Grade _____

NOTE: Entering as an 8th grader for the 2022-2023 school year means that you may be learning the same period of time in history that you are currently studying as a seventh grader. Additionally, our science curriculum is different than the 7th and 8th grade curricula presented in the main building so you may experience some gaps or overlaps in topics.

Please complete the following and attach a written response for each of the following questions. A paragraph for each question is sufficient.

1. Describe why you want be part of the CHOICE program. Be as specific as possible.

2. Since CHOICE is a two-year program, it is unusual for students to enter as an 8th grader. During 7th grade significant relationships have been established within the group. What strengths do you have that will enable you to transition into this unique community as an 8th grader?
