SCHOOL RENEWAL PLAN COVER PAGE

SCHOOL NAME: Blue Ridge High School

SCHOOL RENEWAL PLAN FOR YEARS 2018-19 through 2022-2023 (*five years*)

SCHOOL RENEWAL ANNUAL UPDATE FOR 2018-2019 (*one year*)

Required Signature Page

The school renewal plan, or annual update, includes elements required by the Early Childhood Development and Academic Assistance Act of 1993 (Act 135) (S.C. Code Ann. §59-139-10 *et seq.* (Supp. 2004)), the Education Accountability Act of 1998 (EAA) (S.C. Code Ann. §59-18-1300 *et seq.* (Supp. 2004)), and SBE Regulation 43-261. The signatures of the chairperson of the board of trustees, the superintendent, the principal, and the chairperson of the School Improvement Council, and the School Read to Succeed Literacy Leadership team lead are affirmation of active participation of key stakeholders and alignment with Act 135 and EAA requirements.

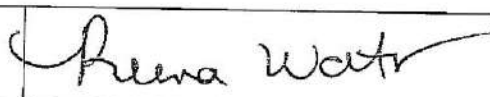

Assurances for the School Renewal Plans

The assurance pages following this page have been completed and the district superintendent's and school principal's signature below attests that the school/district complies with all applicable assurances requirements including ACT 135 assurance pages.

ASSURANCES FOR SCHOOL PLAN

(Mandated Component)

Act 135 Assurances

Assurances, checked by the principal, attest that the district complies with all applicable Act 135 requirements.

_____ **Academic Assistance, PreK–3**

The school makes special efforts to assist children in PreK–3 who demonstrate a need for extra or alternative instructional attention (e.g., after-school homework help centers, individual tutoring, and group remediation).

X **Academic Assistance, Grades 4–12**

The school makes special efforts to assist children in grades 4–12 who demonstrate a need for extra or alternative instructional attention (e.g., after-school homework help centers, individual tutoring, and group remediation).

X **Parent Involvement**

The school encourages and assists parents in becoming more involved in their children’s education. Some examples of parent involvement initiatives include making special efforts to meet with parents at times more convenient for them, providing parents with their child’s individual test results and an interpretation of the results, providing parents with information on the district’s curriculum and assessment program, providing frequent, two-way communication between home and school, providing parents an opportunity to participate on decision-making groups, designating space in schools for parents to access educational resource materials, including parent involvement expectations as part of the principal’s and superintendent’s evaluations, and providing parents with information pertaining to expectations held for them by the school system, such as ensuring attendance and punctuality of their children.

X **Staff Development**

The school provides staff development training for teachers and administrators in the teaching techniques and strategies needed to implement the school/district plan for the improvement of student academic performance. The staff development program reflects requirements of Act 135, the EAA, and the National Staff Development Council’s revised *Standards for Staff Development*.

X **Technology**

The school integrates technology into professional development, curriculum development, and classroom instruction to improve teaching and learning.

N/A **Innovation**

The school uses innovation funds for innovative activities to improve student learning and accelerate the performance of all students. Provide a good example of the use of innovation funds.

_____ **Recruitment**

The district makes special and intensive efforts to **recruit** and give **priority** to serving those parents or guardians of children, ages birth through five years, who are considered at-risk of school failure. “At-risk children are defined as those whose school readiness is jeopardized by any of, but no limited to, the following personal or family situation(s): Educational level of parent below high school graduation,

poverty, limited English proficiency, significant developmental delays, instability or inadequate basic capacity within the home and/or family, poor health (physical, mental, emotional) and/or child abuse and neglect.

X Collaboration

The school (regardless of the grades served) collaborates with health and human services agencies (e.g., county health departments, social services departments, mental health departments, First Steps, and the family court system).

Developmental Screening

The school ensures that the young child receives all services necessary for growth and development. Instruments are used to assess physical, social, emotional, linguistic, and cognitive developmental levels. This program normally is appropriate at primary and elementary schools, although screening efforts could take place at any location.

Half-Day Child Development

The school provides half-day child development programs for **four-year-olds** (some districts fund full-day programs). The programs usually function at primary and elementary schools, although they may be housed at locations with other grade levels or completely separate from schools.

Developmentally Appropriate Curriculum for PreK–3

The school ensures that the scope and sequence of the curriculum for PreK–3 are appropriate for the maturation levels of students. Instructional practices accommodate individual differences in maturation level and take into account the student's social and cultural context.

Parenting and Family Literacy

The school provides a four component program that integrates all of the following activities: interactive literacy activities between parents and their children (Interactive Literacy Activities); training for parents regarding how to be the primary teachers for their children and full partners in the education of their children (parenting skills for adults, parent education); parent literacy training that leads to economic self-sufficiency (adult education); and an age-appropriated education to prepare children for success in school and life experiences (early childhood education). Family Literacy is not grade specific, but generally is most appropriate for parents of children at the primary and elementary school levels and below, and for secondary school students who are parents. Family Literacy program goals are to strengthen parent involvement in the learning process of preschool children ages birth through five years; promote school readiness of preschool children; offer parents special opportunities to improve their literacy skills and education, a chance to recover from dropping out of school; and identify potential developmental delays in preschool children by offering developmental screening.

X Coordination of Act 135 Initiatives with Other Federal, State, and District Programs

The district ensures as much program effectiveness as possible by developing a district-wide/school-wide coordinated effort among all programs and funding. Act 135 initiatives are coordinated with programs such as Head Start, First Steps, Title I, and programs for students with disabilities.

INTRODUCTION

to the Blue Ridge High School Portfolio

The Blue Ridge High School portfolio was developed to document the changes and progress our school has made while working to continuously improve everything we do. The portfolio provides our staff, students, parents, and community with an ongoing means of self-assessment, communication, continuous improvement, and accountability.

This school portfolio is a living document that describes Blue Ridge High School and includes actual evidence of our work. It describes who we are, our vision for the school, goals, plans, progress, and achievements in the context of client demographics and needs, and school partnerships. The portfolio also describes how we build and utilize our overall school plan for the purpose of improving student achievement – our ultimate outcome. It is in this portfolio that one can see an overview of all the progress and changes we have been able to accomplish within each section and throughout our school during this time. It also shows how all of the parts fit together to make our school a positive place for our students.

A team of teachers were involved in developing the narrative for our portfolio based on input from the staff, along with students, parents, and members of the community. Much of the narrative content came from staff discussions in the process of evaluating our work. These discussions and assessments asked staff to contribute “evidence” of our progress.

Please enjoy this comprehensive treasure as it provides the story of who we are and how we work together to continuously improve what we do to prepare our students to become successful citizens and participants in the future world!

EXECUTIVE SUMMARY

Welcome to Blue Ridge High School!

Located at the foothills of the Blue Ridge Mountains, Blue Ridge High School serves over 1,100 students, most of who live in a rural community. Exhibiting southern hospitality at its best, our community prides itself on its open and welcoming atmosphere. As the school's population has continued to grow, so has our cultural and ethnic diversity, thus illustrating our commitment to educate students from all backgrounds.

In addition, we have a clearly defined decision-making structure in place using the Bernhardt Portfolio Model. We have reviewed our mission statement based on a shared vision. We have coordinated our goals, our school plan and our professional development. We have a clearer understanding of state and national learning standards. We are making better instructional decisions based on student achievement data. And our stakeholders are better informed about school processes. In addition, we have been recognized as a school with "Excellent" report card ratings and as a Palmetto Gold and Silver Award Recipient. The EOC scores of our students have increased and the HSAP scores have shown steady improvement. In spite of these gains, target objectives that are "not met" are in need of improvement. In order to better serve the needs of our students, we have begun to analyze data from the school report card and align our portfolio and teachers' student achievement goals with this data.

Blue Ridge High School offers quality electives to enrich the lives of our students. Our foreign language program is the only one in the school district to offer four years of four different foreign languages. Our Fine Arts program has been the recipient of numerous awards, including a state champion marching band for several years, an award-winning chorus program, along with drama classes, and broadcast journalism. We also offer many other electives for our students.

Although every student has been issued a Personalized Learning Device (Dell Chromebook) efforts still need to be made to improve the quality of lessons in regards to appropriate usage of technology. Also, in order to meet the demands of Every Student Succeeds Act (ESSA), we must continue to raise student test scores each year. In addition, we will continue our efforts towards improved parent communication.

The administration collaborates as a unit along with the faculty to ensure our students are learning in an orderly, safe, and pleasant environment.

Student Achievement Results

In accordance with South Carolina Curriculum Standards, Blue Ridge High School (BRHS) gathers and analyzes data on student academic achievement through standardized test results and other student performance sources. Examples of these standardized tests include the American College Test (ACT), Scholastic Aptitude Test (SAT), and the High School Assessment Program (HSAP) as the main indicators of measuring student achievement. It is mandatory that all 4th semester students take the HSAP. The ACT and SAT are taken voluntarily by any junior or senior. In addition, students who are enrolled in Algebra I, English I, Biology, and

US History are assessed using End-of-Course Exams. A summary of BRHS students' scores follows. Finally, BRHS teachers use formative and summative assessments to regularly monitor student progress and modify instruction as needed. These assessments provide a variety of evidence that achievement goals have been met. Throughout each semester, teachers communicate and collaborate with colleagues in order to improve student performance.

For the purpose of this report, Blue Ridge High School's student achievement results have been divided into six categories:

- ACT
- SAT
- WIN
- End of Course Exams
- Advanced Placement Exams
- Graduation Rate

The ACT and SAT are intended to help evaluate the College Preparatory programs specifically. The HSAP and EOC Exams are intended as an evaluation of the minimum program. The AP, in turn, is intended to help evaluate the honors and AP program.

ACT

The ACT is currently designated as South Carolina's college readiness assessments that were added to accountability measures in 2015.

The composite score for ACT in 2016 was 17.8 and in 2017 was 17.4, a drop of .4 percentage points.

SAT

Over the past three years Blue Ridge's average composite SAT score has remained about the same. In 2012, BRHS score was 1435. It decreased to 1403 in 2013 but rose in 2014 to 1425. Comparisons between Blue Ridge High School and other schools in South Carolina show Blue Ridge's average composite SAT score over the three years was 1438 while the state's average was 1436.

WIN

The WIN (Ready2Work) career assessment is currently designated as South Carolina's career readiness assessment that was added as an accountability measure in 2018

In this administration, 160 of the 244 students who tested (65.6%) are considered "Career Ready" on the Ready to Work assessment. However, 16% did not even earn the Bronze certificate. Three students (1.2%) earned the highest certificate, meaning they scored at a Level 6 or Level 7 on all three assessments.

End of Course Exams

The percentage of students passing the Algebra I EOC has decreased in the past three years. In 2015 the passage rate was 86.5%, decreased to 81.8% in 2016, and decreased to 73.2% in 2017.

The percentage of students passing the English I EOC has decreased in the past three years. In 2015 the passage rate was 77.5%, decreased to 68.6% in 2016, and decreased to 66.7% in 2017.

The percentage of students passing the Biology I EOC has decreased in the past three years. In 2015 the passage rate was 85.6%, decreased to 83.2% in 2016, and decreased to 77% in 2017.

The percentage of students passing the US History EOC has steadily climbed in the past three years. In 2015 the passage rate was 66.3%, moved up to 84% in 2016, and 84.3% in 2017.

Advanced Placement Exams

Blue Ridge has been fortunate in the last few years to be able to teach a variety of advanced placement courses. Not all classes are taught each year, but the subjects include:

- AP Calculus AB
- AP Calculus BC
- AP Statistics
- AP English Literature
- AP English Language
- AP European History
- AP US History
- AP World History
- AP Human Geography
- AP US Government
- AP Macroeconomics
- AP Spanish
- AP Biology
- AP Chemistry
- AP Environmental Science
- AP Computer Science

The number of AP classes offered decreased from 18 to 17 courses in 2017. The overall passage rate (Score 3-5) is 43% for 2017, which is down from 46% in 2016.

High School Graduation Rate

The on-time graduation rate has decreased over the past three years. In 2015 the graduation rate was 89.7%, in 2016 the graduation rate was 89.1%, and then decreased to 85.3% in 2017.

Teacher and Administrator Quality

In 2017-2018 school year the faculty was comprised of 40% males and 60% females.

In 2017, there were 84% Caucasians, 14% African Americans, and 2% Latin American faculty members (teachers, guidance counselors, media specialist, IC, TIS, and administrators) on staff.

56.5% have advanced degrees. 4% of the faculty is not certified due to ROTC or PACE positions. All certified personnel are required to attend at least 24 hours of professional development each year. The certified faculty averages over 14 years of experience in education.

The principal has been in education for twenty-six years with twelve of them as principal of the school. The three assistant principals have an average of 12 years of experience as administrators. All administrators are certified as secondary administrators.

School Climate

Based on surveys given and reported on the SC school report card the following information was obtained:

Teachers ranked the highest for satisfied with the learning environment at 82.5%. Students (72.2%) and parents (78.9%) were behind in that category. Teachers ranked the highest for satisfied with the social and physical environment (82.5%) and students gave the highest rank of satisfied with school-home relations (85.3%)

Significant Challenges

BRHS draws from a geographically large and diverse community. Some students who attend BRHS are reared in low socioeconomic environments such as subsidized housing and foster homes. Other students live within a high socio-economic bracket; however, families with blue-collar jobs are more prevalent. Many families live on large plots of land and work in a family business. In many cases the skills needed to work in the family business have been taught and passed down thus making not making education a necessity to continue the business. An emphasis on education is most likely to be seen in families that have moved into the area due to a job relocation or upper middle class and above families, which are not the majority of the student population.

One attitude of the community is a number of parents view vocational skills as being more important than academic skills. A large number of BRHS parents have an education level at or below a High School Diploma. As a result, parents may not set high educational expectations for their own children. For instance, this includes lack of encouragement for them to earn a High School Diploma or to pursue a higher education beyond high school. To offset this socio-economic gap in achievement, BRHS staff and teachers must strive to instill the value of education through positive role modeling, guest speakers and special events for parents and students.

Significant Awards, Results, and Accomplishments

2017

Emily Thompson was awarded "Frameworks Grant" in the amount of \$250.00

Congratulations to Ms. Hernandez-Ross for being awarded \$500 from the Taylors Walmart in response to her Community Grant application

Mr. Farnham received a \$1,000.00 grant from the Greater Greer Foundation is for his plan for a comprehensive broadcast journalism program

The Spanish Club raised \$1,285 from their Pulsera project sales. These funds will have a profound impact on countless lives in Nicaragua and Guatemala.

The BRHS Corp of Cadets finished FIRST in class at the James F. Byrnes competition ♦ Finished FIRST in class at the Blythewood competition ♦ Finished third overall at the Upper State competition, and FIRST in Visual Performance ♦ Finished sixth out of 33 bands at the State Competition.

26 students made Allstate Chorus this year, one the highest years for us here at BRHS and the 5th largest from any school in the state

A student received a Presidential Fellows Scholarship from Anderson University. This is a full tuition with room and board for four years at Anderson University.

All FLBA students who competed in the 2018 FBLA District Conference placed!

All FBLA student who competed in the 2018 FBLA State Conference placed with many winning 1st place!!

BRHS Corp of Cadets finished FIRST in class at the James F. Byrnes competition, FIRST in class at the Blythewood competition, third overall at Upper State, and FIRST in Visual Performance. The Corp of Cadets finished 6th out of 33rd band at the State Competition.

The BRHS orchestra competed in the Fiesta-Val at the Clayton Performing Arts Center in Atlanta, GA. They were awarded 1st Place with a Superior Rating in Division IV String Orchestra. This is the highest rating you can receive from the judges. Great job orchestra students!

26 students made Allstate Chorus this year, one the highest years for us here at BRHS and the 5th largest from any school in the state.

AFJROTC established the first CyberPatriot Team in the GSC school district; participated in the Gold category at state level competitions.

Sherry Thornton was selected as one of ten outstanding GCS employees to receive the Spring 2018 Employee Spotlight Award presented by Horace Mann.

2016

AFJROTC continues to provide support to the school and community through extensive training, volunteerism, community service, and fundraising.

Science Teacher Emily Annas earned funding at DonorsChoose.org for a classroom project called “Let’s Get Cooking with a GO Sun Solar Stove!”.

A student received a laptop scholarship at the 25th Spirit Fest 2016 at Furman University.

A student represented Blue Ridge High School and the State of South Carolina at the Congress for Future Medical Leader in Boston, Massachusetts, in June and received the Award of Excellence.

Two students were selected by the National Academy of Future Scientist and Technologists Award of Excellence for outstanding academic achievement, leadership potential, and determination to serve humanity in the field of science and technology.

An English teacher received a grant to purchase standing desks for her classroom.

Special Education teachers received a grant to receive iPods and Virtual Reality Head Sets for student to take virtual field trips and gain access to a whole new world of experiences and a grant from the Greater Greer Foundation for \$1,200 for “Cooking in the Classroom” to assist with buying food so that her students can learn to cook n and easy recipes.

JV and Varsity cheerleaders brought home first place at the Carolina Classic.

Varsity cheerleaders won the region championship. This was the third region championship in a row for the Tigers.

Varsity cheerleaders qualified for the State playoffs.

The boys and girls cross country team placed 8th and 3rd, respectively, at the state meet. Three students placed high enough to be considered All-State!

The varsity volleyball team qualified for the State playoffs.

Girl’s golf qualified for Upper State.

The Corp of Cadets won it class at the James F Byrnes Tournament of Bands. The band also took 1st place in class in musical performance, overall effect, and guard. Overall, the Corps of Cadets finished in a tie for 3rd place out of 24 bands who performed and was 2nd on the day in visual effects.

The Corp of Cadets finished 3rd out of 20 bands for the Honors concert Choir to perform for the Choral division at the 2017 conference of the South Carolina Music Educators Association.

BRHS orchestra program was awarded a \$500 grant through the Music Club of Greenville.

Seven student competed in the Palmetto Dramatic Association in February.

Over the course of the first semester our cadets accumulated over 860 hours of community service. We purchased sabres and established our first ever Sabre Team. Our cadets led the North Greenville University Homecoming Parade and provided a sabre team for their Homecoming ceremony.

2015

Art teacher won 2nd place in the district Fine Arts Center’s show, as well as best in show award.

Science teacher received funding the five different grant sources for a total of \$5000 with all funds going directly to projects to enhance students' understanding in environmental science and create projects around the schools' campus.

Broadcasting teacher earned funding through DonorsChoose.org and Greater Greer Education Foundation.

PTSA awarded top honors for the PTA reflections art contest in areas of film production, literature, and photography.

AFJROTC instructors and cadets earned an overall unit assessment score of "Exceeds Standards"the highest rating attainable during their rated unit evaluation.

The Air Force Association has provided Col. David Rogers' AFJROTC class with an instructor grant.

The varsity cheerleaders won their second consecutive region 2-AAA cheer championship this year.

The girl's and guy's cross country teams broke a total of 14 school record during the season and earned 6th place (girls) and 7th place (guys) at state on November 6 & 7.

Five students made region orchestra and eight students were selected to attend all-state chorus.

SCHOOL PROFILE

School Community

Blue Ridge High School is located in a rural community situated in the northern portion of Greenville County, South Carolina. It is nestled in the foothills of the Blue Ridge Mountains near the North Carolina border, between the cities of Greer and Travelers Rest. Though the school is not located in a designated town, it is within a close-knit community. Blue Ridge High School is one of 14 traditional high schools in Greenville County.

Blue Ridge High School was first established in 1955. The original building was located on Tyger Bridge Road. The current building was constructed in 1986 and the renovation/expansion project was completed in January 2006. When Blue Ridge High School first opened its doors, there were 339 grade eight through twelve students enrolled. Upon completion of the renovation project, the building capacity is now 1,300 students, grades nine through twelve. There are currently approximately 1,145 students and 71 certified personnel.

The Blue Ridge High School attendance area is one of the largest geographical areas in the Greenville County School District. It covers approximately 186 square miles and makes up approximately 23 percent of the entire county. Most families living in the community of Blue Ridge have a long ancestral history, dating back for several generations. However, there is a steady influx of new families with many new subdivisions being built in the area.

The economic status of the region runs the gamut from low to upper income brackets. Due to the rural setting of the school, many workers travel to other locales to work in businesses and industries. This relationship allows Blue Ridge High to foster many contacts within the surrounding business community.

The Blue Ridge area is served by a variety of higher education facilities. North Greenville University, Furman University, and the Greer campus of Greenville Technical College are located in close proximity to Blue Ridge High School. Additional educational opportunities are available in the Greenville area through the University Center of Greenville and various other organizations. The convenience of the higher learning facilities allows easy access and familiarity to the students.

School Personnel

In addition to the 731 certified faculty members; which include teachers, guidance counselors, athletic director, assistant athletic director, administrators, and media specialists, and the following classified employees serve in support roles for the school:

- Guidance clerk

- Attendance clerk
- Instructional Coach
- Technology Integration Specialist
- School Resource Officer
- Licensed nurse
- Receptionist
- Bookkeeper
- Secretary
- Certified athletic trainer
- In-School Suspension (ISS) facilitator

Student Population

Over time, the student population has decreased steadily as shown below.

Student Enrollment

Student Ethnicity

Approximately 30 percent of Blue Ridge High School students qualify for free and reduced priced meals, and almost 240 students use the school bus system to get to school and/or home each day.

In addition, approximately 15 percent of BRHS students qualify for special education services. We offer special needs students support through resource classes as well as through self-contained classes. Students qualifying for the self-contained classes work towards an occupational diploma. 33 students have a 504 and receive accommodations. 41 students are limited English Proficient and are provided assistance through an ESOL teacher and receive accommodations. Over the past five years our special needs population has grown at approximately the same rate as our school enrollment.

Number of Students Receiving Special Services

Academic and Behavioral Features/Programs/Initiatives

Blue Ridge High School promotes student involvement in extra-curricular activities and programs. A wide array of offerings is available to students: Beta Club, Student Council, National Honor Society, AFJROTC, Academic Team, Future Farmers of America, Key Club, and Fellowship of Christian Athletes. Currently, almost 50 percent our student body is actively involved in our athletic programs, the Blue Ridge High School Corps of Cadets, and our Chorus and Orchestra. In addition, we offer an after school Credit Recovery program for students needing to make-up academic credits.

Blue Ridge High School currently uses the 4X4 Block with embedded A/B Scheduling model. Using this model provides teachers with larger blocks of time for instruction that can be more student-centered. With this model, teachers can also better incorporate project-based learning and inquiry learning experiences into the curriculum. The 4X4 Block model also affords teachers better opportunity to address differences in learning styles and intelligence modes. This model encourages students and teachers to work cooperatively as a

community of learners who encourage and support each other. We have also implemented the Credit Recovery program before and after school. With this program in place, graduation rates have increased and overall retention rates have decreased.

At Blue Ridge High School, we have been very successful in our overall approach to educating children. Our daily operations have been established by the administration with input from the faculty and staff. The BRHS administration and faculty is afforded discriminatory privileges with funding and allocations in order to make spending decisions that best suit the needs of the students and overall educational program.

In addition, BRHS has established an academic learning climate in which there is a focus on instructional goals. The decision-making process is collaborative and provides opportunities for meaningful involvement of school stakeholders. Progress in improving student achievement and instructional effectiveness is monitored frequently and is adjusted as necessary. Instruction at Blue Ridge High School is based on a standards and data driven curriculum. Teachers make adjustments to the instructional process based on student learning styles and assessments of student learning. Instruction at BRHS has become more uniform and consistent by focusing on learning standards and implementing strategies for the EOC, ACT, and SAT. Curriculum at Blue Ridge High School is firmly centered on both state and district learning standards. The curriculum focuses on the diverse needs of all student learners and provides opportunities for acceleration and remediation in language arts, mathematics, science, and social studies. New this year is Blue Ridge High Schools Personalized Learning Initiative, in which every student was issued a district-provided device for the use in and out of the classroom. Teachers and staff were trained on how to assist and support their students using these devices.

Also, the development of assessments of student learning is based on the type of achievement to be assessed. Students' understanding is assessed through a variety of measures such as teacher-made tests, standardized tests, projects, etc. Assessment is aligned with standards, curriculum and instruction

MISSION, VISION, AND BELIEFS

We, the faculty and staff of Blue Ridge High, believe our purpose is to serve the community by preparing the successful adults of tomorrow. This purpose is very important for creating the mission, vision, and beliefs of Blue Ridge High.

During this self-study for SACS, our mission, vision, and beliefs were revisited to determine if any changes were necessary. Blue Ridge High School's vision portrays what the school will be like when the mission is achieved. In our SACS study committee we discussed the beliefs to determine their continuing relevance to us. After minor revisions, the mission, vision, and beliefs were reviewed and agreed upon by the faculty and staff.

Our mission is...

...to offer each student interdisciplinary experiences that develop intellectual, social, physical, creative, and technological potential in a safe environment.

Our vision at Blue Ridge High School is to create a school where:

- Each student will feel that the curriculum has prepared him or her for college and/or the workforce.
- The curriculum will be relevant, challenging and interesting.
- The curriculum will be always expanding, never stagnant, and changing to meet the needs of the student.
- Instruction will value student input.
- Instruction will be enhanced with technology when applicable.
- Instruction will be accurate, well-planned, professional, and effective.
- Each student will be assessed proportionately on content and skills taught in the instructional process.
- Each student will be aware of the expectations that will be assessed.
- A variety of assessment techniques will be used.

- Assessment will be fair, accurate, and will require critical thinking.
- Students, teachers, and administration will feel pride and ownership in Blue Ridge High School.
- Blue Ridge High School will be safe, clean, comfortable, and provide an environment that is conducive to learning.
- Blue Ridge High's environment will reflect student accomplishments.
- Blue Ridge High School will set the standard for all other schools in the Southeast.

We believe that...

- The student is the center of the educational process.
- Every student is a unique individual and that the curriculum should be designed to address a variety of learning styles, assessment techniques, and a broad range of interests.
- Students should expect professionalism and support from all faculty, staff, and support personnel.
- Students should be nurtured and challenged to fully realize their gifts and skills.
- As an essential element of the educational process, each student must accept responsibility to be an active learner and supporter of the learning environment.
- We must offer the students interdisciplinary experiences which will prepare them as cooperative problem solvers and responsible decision-makers in the workplace.
- The academic program should adequately prepare students to meet or exceed established state standards.
- We have an obligation to help each student learn to deal with a technologically advanced 21st century in positive and creative ways.
- We must foster in all students an attitude of understanding and appreciation for cultural, physical, and other differences among people.
- Blue Ridge High School, as a partner with the home and community, should strive to exemplify characteristics of citizenship, self-sufficiency, and strong moral character.
- Blue Ridge High School, as a partner with the home and community, must teach individual responsibility for one's actions and acceptance of consequences appropriate to one's behavior.

DATA ANALYSIS AND NEEDS ASSESSMENT

Student Achievement Outcomes and Needs Assessment

Evidence of Strengths:

- Instruction is aligned with state learning standards, as well as with national, state, and district goals and expectations of student learning.
- Students are actively involved in the learning.
- Science teachers used hands-on laboratory experiences to emphasize standards.
- Various types of grouping strategies are used in the classroom to help students understand instruction and to encourage active participation.
- Advanced Placement courses are offered in English, Math, Science, Social Studies, Foreign Language and Computer Science.
- Learner expectations are clearly stated in district curriculum guides and South Carolina frameworks.
- Technology is used to enhance the learning process (internet research, Power Point presentations, video streaming, Microsoft Word, Inter-write Pads, etc.).
- Advance Placement (AP), Honors, Advanced, and Applied College Prep levels of courses are offered.
- Career and Technology courses are offered, which include Family and Consumer Sciences, Business Education and Agriculture Education.
- We have built a comprehensive foreign language program, offering four languages: French, German, Latin, and Spanish. In addition, we offer four levels of each language.
- Blue Ridge High has a strong arts program. Our choral students, band members, and visual art students have received numerous honors and awards.
- Special education classes are provided (resource and self-contained).
- Appropriate methods of unbiased assessment are chosen, based on class, district, and state goals.

- Expectations for assignments are conveyed before assessments are taken. Thus, students have a clear understanding of the expectations before beginning an assignment.

Evidence of Need:

- Additional preparation and assistance is needed for students taking SAT and ACT.
- Even though progress has been made in the use of different types of assessments, more variety would be beneficial.
- Continue using USA Test Prep online software to enhance student preparation for HSAP and EOC.
- Continue using USA Test Prep as a means of creating common assessments to give teachers the opportunity to collaborate with fellow colleagues and identify best practices to help effectively teach content standards.
- Continue working with at-risk students.

Teacher and Administrator Outcomes and Needs Assessment

Evidence of Strengths:

- The school collaboratively develops a school wide plan for improvement.
- Teachers analyze student achievement on classroom assessments, common unit assessments, benchmark assessments and standardized tests in order to determine how to best help students succeed.
- The use of POWERTEACHER has aided teachers in keeping accurate records of student attendance.
- The use of POWERTEACHER(grade book software) has aided teachers in keeping accurate records of student progress. The use of this program has also increased parent communication by enabling teachers to send electronic progress reports to parents via email.
- POWERTEACHER training is available as needed.
- District committees and school staff are working to better align instruction with those specific goals and objectives.
- Departmental meetings allow opportunities for sharing ideas and support.
- Teachers use the following types of data to make instructional decisions: school report card, classroom assessments, Individual Education Plans (IEP's), and observations.
- Teachers have access to internet resources, materials in the media center, ETV streamline video, distance learning, content department and instructional leaders and on-site workshops to help improve instruction.

- Teachers work cooperatively on creating common syllabi for courses. Teachers provide syllabi to students and parents. The syllabi are aligned to the state curriculum standards and include classroom expectations, grading policies, and an outline of course content.
- Teachers provide syllabi and outlines of courses on their websites.
- Teachers meet at school, district, and state levels to receive and share knowledge in updating the curriculum.
- Departmental meetings are held bi-monthly to address curriculum related issues and to share ideas.
- Faculty in-services focus on improving student achievement.
- Common unit assessments are used by all teachers teaching a course with other teachers and data analysis meetings are held to review data and instructional strategies.
- Teachers use a variety of assessments: standardized tests, objective tests, essays, daily work, homework, portfolios, projects, rubrics, grading scales, and performance assessments.

Evidence of Need:

- Opportunities for peer observations are needed.
- Vertical Team meetings are needed to allow opportunities for sharing ideas and support.
- Additional departmental planning opportunities are needed in order to continue our focus on refining curriculum foundations.

School Climate Outcomes and Needs Assessment

Evidence of Strengths:

- SIC meetings are held monthly to discuss how community and parent representatives can contribute to the school improvement process.
- Parent meetings for rising 9th students identified as at risk from the feeder middle school.
- Over 80% of teachers and students responded they were satisfied with the learning environment on the latest school report card survey.
- Over 80% of parents and students responded they were satisfied with the social and physical environment on the latest school report card survey.

- Over 80% of teachers and students responded they were satisfied with the school-home relations on the latest school report card survey.

Evidence of Need:

- Establish a committee to formulate more comprehensive plans to decrease learning gaps in student achievement.
- Under 80% of parents responded they were satisfied with the learning environment on the latest school report card survey.
- Under 80% of parents responded they were satisfied with the social and physical environment on the latest school report card survey.
- Under 80% of parents responded they were satisfied with the school-home relations on the latest school report card survey.

School Renewal Plan

Performance Goal Area: ☒ Student Achievement* ☐ Teacher/Administrator Quality* ☐ School Climate (Parent Involvement, Safe and Healthy Schools, etc.)* (* required) ☐ District Priority

Gifted and Talented Requires ☐ Gifted and Talented: Academic ☐ Gifted and Talented: Artistic ☐ Gifted and Talented: Social and Emotional

1 Academic Goal and 1 Additional Goal ☐ Gifted and Talented: Other

PERFORMANCE GOAL: 1 The percentage of students scoring A, B, and C on the English I EOCEP will increase from 37.6% in 2016-17 to 52.6% in 2022-23.

Per SBE Regulation 43-261, measurable performance goals, written in five-year increments, shall be developed to address the major areas of discrepancy found in the needs assessment in key areas reported in the district and school report cards.

SMART goal must include: WHO will do WHAT, as measured by HOW and WHEN.

INTERIM PERFORMANCE GOAL: The percentage of students scoring A, B, and C on the English I EOCEP will increase by 3% annually.
