

Black Friday Price Shopping Project

Helpful Websites:

- [Black Friday Website](#)
- Official store websites: (ex: [Walmart](#), [BestBuy](#), [Target](#), etc.)

1. You are preparing to go shopping and take advantage of the crazy deals and sales offered on Black Friday. Create a list of 5 things you will be looking for in the stores. Be sure to choose **specific items** (Google Home Hub, Fitbit Versa, Nintendo Switch, etc.).

1.
2.
3.
4.
5.

2. It is time to decide what stores you are going to shop at on Friday. List three stores you would like to visit. Find the online ads for these three stores. What time do the Black Friday deals begin at each of these stores? Be sure to specify if their sales begin on *Thursday night* or *Friday morning*.

	Name of Store	Day & Time the Sales Begin?
Store 1		
Store 2		
Store 3		

3. Select one item from your shopping list above. Search through your online ads and be sure you can find your item in two separate ads. If you can't find your item, select another item included in the ads. Complete the following questions for your item.
 - a. What product did you choose?

b. What stores/ads did you find your product in?

c. How does the price compare for your product between stores? Which store offers the better buy? Why?

d. Consider the price from the store offering the best buy. Does the store list the original price for the item? If yes, how much would you save on this product by buying it on Black Friday?

4. What are some advantages of shopping on Black Friday?

5. What are some possible disadvantages of shopping on Black Friday?

6. Why do you think some stores would choose to open their stores on Thursday night, as opposed to Friday morning?

BONUS! How was your product from #3A priced on Cyber Monday?
