summary |
|--|----------------------------|---|--------------|---|--|
| Standards, Student Learning Objectives (SLOs), and Effective Instruction | 1 | A | 2-Emerging | We have been utilizing data and were able to compile information that helped us in creating targeted and differentiated instruction that hit on specific student instructional needs. | We are working on a set of guiding questions that will allow us to identify our strengths and weaknesses to better support each other and student achievement |
| | 2 | A | 3-Developing | | |
| | 3 | A | 2-Emerging | | |
| | 4 | A | 3-Developing | | |
| | 5 | A | 2-Emerging | | |
| | | | | | |
| Assessment | 1 | A | 3-Developing | We have common summative assessments for each subject and unit of study to determine student mastery and understanding. We use formative assessments to determine student progress towards meeting the student learning objectives. | We are working on collaborating and analyzing our common summative assessment data to determine student strengths and weaknesses. We are working on recording our formative assessment data and then providing feedback to students. This will also assist in driving instruction for teachers, while giving students ownership in their learning by allowing them to make adjustments |
| | 2 | A | 2-Emerging | | |
| | 3 | A | 3-Developing | | |
| | | | | | |
| Professional Learning Community (PLC) | 1 | A | 3-Developing | We have continued to collaborate as grade level teams on goals directly related to student learning outcomes by meeting at least once a week for common planning time. | We are working on incorporating our SMART goals to help push and drive instruction. By analyzing the assessment data we can use this information to drive instruction and student learning. |
| | 2 | A | 3-Developing | | |
| | 3 | A | 2-Emerging | | |
| | 4 | A | 3-Developing | | |
| | | | | | |

| Component | Indicator Descriptor Level | | | Overall Strengths Summary | Areas of Focus Summary |
|-------------------------------------|----------------------------|---|-----------------|---|--|
| Culture | 1 | A | 4-Sustaining | We have established clear expectations for student behaviors both in the classroom and school wide. Teachers and staff have created an environment that is conducive to learning by maintaining strong classroom management, displaying student work and celebrating student successes. | We are working on having students be a more active partner in their learning process. We want them to take ownership of their learning and establish peer partnerships that welcome them to take the initiative to ask questions and seek assistance when needed from each other or the teacher. |
| | 2 | A | 2-Emerging | | |
| | 3 | A | 3-Developing | | |
| | 4 | A | 4-Sustaining | | |
| | 5 | A | 4-Sustaining | | |
| | 6 | A | 2-Emerging | | |
| | 7 | A | 3-Developing | | |
| | 8 | A | 3-Developing | | |
| | 9 | A | 3-Developing | | |
| | 10 | A | 3-Developing | | |

|-------------------------------|--|--|-----------------------|---|---|
| Effective Instruction | Science: Low student achievement in science. Two years ago 10% of our students met or exceeded expectations on the NJSLA Science assessment. | <p>Gaps in the curriculum leading to issues with vertical and horizontal articulation.</p> <p>Inconsistent pacing throughout the school year leading to lack of time for adequate practice.</p> <p>Lack of informal assessments to guide and support frequent monitoring of student mastery and understanding.</p> <p>Lack of fundamental skills and reinforcement of them to help build on understanding of specific content.</p> <p>Inconsistent standards based instruction related to higher order thinking questions.</p> | School Wide | 1 | Use NJSLA evidence statements to identify domains and practices that lead to student struggles. |
| | | | | 2 | Utilizing data derived from assessments to drive instruction. |
| | | | | 3 | Dedicate extra curricular time towards the review of the three science domains and practices. |
| | | | | | |

| Area of Focus for SMART Goals | Priority Performance Need | Possible Root Causes (Based upon the CNA and data analysis, what factors are most likely to have contributed to this) | Targeted Subgroup (s) | Strategies to Address Challenge (What does the root cause imply for next steps in improvement planning?) | |
|-------------------------------|---|---|--|---|---|
| Effective Instruction | Technology: Lack of mastery with technology. Teachers have had limited training on our technology applications, platforms, and databases within our district. | <p>Mastering new technology can be complicated.</p> <p>Limited to no experience using various platforms and tools.</p> <p>Familiarity with different platforms and tools.</p> <p>Minimal time available to transition and adapt to virtual platforms.</p> | New to district, novice, developing or veteran teachers. | 1 | Assess teachers' knowledge of the various applications with a survey and assessment to identify weaknesses to be focused on during meetings or other forms of professional development. |
| | | | | 2 | Provide adequate and substantial professional development around the different types of technology used within the classroom and district. |
| | | | | 3 | Work with and assist teachers in lesson planning to ensure they're incorporating these various tools within their classrooms. |

SMART Goal 1

This year 46% or more of our students will meet or exceed expectations on the NJSLA ELA assessment during the 2021 - 2022 school year.

Priority Performance ELA: Low student achievement in literacy. Two years ago 41% of our students met or exceeded expectations on the NJSLA ELA assessment.

Strategy 1: Use NJSLA evidence statements to identify standards and domains that lead to student struggles.

Strategy 2: Utilizing data derived from assessments to drive instruction.

Strategy 3: Base intervention services on the knowledge and skills needed for specific targeted students to be successful in whole group and small group settings.

Target Population: School Wide

Interim Goals

SMART Goal 1

| End of Cycle | Interim Goal | Source(s) of Evidence |
|--------------|--------------|-----------------------|
|--------------|--------------|-----------------------|

| End of Cycle | Interim Goal | Source(s) of Evidence |
|--------------|---|---|
| Nov 15 | Due to COVID-19 the NJSLA was not taken during the 2019 - 2020 or 2020 - 2021 school years. Therefore we will be using the 2018 - 2019 NJSLA ELA evidence statements. They will be analyzed to identify strengths and weaknesses of students. We will also be analyzing the 2021 Fall STAR assessments to identify any additional strengths and weaknesses of students. Students in need of interventions and tutoring will be notified if they are failing to achieve standard and domain mastery. | <p>Assessments: 2018 - 2019 NJSLA ELA Evidence Statements 2021 Fall Early Literacy/Reading STAR Assessment Data TCAs RAZ District Based Assessments</p> <p>Reading Initiative Program: School-wide Assemblies Author Visits Parent Workshops Book Buddies Family Literacy Night Read Across America Reading Calendars</p> |
| Feb 15 | We will be using the 2022 Winter STAR assessments to monitor student progress towards achieving standard and domain mastery. Test preparation materials will be utilized to prepare students with successful testing strategies. If students are failing to achieve standard and domain mastery, intervention groups will be reassessed and students in need of interventions and tutoring will be notified. Additionally students will be invited to participate in after school tutoring support to provide more exposure to different questioning types. | <p>Assessments: 2022 Winter Early Literacy/Reading STAR Assessment Data TCAs District Based Assessments</p> <p>Reading Initiative Program: School-wide Assemblies Author Visits Parent Workshops Book Buddies Family Literacy Night Read Across America Reading Calendars</p> |

< SMART Goal 3 - Budget Items: NO DATA >

SMART Goal 4

By June 2022, all staff members will increase their use and understanding of technology by 50% or more as measured by pre- and post- year surveys and skills assessments.

Priority Performance Technology: Lack of mastery with technology. Teachers have had limited training on our technology applications, platforms, and databases within our district.

Strategy 1: Assess teachers' knowledge of the various applications with a survey and assessment to identify weaknesses to be focused on during meetings or other forms of professional development.

Strategy 2: Provide adequate and substantial professional development around the different types of technology used within the classroom and district.

Strategy 3: Work with and assist teachers in lesson planning to ensure they're incorporating these various tools within their classrooms.

Target Population: New to district, novice, developing or veteran teachers.

Interim Goals

SMART Goal 4

| End of Cycle | Interim Goal | Source(s) of Evidence |
|--------------|---|--|
| Nov 15 | New to district, novice, developing, and veteran teachers will complete a survey and assessment on their technology competency. | Scheduled Trainings Staff Meetings Workshops |
| Feb 15 | New to district, novice, developing, and veteran teachers will be trained on the use of existing district and school wide specific technology applications. | Completed Survey Assessment Workshops |

| End of Cycle | Interim Goal | Source(s) of Evidence |
|--------------|---|--|
| Apr 15 | New to district, novice, developing, and veteran teachers will be trained on additional virtual tools to strengthen their ability to use technology within the classroom. | Scheduled Trainings Staff Meetings Workshops |
| Jul 1 | By June 2022, all staff members will increase their use and understanding of technology by 50% or more as measured by pre- and post- year surveys and skills assessments. | Completed Survey Assessment |

Action Steps

SMART Goal 4

| Step Numbe | Strategy | Action Steps | Start Date | End Date | Assigned To |
|------------|----------|---|------------|----------|---|
| 1 | 1 | Identify areas of struggle by analyzing assessments and surveys from professional development sessions. | 9/8/21 | 6/24/22 | Media Specialist Interventionists Principal |
| 2 | 2 | Professional development will be given to new to district, novice, developing, and veteran teachers in regards to all online applications that will be utilized in and outside the classroom. | 9/8/21 | 6/24/22 | Media Specialist Interventionists Principal |
| 3 | 3 | Observe and give constructive and supportive feedback to new district, novice, developing, and veteran teachers using technology and virtual tools within their classrooms. | 9/8/21 | 6/24/22 | Media Specialist Interventionists Principal |

School Level Certification Page

| | | |
|---|---|-----------------------|
| x | The results of the Comprehensive Needs Assessment are included in the designated tabs. For designated Targeted Support and all Comprehensive Support schools, the Comprehensive Data Analysis and Needs Assessment process must be completed in collaboration, and with the concurrence of your Comprehensive Support Network (CSN) Team. | |
| x | The Annual School Plan requires a minimum of three SMART goals with an option to create a fourth. At least one of these goals must be developed with an area of focus "Effective Instruction." Goals must address the areas of priority performance needs identified during Comprehensive Needs Assessment process. Check all the SMART Goal areas included in your ASP. | |
| x | | Effective Instruction |
| x | | Effective Instruction |
| x | | Effective Instruction |
| x | | Effective Instruction |
| x | For Comprehensive Support and Targeted Support schools, the Annual School Plan includes evidence-based interventions to improve academic achievement for all students who are not yet performing on grade level, and all SIA funds will be used for evidence-based interventions that meet the requirements set forth in the Every Student Succeeds Act (ESSA). | |
| x | The Budget Summary includes all planned expenditures, as identified within the 'Budget Items' section of the SMART goal pages. | |
| x | This plan has been submitted for final review and approval by the District Business Administrator, Federal Programs Administrator, Chief School Administrator, and any other district personnel with responsibility for expenditures of federal funds to ensure all purchases and uses of funds (SIA, other Title I, other federal, and state/local) are reviewed and approved. | |
