

BLACK FRIDAY DEALS: WISH LIST

You have a \$500 budget for shopping on Black Friday. Use your money wisely! You must buy **at least 7 items** (CAN ALWAYS BUY MORE). YOU MUST SPEND ALL \$500.

42 point assignment (each box is worth 1 point)

Instructions:

1. Research shopping deals using the www.blackfriday.com website or any store website.
2. Complete this worksheet by filling in the chart
3. How to calculate your savings:
 - Subtract your Total out of pocket cost from the before savings cost (original price). This equals the \$ amount saved.
 - Divide the amount saved by the original price. Move the decimal over two spaces= your savings percentage!
 - Add up your sale price, original price, and amount saved.
4. Then, factor a 2% price increase for 2018. Calculate the rate based on the SALE PRICE.

STORE	PRODUCT	SALE PRICE	ORIGINAL PRICE	AMOUNT SAVED	PERCENTAGE SAVED (Hint: Round up)	2018 Price
Walmart	Hot Wheels Garage	\$74	\$88	\$14 saved	16% saved	\$75.48
 EXAMPLE 						

STORE	PRODUCT	SALE PRICE	ORIGINAL PRICE	AMOUNT SAVED	PERCENTAGE SAVED (Hint: Round up)	2018 Price
	Total:					

Post shopping questions (1 point each):
