

## Teacher Welcome for 2017-18

**Teacher Name: Tammy Buchinger**

**Room Number: 2059**

**Department: Science**

I am Mrs. Buchinger and I have been a Science teacher at KHS since January of 1999. I currently teach AP Biology but have also taught Honors Biology, Life Science and Chemistry. I live in Darboy with my husband Ross and two children, Gracie and Cade. I am also the high school science curriculum coordinator and a mentor in the district for new teachers.

I received my Bachelors Degree in Biology from UW-Stevens Point with a minor in Chemistry in December of 1998. I later obtained my Masters Degree in Educational Leadership from UW-Oshkosh. As a student in my class, you will see that I love teaching Biology and make my classroom a fun place to learn.

**Please bring the following supplies for class:**

**AP Biology:**    Personal Chromebook or Laptop  
                      Headphones or ear buds  
                      Binder (recommended to keep unit files in after exams)  
                      3 Subject Notebook  
                      1 Folder  
                      Pen/Pencil
