

CLINTON SCHOOL DISTRICT ACCEPTABLE USE POLICY

The purpose of the Clinton School District Network and Internet is to enhance educational research. Access to the Internet enables students to explore thousands of libraries, databases and bulletin boards while exchanging messages with Internet users throughout the world. Families should be warned that some material accessible via the Internet might contain items that are illegal, defamatory, inaccurate and/or potentially offensive to some people. While the district's intent is to make Internet access available to further educational goals and objectives, students may find ways to access other materials as well. It is the district's position that the benefits to students in the form of information resources and opportunities for collaboration exceed the potential disadvantages.
