**Course Description:** The online class is designed for K-12 physical education teachers and adapted physical education specialists who want to learn more about the specific challenges and best practices when teaching children with autism. You do not currently need to be working with students with Autism, but it does help. If you do not Dr. Block will work with you as you can use previous experiences. This is an asynchronous, online course. Students can progress through the readings and assignment at their own pace during the week.

**Testimonial:** *I was assigned a new Kindergarten Autism Class this fall for Adapted PE. The information learned in this course gave me a better understanding of strategies I could immediately use to provide a safe and effective learning environment for my students. Dr. Block was so kind, responded to questions quickly and readily provided his expertise during class discussions. It was truly a beneficial class!*

A white rectangular card with a red header and footer. The header contains the 'PE Central' logo and the course title 'Physical Education for Children with Autism'. Below the header, the dates 'January 6 - March 27, 2021' are written in red, and a 'Graduate Credit Course' badge with a graduation cap icon is on the right. The main body of the card contains the course title 'Physical Education for Children with Autism Grad Course (Spring 2021)' in bold, followed by the text 'Course begins January 6th and ends on March 27th, 2021. You must register for this course by Jan. 3 2021.' Below this, there is a small circular profile picture of Dr. Martin Block, his name 'Dr. Martin Block', and the price '\$515' in blue.
