

Creating a custom homepage in Canvas

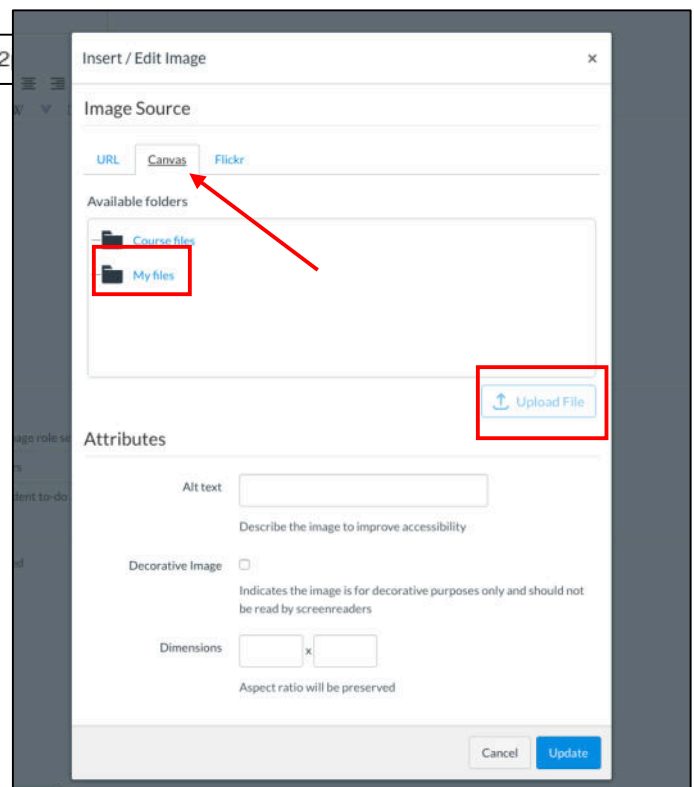

1. log-in to Canvas
2. Go to class you intend to edit
3. On the left side (interior) menu, select "Pages"

4. Select "View All Pages" - blue button on top left side of screen
5. Click on "+ Page" - blue button on top right of screen
6. Name the page (my home page is named "Welcome!")
7. In the text edit box, you can add text, images, video, and links.
 - a. **To add images (Like a banner and buttons) do this:**
 - i. Click, tab, or space to the location you would like to post the image.
 - ii. Click on Embed Image (Looks like a mountain range)

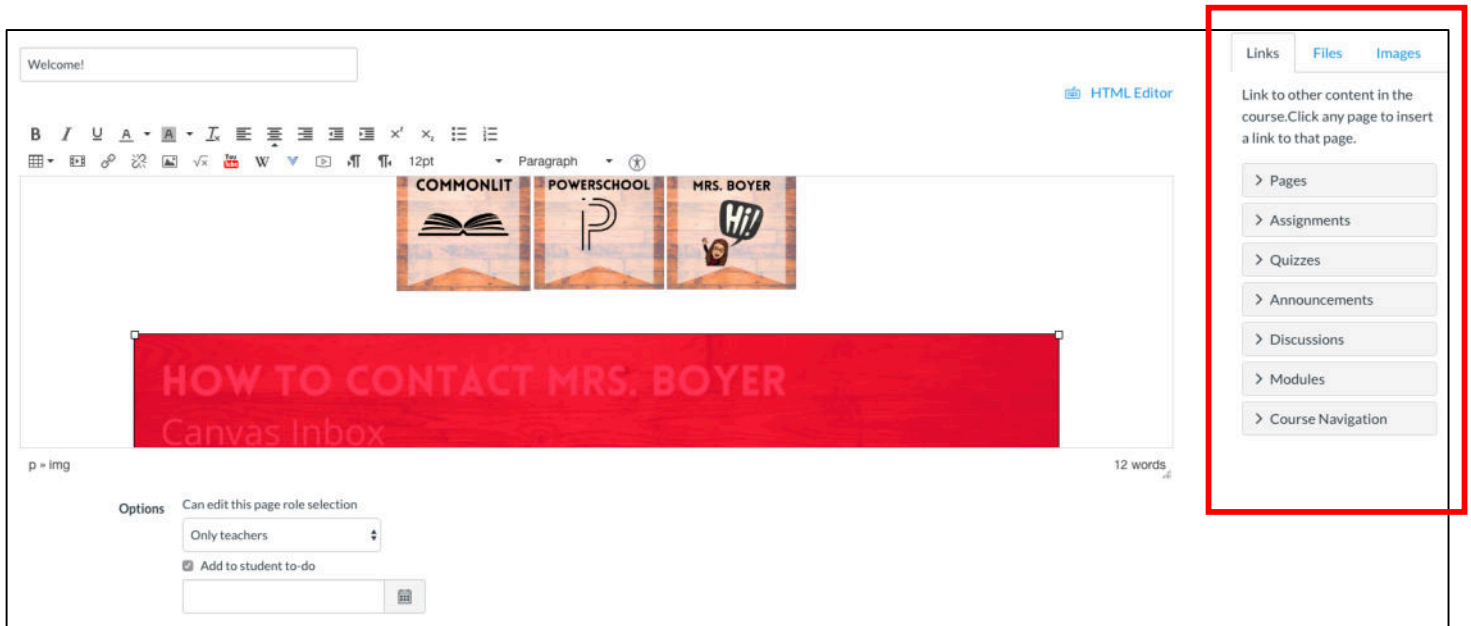

- iii. In the pop-up window, click on the "Canvas" tab
- iv. Click on "My Files"
- v. Then, "Upload File"
- vi. Select the images you want to post
- vii. Click on "Update" to post the image into the text edit box
- viii. Maneuver image as needed

b. To create a link to another page IN CANVAS

- i. Click on the image you want to use as a button, the image will highlight (see pink in the image below)
- ii. On the right, you will see a list of Canvas navigation pages. Click on the arrows inside the box to see possible destinations.
- iii. Select the page you want the button to take you to, once selected, image will highlight yellow.

c. To create a link to another WEBPAGE

- i. Click on the image you want to use as a button, the image will highlight
- ii. In the tool bar, select "Link to URL" (Look like a chain)
- iii. Image will highlight yellow when active URL is attached

8. Click on "Save" to update the page with all active links and images.
9. You will need to "Publish" this page in order to make it your homepage in Canvas
10. Go back to "Pages" and "View all Pages"
11. Click on the three dots on the right
12. Select "Use as Front Page" so students will see this first when logging in

***Button icons and images created in Canva*

If using Canva, use "Logo" template for buttons and "Facebook Cover" for top and bottom image. These should be downloaded as a PNG file with a transparent background.
