

Career Worksheet #1

Use the information you found on the web to answer the following questions about your career choice. Be as specific as possible and give as much information as possible. All answer **must be in complete sentences**.

1. Everyone has different skills and talents, what are some of your skills and talents that you think will help you in the future?
2. Which career area are you interested in?
3. What gives you the desire to do this career?
4. Describe your job to someone who might not know what your job entails.
5. What are some pros and cons to this career?
6. What kind of schooling (if any) do you need to prepare for this career?
7. What are the salary statistics? (How much would you probably get paid?) If your job is hourly, then figure on a 40 hour work week with about 50 working weeks. Don't forget to mention the lower, middle, and higher paid employees!
8. About how many jobs are there like this in the working industry? What about future job growth?
9. What are some specific areas to this career field? (and other jobs like this?)
10. How will math help you in this career, or get to this career?
