

# Big Picture Project

Leadership Activity

10 points

---

## Instructions:

Select a piece of paper out of the pile for your block. This piece should be a part of a full, big picture. Each team member from the blocks will design their ***own piece of paper*** in their own way. Team members must **MOVE** away from their block members to color and design their slip of paper. There should be **NO COLLABORATING** with team members to complete this activity. *Once all the team members have finished, the pieces should come together and be taped to see the big picture.*

The objective is to understand how similar to leadership styles, everyone is different. Designs should be professional and unique to **each person** and colored to their own preferences.

Groups should assess how similar or different everyone's section is.

**\*This lesson's grading will be based on effort and creativity. Do your best work!**
