# Charlie and the Chocolate Factory
STEM Project

Optional School-Wide Project

An English scientist named Professor Foulbody created a machine to determine whether a golden ticket exists within a bar of chocolate without unwrapping it...He failed miserably and he still wants a Golden Ticket.

Let's help Charlie keep his ticket safe by creating a trap to trick Professor Foulbody...

Use things around the house, such as: a shoe box, cereal box. You can even use a fake Golden Ticket to lure him to your trap.
