

## **Brain Project**

You will create a playdough model of the brain. You will make both a frontal and lateral view. You will use a different color playdough to depict all the areas listed. You will label your areas on the project. Then you will look up the function of these areas and describe them on this paper.

### **Frontal View**

- **Frontal lobe**
- **Parietal lobe**
- **Temporal lobe**
- **Occipital lobe**
- **Cerebellum**
- **Brain stem**

### Lateral view

- Cerebrum
- Cerebellum
- Midbrain
- Pons
- Medulla oblongata
- Pituitary gland
- Hypothalamus
- Hippocampus
- Pineal gland
- Corpus Callosum
- Spinal cord
