

SPS

Spring Elementary Academic Benchmarking

A presentation to the School Committee
April 8, 2024

Educators need to understand what each student already knows, and where that student needs to go next in the teaching process.

--John Hattie, *Education Week*, vol 35, #10, October 28, 2015

Grades	Assessment Name	Assessment Dates
K-1	Comprehensive Assessment Interview for	Baseline (September), Mid-Year (Jan/Feb), End of Year (June)
2-5	Number Concepts (Assessment)	Baseline (September), Mid-Year (Jan/Feb), End of Year (June)
2-5	Number Concepts (Highly Rigorous)	Baseline (September), Mid-Year (Jan/Feb), End of Year (June)
K-5	Unit Score Record	Baseline (September), Mid-Year (Jan/Feb), End of Year (June)
K-5	Formative Assessment Record	Baseline (September), Mid-Year (Jan/Feb), End of Year (June)
6-8	Unit Assessment	Baseline (September), Mid-Year (Jan/Feb), End of Year (June)

Benchmark Assessments

- Baseline (September)
- Mid-Year (Jan/Feb)
- End of Year (June)

Unit Screeners/Readiness Checks

- Prior to every unit (classroom)

Unit Checkpoints/Middle School Quizzes

- 1-2 per unit (classroom)

Individual Interviews (Fluency check or Math Recovery)

- As needed for individual students

Math Assessment Timeline

Benchmark Assessments

- Provides a high-level overview of essential content strands
- Indicator of when to look closer through other, more focused assessments to provide information about student understanding of the mathematics

Unit Screeners/Readiness Checks

- Focuses on the prerequisite skills for each unit
- Informs pacing and instruction to provide access for all students

Unit Checkpoints/Middle School Quizzes

- Focuses on essential content of the specific unit
- Informs teachers about student understanding

Individual Interviews (Fluency check or Math Recovery)

- Focuses on foundational mathematical understandings for students
- Informs any (if any) interventions may be necessary to build student understanding

Looking at the Data:

Benchmark Assessments

- Grade level data meetings, led by the building Math Coach

Unit Screeners/Readiness Checks

- Teacher teams or individual teachers
- Math Coaches provide planning assistance or coaching

Unit Checkpoints/Middle School Quizzes

- Teacher teams or individual teachers

Individual Interviews

- Math Coach administers the interview and shares the data to the classroom teacher and other support individuals

In Grades 6-8, math teachers review data individually, on grade level teams, and as a department. Math Coaches have administered individual interview for students upon request.

Mid-Year Assessment Overview

Purpose: Provide a snapshot into the progress towards the end of year. All standards are end-of-year standards

Data Meetings: Mid-Year data meetings at all elementary schools.

- Review by questions/standards to see trends
- Review by students to check for understanding
- Discussions about how to provide access to students with plans for next steps.

Limitations:

- One data point - can identify where to look, assess, etc.
- Still working on consistency for test administration
- We have over 3 more months of school to reach the end-of-year standards

Mid-Year Assessments in Grades 1-5 (FY23 and FY24)

Percentage of Students Scoring Meeting (Grade Level Cohorts over 2 years)

Examples from Mid-Year Assessments

Grade 2

Read each question carefully and write the answer on the line.

a What is 10 more than 317? _____	b What is $593 + 10$? _____
c What is 10 less than 302? _____	d What is $571 - 10$? _____
e What is 100 more than 759? _____	f What is $641 - 100$? _____

2.NBT.8: Mentally add or subtract 10 or 100 to any 3-digit number

Examples from Mid-Year Assessments

Grade 2

7 Read each question carefully and write the answer on the line.

a What is 10 more than 317? 327

b What is $593 + 10$? 603

c What is 10 less than 302? 292

d What is $571 - 10$? 561

e What is 100 more than 759? 859

f What is $641 - 100$? 541

Examples from Mid-Year Assessments

Grade 3

Put the following fractions where they go and in order on the number line:

Cleo says that 8 times 5 is the same as half of 10 times 8. Do you agree or disagree with Cleo? Explain.

3.NF.2: Represent fractions on a number line diagram

3.OA.7: Multiply and divide within 100, using strategies...

3.OA.9: Identify arithmetic patterns and explain them

Examples from Mid-Year Assessments

Grade 3

Cleo says that 8 times 5 is the same as half of 10 times 8. Do you agree or disagree with Cleo? Explain.

Cleo says that 8 times 5 is the same as half of 10 times 8. Do you agree or disagree with Cleo? Explain.

Handwritten work showing calculations and reasoning:

$$\begin{array}{l} 8 + 8 = 16 \\ 8 + 8 = 16 \\ 16 + 16 = 32 \\ 32 + 8 = 40 \end{array}$$
$$10 \times 8 = 80$$
$$\begin{array}{c} \wedge \\ 40 \quad 40 \end{array}$$

(40)

yes!!
cleo is right

Handwritten work showing calculations and reasoning:

I agree, because

$$\begin{array}{l} 10 + 10 + 10 + 10 = 40 \\ 5 + 5 + 5 + 5 + 5 + 5 + 5 + 5 = 40 \end{array}$$

5 is half of 10 and 8 is the same as 4

Ellie bought 303 grams of apples, 485 grams of grapes, and 218 grams of plums. When Ellie got home, she wondered how many grams of fruit she bought in all.

Examples from Mid-Year Assessments

Grade 4

Marco picks apples on his uncle's farm. On Monday, he filled 8 baskets of apples. On Tuesday, he filled 13 baskets. Marco put 25 apples in each basket. How many apples did Marco pick on Monday and Tuesday?

4.OA.3: Solves a multi-step story problem that involves multiplication and addition.

4.NBT.5: Multiply a whole number of up to two two-digit numbers, using strategies...

Examples from Mid-Year Assessments

Grade 4

Marco picks apples on his uncle's farm. On Monday, he filled 8 baskets of apples. On Tuesday, he filled 13 baskets. Marco put 25 apples in each basket. How many apples did Marco pick on Monday and Tuesday?

$(8 \times 25) + (13 \times 25) = ?$

$8 \times 25 = 200$
 $13 \times 25 = 325$
 $200 + 325 = 525$

Equation: $(8 \times 25) + (13 \times 25) = 525$

Answer: 525

Monday = 8 Tuesday = 13

$8 + 13 = 21$

$21 \times 25 =$

$\begin{array}{r} 10 \quad 10 \quad 5 \\ \times 25 \quad \times 25 \quad \times 25 \\ \hline 250 \quad 250 \quad 125 \\ \hline 525 \end{array}$

Equation: $(8 + 13) \times 25 = 525$

Answer: 525 apples

Examples from Mid-Year Assessments

Grade 5

a $\frac{2}{5} \times 4$	b $2 \times \frac{1}{10}$
c 1.25×4	

5.NBT.7: Multiply decimals to the hundredths

5.NF.4: Multiply a fraction or a whole number by a fraction

Examples from Mid-Year Assessments

Grade 5

a $\frac{2}{5} \times 4 = 1\frac{3}{5}$ $(2 \times \frac{2}{5}) \times 2$	b $2 \times \frac{1}{10} = \frac{2}{10}$
c $1.25 \times 4 = 5$ $.25 \times 4 = 1$ $1 \times 4 = 4$ $1 + 4 = 5$	

a $\frac{2}{5} \times 4 = 1\frac{3}{5}$ $\frac{2}{5} \times \frac{2}{5} = \frac{4}{5}$ $\frac{4}{5} \times \frac{4}{5} = \frac{8}{5}$ $\frac{8}{5} = 1\frac{3}{5}$	b $2 \times \frac{1}{10} = \frac{2}{10}$ $\frac{1}{10} + \frac{1}{10} = \frac{2}{10} = \frac{1}{5}$
c $1.25 \times 4 = 5.00$ $\begin{array}{r} 1.25 \\ + 1.25 \\ \hline 2.50 \end{array}$ $\begin{array}{r} 2.50 \\ \times 2.50 \\ \hline 5.00 \end{array}$	

Supporting Classroom Instruction

- Math coaching and co-planning with classroom teachers to meet the needs of the students in the class
- Lessons enhanced or modified, based on student needs
- Continuing to enhance student understanding through the increased use of manipulatives and visual models
- Focus on continuing to shift instructional practices to include more reasoning within the curriculum
- Continuing to increase opportunities for include story problems within the context of the content
- In the middle grades, teachers collaborate as teams within department meeting time to plan for adjustments in practice and highlight effective practices.

Coaches also support all new elementary teachers and teachers who have shifted between grade levels. In addition, we currently have coaches working in multiple classrooms at every grade level. (~ 39 classrooms right now)

Intervention - Elementary

- Title 1 at Loring: 7 intervention groups during Loring's Power Half hours
 - Students were identified using multiple data points including benchmark assessments and individual interviews.
- Through the IST process, we identify students who may need additional supports in mathematics. While we implement supports in the Tier 1 classroom first, some students may need more. Math Coaches provide these additional interventions.
- Currently, we have 29 intervention groups running across the grade levels and schools. They meet multiple times a week and group size varies from 1-4 (depending on the need and content focus).

Reflecting on our Work

Working Well	Even Better If...
• Increased in the number of student needs being met by a variety of interventions • Data Meetings scheduled and taking place at all schools, multiple times a year (consistency between schools) • Aspen - import, access, viewing, graphs • Evolving curriculum - piloting 3rd edition which supports students of varying needs, equitable access, and increased engagement. • Professional Development for Coaches on how numeracy develops • Collaboration between schools/coaches - sharing of ideas, best practices • Collaboration between coaches and teachers	• Uninterrupted core learning time with math blocks distributed throughout the school day • Increased collaboration and planning time with teachers - regular meetings with the math coach • Additional time for teacher professional development in mathematics • Balance the need to move forward while also providing necessary foundational instruction for students • More consistency with test administration and scoring • Maximize our capacity - coaches being able to be in the math classrooms during instruction

Track my Progress: 3-5

Track My Progress is a computer-based adaptive assessment system which tracks student data over time

Track My Progress Assesses:

- Foundational skills
- Comprehension for fiction
- Comprehension for nonfiction
- Vocabulary acquisition and use
- Language skills
- Conventions (includes spelling)

DIBELS MAZE

TMP

GRADE 3

Goal: ● + ● = 80%

Since this fall, all areas exceed growth expectations.

Areas of higher exceeding growth:

- Foundational skills
- Language skills
- Comprehension of literature

Areas of lower exceeding growth:

- Comprehension of informational texts
- Conventions
- Vocabulary acquisition and use

Next Steps:

- Continue Keys to Literacy practices for comprehension
- Evaluate pilot materials for quality informational texts and instruction, and the integration of conventions into language and writing

GRADE 4

Goal: ● + ● = 80%

Since last spring, areas that meet growth expectations:

- Vocabulary Acquisition and Use
- Conventions

Areas that are approaching growth expectations:

- Comprehension
- Language Skills
- Foundational Skills

Next Steps:

- Continue Keys to Literacy practices for comprehension and vocabulary development
- Evaluate pilot materials for quality texts and instruction, as well as advanced phonics curriculum

GRADE 5

Goal: ● + ● = 80%

Since last spring, areas that meet or exceed growth expectations:

- Language Skills
- Vocabulary Acquisition and Use
- Comprehension

Areas that are approaching growth expectations:

- Foundational Skills
- Conventions

Next Steps:

- Continue Keys to Literacy practices for comprehension and vocabulary development
- Evaluate pilot materials for quality advanced phonics curriculum and the integration of conventions into language and writing

Summary & Conclusions:

- All grades are exceeding, meeting, or closely meeting (70-79%) expected proficiency in overall ELA skills
- Phonics instruction is having a positive impact in grades K-3; stronger decoding ability entering grade 6
- Systemic advanced phonics instruction is needed in grades 4 & 5
- The push-in intervention model in Kindergarten is having a greatly positive impact on student growth and achievement

Next Steps:

- Continue to implement best practices learned from Keys to Literacy PD
- Evaluate pilot materials for quality texts and evidence-based instructional strategies
- Evaluate pilot materials for quality advanced phonics curriculum in grades 4 & 5
- Continue push-in intervention model for kindergarten
- Collect data using a district-wide push-in intervention model for grade 1
- Use subtest data to target tier 2 instruction by classroom teachers, literacy specialists, and literacy tutors
- Revise SMILE curriculum to include phonemic awareness, decodable reading system, advanced phonics, and progress monitoring
- Implement professional development for writing with Keys to Literacy K-8
- Develop communication strategies for families regarding early literacy screeners

DESE Regulation 603 CMR 28.03(1)(f) for Early Literacy Screening

General Responsibilities of the School District

(f) Early Literacy Screening. Effective July 1, 2023, each school district shall at least twice per year assess each student's reading ability and progress in literacy skills, from kindergarten through at least third grade, using a valid, developmentally appropriate screening instrument approved by the Department. Consistent with section 2 of chapter 71B of the general laws and the Department's dyslexia and literacy guidelines, **if such screenings determine that a student is significantly below relevant benchmarks for *age-typical development* in specific literacy skills, the school shall determine which actions within the general education program will meet the student's needs, including differentiated or supplementary evidence-based reading instruction and ongoing monitoring of progress.** Within 30 school days of a screening result that is ***significantly below*** the relevant benchmarks, the school shall **inform the student's parent or guardian of the screening results and the school's response** and shall offer them the opportunity for a follow-up discussion.
