CENTRAL ACADEMY OF TECHNOLOGY & ARTS

SCHOOL PROFILE FOR 2023-2024

SCHOOL COUNSELING STAFF

Ashley Cole - Dance, Theatre, & Pre-Engineering

Sarah Goodwin - Information Systems & MPRA

Stephanie Graham - Medical, Transportation,
International Academy

Tammy Tweed - Secretary

MISSION STATEMENT

The mission of Central Academy of Technology & Arts is to prepare students to be informed, capable, and compassionate global citizens by providing an environment that fosters respect, confidence, growth, curiosity, creativity, critical thought, and knowledge.

CENTRAL ACADEMY OF TECHNOLOGY & ARTS opened Fall 2006 and is a comprehensive magnet high school of academies. Each year students rising 9th and 10th grade apply throughout the Union County Public School System for a spot in one of the academy programs. Each student applying must be on grade level using North Carolina End of Grade standards in reading and math. The 9th grade students are selected based on a lottery for all academies except Dance, Theatre, and MPRA; those three academies will participate in an audition process. The 10th grade students are selected on a first come, first serve basis. The 10th grade students applying to the Performing Arts Academy also participate in the audition process.

INFORMATION SYSTEMS ACADEMY: In Computer Engineering students learn about building computers, configuring networks and routing. In Software & Game Design students will focus on computer programming, visualization tools, and game design. In Cyber Security students learn about ethics in technology as well as trends in the growing industry. The solid preparation that is offered prepares our high school graduates to achieve any information systems career goal.

PRE-ENGINEERING ACADEMY: Instruction is offered in engineering design through 3-D software, electronics, and computer integrated manufacturing. These are connected together through engineering principles connecting math, science, and technology. The majority of course are delivered through the Project Lead the Way curricula.

PERFORMING ARTS ACADEMY: Programming is offered in Dance, Theatre, and Music Production and Recording Arts (MPRA). All pathways are exposed to the many facets of a successful performance, history, theory, and techniques. The MPRA pathway creates a solid foundation in musicianship and technology. Students will hone their current skills through a variety of courses that will create a well-rounded performer.

MEDICAL SCIENCES ACADEMY: The goal of the Project Lead the Way program is to provide a sequence of courses all aligned with appropriate national learning standards, which follows a proven hands-on, real-world, problem-solving approach to learning. Students explore the concepts of human medicine and are introduced to topics such as physiology, genetics, microbiology, and public health. The students explore the prevention, diagnosis, and treatment of disease.

TRANSPORTATION SYSTEMS ACADEMY: The Automotive Technology pathway provides instruction on brakes, steering, suspension, engine, and electronics. The Collision Repair pathway offers auto body reconstruction and frame straightening. The curriculum allows students to receive hands-on industry-recommended training. Strong academic background and technical application allow for a seamless transition from high school to post-secondary training or high-tech automotive careers.

INTERNATIONAL ACADEMY: The International Baccalaureate is a global leader in international education— developing inquiring, knowledgeable, confident, and caring young people. IB empowers school-aged students to take ownership in their own learning and help them develop future-ready skills to make a difference and thrive in a world that changes fast. CATA will welcome its first class of IB students during the 2022-2023 school year.

COLLEGE PREPATORY ENVIRONMENT: All students are assigned the **Future Ready** course of study.

DIPLOMA REQUIREMENTS: Students must graduate with a minimum of 28 Carnegie credit units.

SCHEDULE: The CATA curriculum is offered on a 4x4 block schedule for all courses. All students receive daily instruction in four 90-minute classes; earning a maximum of one credit per course.

GRADING SCALE: Union County Public Schools requires the following grading scale/point values. Additional quality points are given for a passing grade (60-100) for specific courses based on the course's academic level.

Numeric Grade	Non-Weighted Point Value
90-100	4.0
89-80	3.0
79-70	2.0
69-60	1.0
AUD, F, FF, P, WF, WP	0.0

Academic Level of Course	Additional Quality Points Given for a Weighted GPA
Basic	No additional points
College Prep	No additional points
Honors	.5 additional points
Advanced Placement (AP)	1 additional point

AP Level course content, pace, and academic rigor are college-level as adopted by the College Board and prepares students to take the AP examinations which may lead to college credit. Most AP classes are yearlong and scheduling conflicts with required academy courses often preclude more than two AP classes per year. In addition, scheduling conflicts with required academy courses can prevent students from taking more than two levels of a World Language.

Advanced Placement (AP) Courses

English
