

Career Exploration Summary

- **Times New Roman, 12 pt.font, minimum of 5-6 sentence response for each.**
- **Can include your thoughts about the information. For example, if the job involves dressing in a suit, would you like or dislike that?**
- **Refer to scoring rubric**

What did you learn about the education and training necessary to enter this career? Include information about length of schooling, possible schools that offer this education/training, the degree/certificate/or license that would be needed.

What could be some potential issues if a person was not properly educated and trained for this job?

How are people expected to dress for this type of job?

To be successful, describe what the employer would want from an employee in regard to attitude, personality, interests, abilities/skills, and work ethic.

What is the customary starting salary for someone in this position?

What, if any, fringe benefits are offered to employees at this company?

Aside from your mentor, what other individuals did you work with during your visit? What are their responsibilities? What do they like and dislike about their jobs? What education and skills do they need in order to be successful?

To what degree were you challenged by this experience and why?

Explain if you did or did not share this completed summary with your parents/family or the workplace mentor. If shared, what was their response?
