26. Superior Vena Cava Syndrome
27. Tetralogy of Fallot
28. Transient Ischemic Stroke
29. Transposition of the Great Vessels
30. Varicose Veins

## Turkey Disease Assignment

For this assignment (daily grade), you will use the turkey template to describe the disease that you have been assigned.

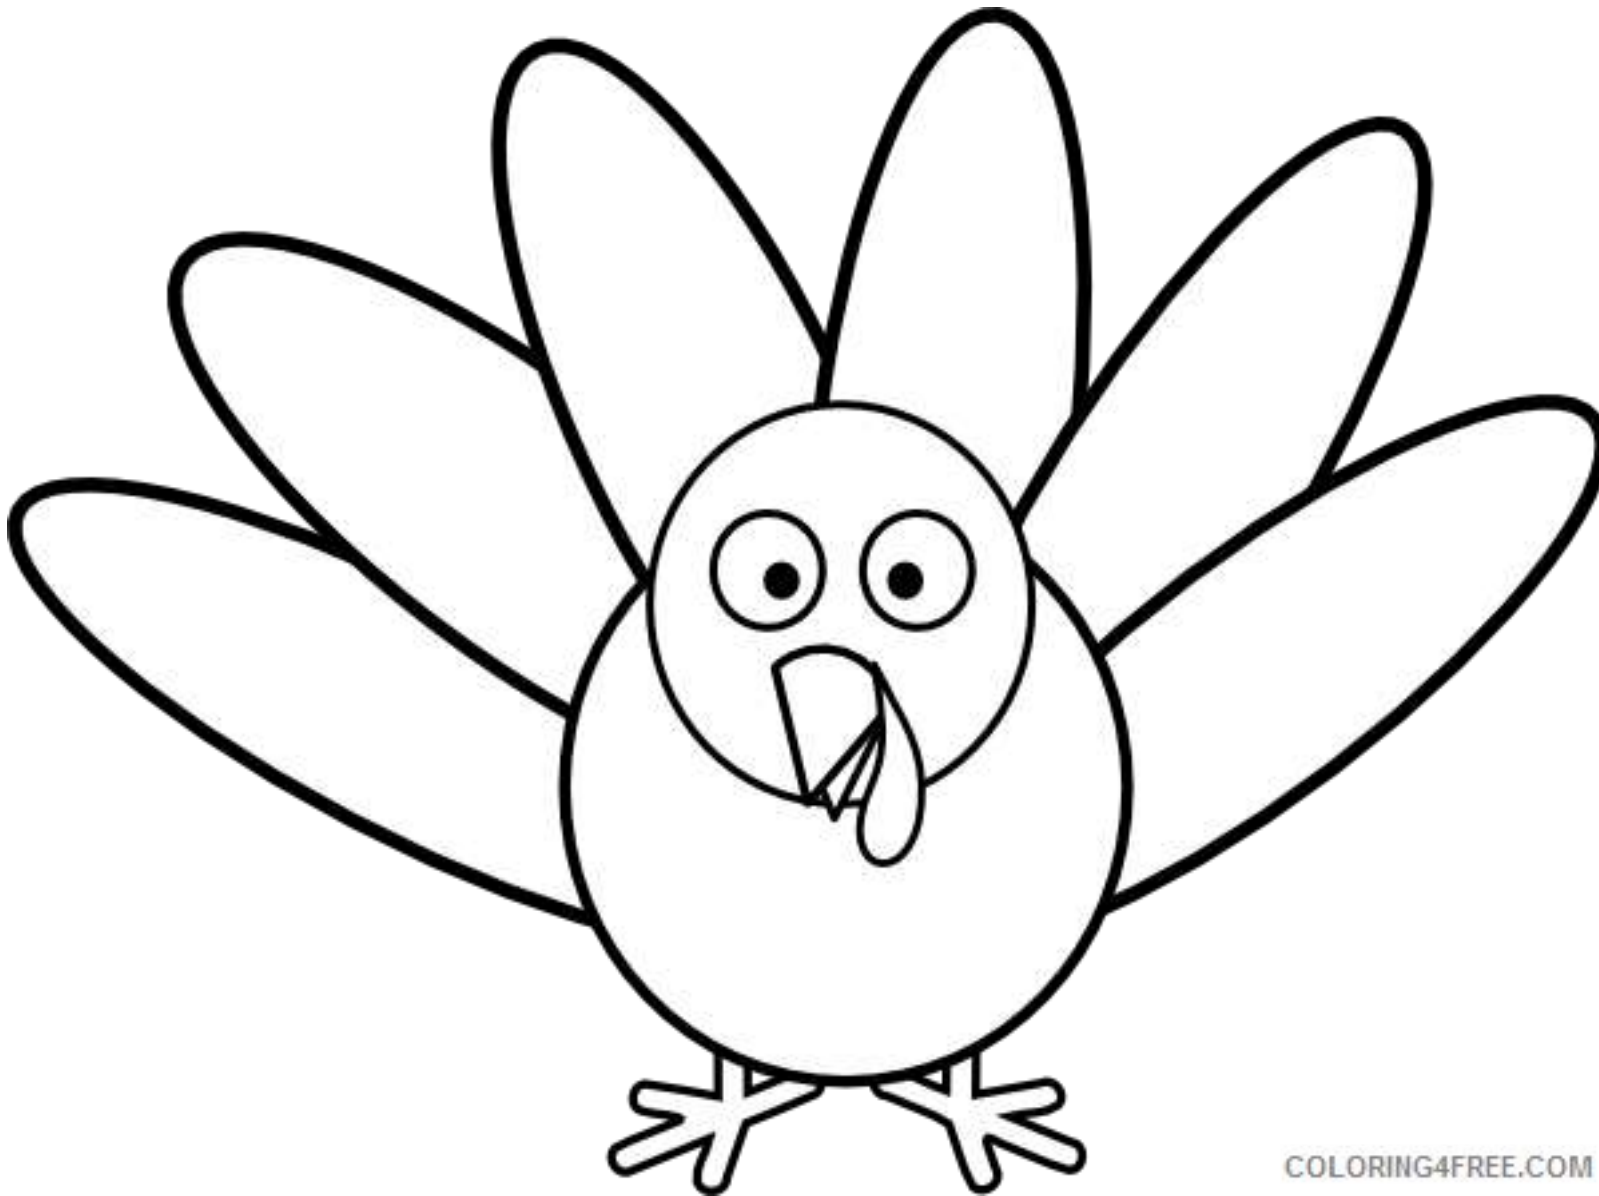

In the center of the turkey, the name of the disease or condition should be clearly written. The center portion should also show signs/things associated with this illness (flushed appearance, sweating, enlarged heart, etc).

The feathers should have the following clearly written:

- 1) Definition of the disease/illness.
- 2) How is the cardiovascular system affected (poor blood flow, decreased oxygenation, etc)?
- 3) Causes of the illness
- 4) Who is at risk (males, obese individuals, elderly)?
- 5) Symptoms of the illness
- 6) How can the disease be treated/prevented.

The entire turkey should be decorated/colored and cut out.
