Attendance Information:

Good attendance is a high priority at Central Noble Junior/Senior High School. Students and parents are encouraged to review this policy and become familiar with its provisions. IC Code 20-33-2 was used to help shape our policy. We believe this policy reflects the importance the school corporation places on students accepting responsibility for attending regularly. Typically, student academic achievement is related to a student's attendance rate. The habits and attitudes developed through regular school attendance encourage responsible patterns for behavior in other areas as well. The intent of this policy is to encourage academic achievement.

Please note that attendance policy will reference a "12 Day Absence". This policy states that at the twelfth absence a student will not earn credit for the class period that the absences occurred in. For Junior High students, the twelfth absence will result in unearned credit for the class period that the absences occurred in.

Types of Attendance:

Documented Absence: The parent / caregiver contacts the office via phone, note, or in person within (24) twenty-four hours from the time of absence. It is preferred if the notification could come prior to 8:00 the day of the absence.

Students with documented absences are allowed to make up their work. Documented Absences DO count towards the 12 day maximum rule.

Exempted Absence: IC Code 20-33-2-14 through IC Code 20-33-2-17.5 details what is accepted as an exempted absence. **The following items are exempted absences and will not count towards the 12-day maximum rule.** 1. Service as a page for or as an honoree of the general assembly, 2. Service on precinct election board or for political candidates or parties, 3. Witness in judicial proceeding, 4. Duty with Indiana National Guard, 5. Educationally related non-classroom activity (i.e. Field trip).

Truancies: Students are truant when they are absent from school or class without documentation from the parent or school official. Truancy from school includes unauthorized absences for all or part of a school day, as well as leaving the school grounds unauthorized at any time. **Truancies DO count towards the 12 day maximum rule.**

Suspension: I.C. 20-33-8-7 defines suspension as a disciplinary period in which the student is separated from school.

Attendance Procedures:

Notification of School In Case of Absence:

If an absence occurs for any reason (except emergencies), a parent/caregiver must call the school within 24 hours from the day of the absence or the absence will be recorded as truant. Parents unable to call the school must make prior arrangements. We request that parents call every day their student is absent.

Junior/Senior High School Contact Information:

Telephone (260)636-2117

Pre-Arranged Absences: If the student/parent is aware that an absence is going to arise, the student should obtain a student leave form in the office. Assignments and arrangements for missed work should be made prior to the absence. This will minimize student academic difficulties. Days missed for this reason, will be included in the calculation of the 12 absence policy.

Medical/Dental Appointments: Parents/care givers are encouraged to schedule appointments for their students during non-school hours. If it is necessary to schedule appointments during the school day, a parent/ caregiver must document the absence. *(See Attendance Policy)*

Injury and Illness: A student who becomes ill during the school day should request permission from the teacher to go to the office. The office staff and/or nursing staff will access the student's needs. No student will be released from school without proper parental permission.

Makeup Work Due to Absences: The responsibility for obtaining any makeup work rests solely on the student. When a student is absent, he/she should contact the teacher and the teacher should decide on a reasonable timeline for makeup work to be completed. A guideline that is normally followed is one day of makeup time allowed for every day the student has missed. Accepting makeup work for unexcused absences is at the teacher's discretion.

Excessive Absenteeism: (Jr/Sr High School 12 Absence Policy):

Attendance is recorded for each class period. If a student accumulates more than 12 absences from a class in a semester, then the student is unexcused unless he/she provides an appropriate medical or legal statement. The following is a procedure that will be followed for all types of absences except exempted ones.

Five Absences:	<ul style="list-style-type: none"> • Parent Notification Mailed
Eight Absences:	<ul style="list-style-type: none"> • Parent Notification Mailed • Parent/Student meeting held
Twelve Absences:	<ul style="list-style-type: none"> • Parent Notification Mailed • Twenty-four Hour Compulsory Attendance Notice Filed • (The 24 Hour Compulsory Attendance Notice will be filed for each absence following 12) • Credit Not Earned (The student may remain in the class as long as they are not a discipline problem. Discipline problems may be subjected to the normal discipline procedures. Students in good standing may petition for credit to the Attendance Panel. This petition must be received in the last week of the semester and the student's conduct and attendance records will be considered in the granting of credit.)

***Please note that all types of absences except exempted absences will be counted towards the 12 day "No credit" policy. Medical or other extenuating circumstances will be considered by the administration and attendance panel. Some examples of extenuating circumstances include, but are not limited to the following: medical conditions that a physician has documented the need for an absence, extended hospital stays, or bereavement of immediate family members. Examples of circumstances that are not considered extenuating include, but are not limited to the following: illness not documented by a physician, family vacation, or bereavement of non-immediate family members.

SAPS is supported by the weight of the legal system, which will enforce its regulations through due process procedures.

Student Right of Expression:

The school recognizes the right of students to express themselves. With the right of expression comes the responsibility to do it appropriately. Students may distribute or display, at appropriate times, non-sponsored, noncommercial written material, buttons, badges, or other insignia and the like. All items must meet School guidelines.

A. A material cannot be displayed or distributed if it:

1. Is obscene to minors, libelous, indecent, or vulgar,
2. Advertises any product or service not permitted to minors by law,
3. Intends to be insulting or harassing
4. Intends to incite fighting; or
5. Presents a clear and present likelihood that, either because of its content or manner of distribution or display, it will cause or is likely to cause a material and substantial disruption of school or school activities, a violation of school regulations, or the commission of an unlawful act.

Students who are unsure whether or not materials they wish to display meet school guidelines may present them to the principal (24) twenty-four hours prior to display.

B. Material may be displayed or distributed during passing times between classes. Permission may be granted for display or distribution during lunch periods and/or before or after school in designated locations as long as exits are not blocked and there is proper access and egress to the building.

Academic Misconduct:

Central Noble Junior/Senior High School may discipline a student for academic misconduct for the following reasons: The following behaviors would fall under the unacceptable category in the discipline grid.

1. **CHEATING** – Intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise. The term “academic exercise” includes all forms of work submitted for credit.
2. **FABRICATION** – Intentional and unauthorized or invention of any information or citation in an academic exercise.

4. **PLAGIARISM** – Adoption or reproduction of ideas of statements of another person as one’s own without acknowledgment.

Public Display of Affection:

Expression of affection other than holding hands (**Junior High students may not hold hands**) can and often does draw undue attention to the participants when in a public setting. Such displays consequently have no place either at school or school-sponsored functions. The administration and staff believe this creates a negative image of our student body and school. Appropriate action will be taken with those students who do not use good judgment regarding such displays

Lockers:

All lockers made available for students’ use on the school premises, including but not limited to lockers located in the hallways, physical education and athletic dressing rooms, industrial and agricultural classrooms and the art classrooms, are the property of the school corporation. These lockers are made available for student use in storing school supplies and personal items necessary for use at school. The lockers are not to be used to store items which cause, or can reasonably be foreseen to cause, an interference with school purposes or an educational function, or which are forbidden by state law or school rules. **The principal or his/her designee may search the student’s locker and its contents at any time (IC 20-33-8-32).** For more information about locker searches, please reference Central Noble School Board Policy 4400, found on the Central Noble Community School Corporation website.

The student’s use of the locker does not diminish the school corporation’s ownership or control of the locker. **The school corporation retains the right to inspect the locker and its contents to insure that the locker is being used in accordance with its intended purpose, to eliminate fire and other hazards, to maintain sanitary conditions, to attempt to locate lost or stolen materials, and to prevent use of the locker to store prohibited or dangerous materials such as weapons, illegal drugs, or alcohol.**

In order to implement the school’s policy concerning student lockers, the following rules have been adopted:

1. **All lockers** and other storage areas provided for student use on school premises remain the property of the school corporation and are provided for the use of the student. Lockers are subject to inspection, access for maintenance, and search pursuant to this section. No student shall lock or otherwise impede access to any locker or storage area except with a lock provided by or approved by the principal of the school in which the locker or storage area is located. Unapproved locks shall be removed and destroyed.
2. **Use of Lockers:** Lockers are to be used to store school supplies and personal items necessary for use at school.

Lockers shall not be used to store “contraband.” These are items that cause, or can reasonably be foreseen to cause injury, or items which are forbidden by state law or school rules, such as drugs, drug paraphernalia, beverage containing alcohol, weapon, any volatile substance, bomb or explosive device, any acid or pungent or nauseous chemical, any library book not properly checked out or overdue, unreturned gym or athletic equipment, any wet or mildewed articles, or any stolen items. Students will be expected to keep their lockers clean and orderly. Once students are assigned a locker, they may not change without appropriate permission.

3. **Lockers and Desks:** School facilities such as lockers and desks are property of the school and are provided for student use subject to the right of the superintendent and his designee to enter the facility as needed and inspect all items in the facility search. Students shall not have an expectation of privacy in any facility provided by the school.
4. **Locker Maintenance:** Nothing in these rules shall affect members of the custodial or other staff who repair defective lockers or clean out or supervise the cleaning of (a) lockers from time to time in accordance with a posted general housekeeping schedule, (b) the locker of a student no longer enrolled in the school, or (c) a locker during any vacation period which is reasonably believed to contain rotting items such as food, wet clothes, etc.

School Equipment/Property:

Damage or breakage which is the result of careless, malicious, or wrongful use of equipment/property belonging to the school shall result in adequate remuneration from the student to either repair or replace the item and likely suspension and or/expulsion.

Central Noble Junior/Senior High School

Guidelines for school-appropriate dress and personal appearance are:

- Hats, caps, sunglasses, and any other head coverings are not to be worn in the building.

- Students may not use blankets while at school. If a student brings a blanket to school, the item must be stored in their locker immediately upon their arrival.

The school shares in the responsibilities of student dress and appearance with the parents/legal guardians and individual students in the area of health, safety and cleanliness of person and apparel. If there is a question as to whether or not any student's apparel or appearance is appropriate for school, school officials will decide. We want our students to look attractive but not dress in a manner as to attract undue attention.

Central Noble Junior/Senior High School

Transportation Expectations:

Bus Regulations:

REMEMBER, RIDING THE BUS IS A PRIVILEGE, NOT A RIGHT. STUDENTS WHO DO NOT BEHAVE APPROPRIATELY WILL NOT BE ALLOWED TO RIDE.

All students in our school system who ride a bus are subject to regulations until they arrive at their school or the bus stop near their home. Any misbehavior that distracts the driver is a VERY SERIOUS HAZARD to the safe operations of the vehicle, and as such, jeopardizes the safety of all passengers.

Every school bus and driver has been supplied with a 'School Bus Incident Reporting System', which reflects the rules of student conduct.

Students will be cited for the following behavior infractions:

1. Failure to remain seated
2. Refusing to obey driver
3. Refusal to wear seat belt
4. Hanging out of window
5. Throwing objects out of bus
6. Throwing objects on bus
7. Bothering others
8. Chewing tobacco/using snuff
9. Smoking/vaping on bus
10. Fighting
11. Profanity

12. Vandalism
13. Spitting
14. Eating/Drinking
15. Lighting matches

Other instances that are disruptive, dangerous, and inappropriate are unacceptable.

REMINDER: Students who ride a bus that is not their assigned bus, must have a parental note to give permission and provide to the office at the beginning of the school day.

Driving Privileges (Senior High School Student Only):

The following rules are to be observed by all students and student drivers:

1. All students operating a motor vehicle on school property **MUST** register in the main office, and obtain a parking permit. All registration information must be kept current. Any time a new vehicle is driven, the office must be notified. **Vehicles not properly registered may be towed at the owner's expense.**
2. Lost / Destroyed permits must be replaced at the student's expense
3. All drivers must possess a valid operator's license.
4. All vehicles must be properly registered and licensed with the BMV.
5. Campus Speed limit is 15 M.P.H.
6. Follow all traffic laws.
7. Drive in a manner that is both safe and courteous.
8. Students are not to be in or near vehicles from the time of arrival to the time of dismissal without the consent of the principal or his designee.

13. Students who need to drive during the school day will be allowed to leave after being granted a 'PERMIT TO LEAVE SCHOOL FORM' by the principal or their designee.
14. The administration shall be permitted to inspect the contents of a student's vehicle. A student who drives to school implies his or her consent, the consent of his or her parent and the owner of the vehicle to allow a search of the vehicle. Refusing to allow a search creates a presumption that the vehicle contains items for which the search was requested. That refusal and resulting presumption may be used in a suspension or expulsion proceeding.
15. Students driving to school are to exit the south drive.
16. Students should avoid the north parking lot at all times due to specialized bussing.

***** Parking privileges may be revoked at any time for any offense involving discipline or a vehicle. ****

Random Drug Testing

The Board requires that each student in grade 9-12 participating in one of the Corporation's interscholastic athletic programs, extra-curricular programs, co-curricular programs or driving to school, sign an enrollment application agreeing that the student will participate in a random drug-testing program, conducted and paid for by the Corporation. For more information about random drug testing, please reference Central Noble School Board Policy 4560, found on the Central Noble Community School Corporation website.

Guidelines for Responsible Computing:

Introduction:

The computing resources at Central Noble Community School Corporation support the instructional, research, and administrative activities of the school district. Examples of these computing resources include, but are not limited to, the administrative computing facilities and operations, local- and wide-area networks, electronic mail, and access to the Internet. Users of these services and facilities have access to a vast amount of resources.

Consequently, it is appropriate for all users to behave in a responsible, ethical and legal manner. In general, appropriate use means respecting the rights of other computer users, the integrity of the physical facilities and all pertinent license and contractual agreements. Interested parties should contact the technology coordinator, the building principal, the school media specialist or a member of the technology support staff for more information concerning computing guidelines.

Access to the school's computing facilities are a privilege granted to school students and employees. Central Noble Community School Corporation vests the responsibility for ensuring the integrity and performance of its computing systems in various system administrators. While respecting the rights of all users, when the integrity of the system is threatened, systems administrators are authorized to take those actions necessary to maintain the system in good working order.

The guidelines apply to all users of computing resources owned or managed by Central Noble Community School Corporation, including, but not limited to faculty, staff, students, guests of the administration, and approved external individuals or organizations.

Account Security, Passwords, and Integrity:

The person to whom an account is allocated is the only person allowed to use that account. No password sharing is permitted. Additionally, it is the user's job to be sure he or she does not create a security hole in the system.

Central Noble Community School Corporation provides reasonable security against intrusion and damage to files stored on district computers. However, neither Central Noble Community School Corporation nor its computing staff can be held accountable for unauthorized access by other users, nor can they guarantee protection against power or media failure, fire, flood, or other disaster. Backup media may be provided upon approval. These media are to be used to back up the user's personal files, NOT copy school-owned data or programs. The use of personal USB keys

(aka "thumb-drives") is acceptable as long as their use doesn't violate other components of these guidelines.

Although the school makes reasonable attempts to protect file servers from intrusion, it does not provide the same level of protection or offer restoration of files stored on the local drives of computer workstations. Therefore, it is especially important that users save their files to the fileserver(s) and use all available means to protect their data. Many lab and multi-use computers are configured to delete upon logoff all local files (not stored on a network drive) that a user has created while using that computer.

Privacy:

Central Noble Community School Corporation participates in a range of computing networks, and many members of the school community regularly use these networked computers in their work. Statements in public files in this medium are protected by the same laws, policies, and guidelines, and are subject to the same limitations, as communications in other media. The same holds true for personal electronic files and communications (e.g. email). However, users should exercise caution when submitting confidential information via email because the confidentiality of such material cannot be guaranteed. Always assume that your files are readable by anyone on the network. The IT staff does its best to ensure that this is not the case, but you should always assume the worst when dealing with security.

Encountering Controversial Material:

Users may encounter material which is controversial and which users (parents, students, teachers, staff, and administration) may consider inappropriate or offensive. This is much more easily monitored and tracked on Central Noble Community School Corporation computing resources. Content filtering hardware is utilized to minimize encounters of controversial material. If it is believed a website is blocked in error, please note this to school technical support personnel. However, on a global network such as the Internet, it is impossible to control effectively the content of data and an industrious user may discover controversial material. It is the user's responsibility not to initiate access to such material.

Appropriate Computer Behavior:

Those who avail themselves of the district computing resources are required to behave in their use of the technology in a manner consistent with Central Noble Community School Corporation's discipline policies as well as the Guidelines for Responsible Computing.

The following list does not cover every situation that pertains to proper or improper use of computer resources, but it does suggest some of the responsibilities that you accept if you choose to use a computer resource or the network access that Central Noble Community School Corporation provides.

1. If you have a computer account, you are responsible for the use made of that account. If you discover that someone has made unauthorized use of your account, you should report the intrusion to a network or systems administrator.
2. You must not intentionally seek information about, browse, obtain copies of, or modify files, passwords, or other media belonging to other people, whether in the Central Noble Community Schools District or elsewhere, unless specifically authorized to do so by those individuals. You must not attempt to decrypt or translate encrypted material to which you are not entitled. Nor may you seek to obtain system privileges to which you are not entitled. Attempts to do any of these things will be considered serious transgressions of policy and appropriate discipline will be enacted.
3. If you encounter or observe a gap in system or network security, you must report the gap to a system or network administrator. You must refrain from exploiting any such gaps in security.
4. You must refrain from any unauthorized action that deliberately interferes with the operating system or accounting functions of either individual workstations or of network servers. This would include the creation and distribution of destructive and interfering programs such as worms, viruses, and malware.
5. You must be sensitive to the public nature of shared facilities, and take care not to display on screens in such locations images, sounds, or messages that could create an atmosphere of discomfort or harassment for others. You must also refrain from transmitting to others in any location inappropriate images, sounds or messages which might violate the Central Noble Community School policies on harassment.
6. You must avoid the following activities: utilizing shared computing resources for excessive game playing or other trivial or unapproved applications; sending frivolous or excessive email or messages locally or over an affiliated network; or printing excessive copies of documents, files, images or data. You must refrain from using unwarranted or excessive amounts of storage (quotas are in place to help prevent this but it is ultimately the user's responsibility), printing documents or files numerous times because you have not checked thoroughly for all errors and corrections, or deliberately running grossly inefficient programs when you know the efficient ones are available. You must be sensitive to special needs for software and services available in only one location to those whose work requires the special items.
7. You must not prevent others from using shared resources by running unattended processes or placing signs on devices to reserve them without authorization. Your absence from a public workstation should be very brief (less than five minutes). A multi-use device unattended for more than five minutes may be assumed to be available for use, and any process running on that device terminated.
8. You must not lock a workstation or computer that is in a public computing facility.
9. You must not create, send or forward, electronic chain letters.
10. Non-district hardware or software is not to be installed on the district networks without authorization. This includes non-district laptops, network hubs, wireless routers, etc. Should these devices be found, they will be disabled and/or confiscated and the user notified of their transgression. The offending user should contact the technology coordinator for instructions on return of the device and/or restoration of service.
11. In general, Central Noble Community School Corporation-owned hardware, software, manuals, and supplies must remain at school computing sites. Any exception to the rule requires proper authorization.
12. Use of Central Noble Community School Corporation computing resources for personal financial gain or for political purposes is not permitted.
13. Use of impolite or abusive language will not be tolerated.
14. Student use of online resources such as the Internet will be by teacher/administrative approval. Staff supervision will accompany any online usage by students.
15. Copying of commercial software in violation of copyright laws will not be tolerated. In addition, no installation of computer programs, commercial or otherwise, will be configured on district computers without the knowledge and approval of network and/or systems administrators.
16. No vandalism. Vandalism is defined as a malicious attempt to harm, modify, and destroy data of another user as well as the physical hardware and software of the school.

Violations of the Guidelines for Responsible Computing:

Violations of the Central Noble Community School Corporation Guidelines for Responsible Computing are to be treated like any other legal or ethical violation as outlined in the Student Handbook, relevant contractual agreements,

and applicable faculty and staff handbooks. Violators may also be subject to prosecution under applicable Federal and

state statutes.

For students, the following will be the disciplinary standard followed for violations of this AUP:

1. The first violation may result in immediate termination of computer privileges for the remainder of the nine-week term; in the event the violation occurs within three weeks of the end of the current nine-week term, privileges will be suspended for following nine-week term as well. A disciplinary referral will be given to the student and appropriate consequences enacted.
2. The second violation may result in immediate suspension of computer privileges for the remainder of the semester. Should the violation occur within three weeks of the end of the current semester, privileges will be suspended for the following semester as well. A disciplinary referral will be given to the student and appropriate consequences enacted.
3. The third and subsequent violations may result in suspension of computer privileges for the remainder of the school year. A disciplinary referral will be given to the student and appropriate consequences enacted.

Any violation of the policy may result in a cancellation of network computing privileges and/or disciplinary action. The administration, faculty and staff of Central Noble Community School Corporation may request through the building administrator or their designees that the network administrators deny, revoke, or suspend specific use privileges. Anyone identified as a security risk or having a history of problems with other computer systems may be denied access to the Central Noble Community School Corporation's wide area network and Internet resources.

Parent Internet Access:

Parents/guardians can access their student's current grades and attendance through the Internet. Parents/guardians with Internet access at home or work can view information on their student at any time. Interested parents/guardians should call the school for more information.

STUDENT NETWORK AND INTERNET ACCEPTABLE USE AND SAFETY:

Blocking and Filtering Inappropriate Web Sites:

The Corporation has implemented technology protection measures which block/filter Internet access to visual displays that are obscene, child pornography or harmful to minors. The Corporation utilizes software and/or hardware to monitor online activity of students to restrict access to child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors.

Warning for Unauthorized Access:

Parents/guardians are advised that a determined user may be able to gain access to services on the Internet that the Corporation has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents/guardians may find inappropriate, offensive, objectionable or controversial. Parents/Guardians assume risks by consenting to allow their child to participate in the use of the Internet. Parents/Guardians of minors are responsible for setting and conveying the standards that their children should follow when using the Internet. The Board supports and respects each family's right to decide whether to allow for independent student access to the Internet.

Responsibilities of Staff and Students:

Building principals are responsible for providing training so that Internet users under their supervision are knowledgeable about this policy and its accompanying guidelines. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of the Internet. All Internet users (and their parents if they are minors) are

required to sign a written agreement to abide by the terms and conditions of this policy and its accompanying guidelines.

Students and staff members are responsible for good behavior on the Corporation's computers/network and the Internet just as they are in classrooms, school hallways, and other school premises and school sponsored events. Communications on the Internet are often public in nature. General school rules for behavior and communication apply. The Corporation does not sanction any use of the Internet that is not authorized by or conducted strictly in compliance with this policy and its accompanying guidelines.

Disciplinary Action for Inappropriate Use:

Users who disregard this policy and its accompanying guidelines may have their use privileges suspended or revoked, and disciplinary action taken against them.

Liability:

Users granted access to the Internet through the Corporation's computers assume personal responsibility and liability, both civil and criminal, for uses of the Internet not authorized by this Board policy and its accompanying guidelines.

The provisions of this policy and associated guidelines and agreements are subordinate to local, State, and Federal law.

Technology Student Policy:

The Central Noble Community School Corporation in an effort to promote 21st century learning skills is issuing each student a mobile computing device that is owned by the school corporation. CNCSC is providing this mobile device to enhance the educational experience of each student that attends Central Noble High School. It is the expressed intent of the school corporation that these devices are to be used for purposes that will promote learning. The following policies are in place to ensure the proper utilization of the devices, maintain a safe environment for the students, and to promote the integrity of the educational environment:

1. The mobile device is property of Central Noble Community Schools.
2. The mobile device is available for student use on and off campus to perform functions that are necessary for school.
3. These mobile devices will not be used in any manner that would or could cause interference to the educational process. Central Noble Community School Corporation does not discriminate on the basis of sex in the educational programs or activities, which it operates. The corporation is required by Title IX of the Education Amendments of 1972 and by the implementation of its regulations not to discriminate on the basis of sex. The requirement extends to the employment of personnel by the corporation.

Notification of Rights Under the Family Educational Rights & Privacy Act (FERPA) for Elementary and Secondary Institutions:

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the [Name of school ("School")] receives a request for access.

Parents or eligible students who wish to inspect their child's or their education records should submit to the school principal [or appropriate school official] a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask the [School] to amend their child's or their education record should write the school principal [or appropriate school official], clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest must be set forth in the school's or school district's annual notification for FERPA rights. A school official typically includes a person employed by the school or school district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

[Optional] Upon request, the school discloses education records without consent to officials of another school or school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer. [NOTE: FERPA requires a school or school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request or the disclosure is initiated by the parent or eligible student.]

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the [School] to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education 400
Maryland Avenue, SW Washington,
DC 20202

[NOTE: In addition, a school may want to include its directory information public notice, as required by § 99.37 of the regulations, with its annual notification of rights under FERPA.]

[Optional] See the list below of the disclosures that elementary and secondary schools may make without consent.

FERPA permits the disclosure of PII from students' education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in § 99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, § 99.32 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A school may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student –

- To other school officials, including teachers, within the educational agency or institution whom the

school has determined to have legitimate educational interests. This includes contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in § 99.31(a)(1)(i)(B)(1) - (a)(1)(i)(B)(3) are met. (§ 99.31(a)(1))

- To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements of § 99.34. (§ 99.31(a)(2))
- To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as the State educational agency (SEA) in the parent or eligible student's State. Disclosures under this provision may be made, subject to the requirements of § 99.35, in connection with an audit or evaluation of Federal- or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf, if applicable requirements are met. (§§ 99.31(a)(3) and 99.35)
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary for such purposes as to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§ 99.31(a)(4))
- To State and local officials or authorities to whom information is specifically allowed to be reported or disclosed by a State statute that concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records were released, subject to § 99.38. (§ 99.31(a)(5))
- To organizations conducting studies for, or on behalf of, the school, in order to: (a) develop, validate, or administer predictive tests; (b) administer student aid programs; or (c) improve instruction, if applicable requirements are met. (§ 99.31(a)(6))
- To accrediting organizations to carry out their accrediting functions. (§ 99.31(a)(7))

- Information the school has designated as "directory information" if applicable requirements under § 99.37 are met. (§ 99.31(a)(11))
- To an agency caseworker or other representative of a State or local child welfare agency or tribal organization who is authorized to access a student's case plan when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of the student in foster care placement. (20 U.S.C. § 1232g(b)(1)(L))

To the Secretary of Agriculture or authorized representatives of the Food and Nutrition Service for purposes of conducting program monitoring, evaluations, and performance measurements of programs authorized under the Richard B. Russell National School Lunch Act or the Child Nutrition Act of 1966, under certain conditions. (20 U.S.C. § 1232g(b)(1)(K))

Section 504 of the Rehabilitation Act of 1973:

In order to fulfill this obligation under Section 504, the Central Noble Community School Corporation has the responsibility to avoid discrimination in policies and practices regarding its personnel and students. No discrimination against any person with a disability should knowingly be permitted in any of the programs and practices of the school system.

Central Noble has the responsibilities under Section 504, which include the obligations to identify, evaluate, and, if the student is determined to be eligible under Section 504, to afford access to appropriate educational services.

Asbestos Plan (Asbestos Hazard Emergency Response Act):

ASBESTOS INSPECTION NOTICE

In compliance with the A.H.E.R.A. regulation (EPA 40 CFR 763 Subpart E), the Central Noble Community School Corporation inspects **all** facilities of the school corporation where known or assumed asbestos-containing materials exist. Although there is a relatively small amount of asbestos-containing materials in our buildings, these materials are so contained that they cause no health hazard to the occupants.

In accordance with the requirements outlined under the A.H.E.R.A. rule, the most recent triennial asbestos re-inspection of buildings within the corporation was conducted by Micro Air, Inc. of Indianapolis, Indiana in July 2015. The next scheduled six month periodic surveillance for asbestos-containing materials **will** be conducted by the school corporation in January 2016. No response actions as defined under the A.H.E.R.A. rule, have been conducted by the school corporation within the last year. Copies of **all** triennial re-inspection and response action reports are on file with the local education agency.

A management plan is available for public inspection, upon request, at the Central Noble Community School Corporation Administrative Offices, located at 200 East Main Street, Albion, Indiana, 46701, during normal business hours. The request should be made at least one working day in advance to view materials at the Administrative Offices, and three working days in advance if viewing is to take place at the individual school. If you have questions regarding the asbestos management plan of Central Noble School Corporation, please call Mr. Tim Hollis at 260-636-2175

It has been, and continues to be, the policy of this corporation to keep the public informed of **all** matters that pertain to the safety and general health of our students, faculty, and visitors in our schools.

This statement fulfills the requirements of A.H.E.R.A. by the Central Noble Community School Corporation.

Pest Control and Use of Pesticides:

Central Noble Community School Corporation is committed to providing a safe environment for students. It seeks to prevent children from being exposed to pests and pesticides. While pesticides protect children from pests that may be found in the school and its surrounding grounds, under some circumstances they may pose a hazard to children. Therefore, pest control practices may involve a variety of chemical and non-chemical methods that are designed to control pests effectively while minimizing potential pesticide exposure.

The Corporation will:

- A. Annually inform parents and staff members of the Corporation's pest control policy at the time of student registration by a separate memorandum or as a provision in the staff and/or student handbook;
- B. Provide the name and phone number of the person to contact for information regarding pest control;
- C. Establish a registry of parents and staff members who want to receive advance notice of all pesticide use and provide such notice;
- D. Provide notice of planned pesticide applications to parents and employees who have requested advance notice; and
- E. Maintain written record for (90) ninety days of any pesticide applications.

The Corporation will provide notice to those in the registry at least two (2) school days prior to the date and time the pesticide application is to occur unless an emergency is declared. The notice will include the date and time of the

pesticide application, the general area where the pesticide is to be applied, and the telephone number to contact for more information.

In case of emergency pesticide applications, because of immediate threat to the public health, the school shall give written notice as soon as possible.

The Corporation may provide for training of school employees to become certified pest control applicators. The Corporation, subject to budgetary constraints of the Corporation, may provide financial support for such training.

The Superintendent shall prepare administrative guidelines for the implementation of this policy.

Important Notice to Students and Parents Regarding Cell Phone Content and Display:

- The Child Abuse/Neglect Law requires school personnel to report to law enforcement or child protective services whenever there is reason to believe that any person/student is involved with “child exploitation” or “child pornography” as defined by Indiana Criminal Statutes.
- It is “child exploitation,” a Class C felony under I.C. 35-42-4-4(b), for any person/student (1) to exhibit, photograph or create a digitalized image of any incident that includes “sexual conduct” by a child under the age of 18; or (2) to disseminate, exhibit to another person, or offer to so disseminate or exhibit, matter that depicts or describes “sexual conduct” by a child under the age of 18.
- It is “child pornography,” a Class D felony under I.C. 35-42-4-4(c), for any person/student to *possess* a photograph, motion picture, digitalized image, or any pictorial representation that depicts or describes “sexual conduct” by a child who the person knows is less than 16 years of age or who appears less than age 16.
- “Sexual conduct” is defined by I.C. 35-42-4-4(a) to include sexual intercourse, exhibition of the uncovered genitals intended to satisfy or arouse the sexual desires of any person, or any fondling or touching of a child by another person or of another person by a child intended to arouse or satisfy the sexual desires of the child or other person.
- The Indiana Sex Offender Registration Statute at I.C. 11-8-8-7 and the Sex Offender Registry Offense Statute at I.C. 35-42-4-11, as of May 2009, require persons convicted of or adjudicated as a juvenile delinquent for violating the Child Exploitation Statute at I.C. 35-42-4-4(b) to register as a sex offender.
- Because student cell phones have been found in a number of Indiana school districts to have contained evidence of “sexual conduct” as defined above, it is important for parents and students to be aware of the legal consequences should this occur in our school system.

GENERAL JUNIOR HIGH SCHOOL INFORMATION:

Student Council Events: The Central Noble Jr High School Student Council sponsors a variety of activities during the course of the year. These activities are only available to those students who have proven their ability to behave responsibly, respectfully, and with consideration of others. Other considerations will be based on items such as attendance, tardies, and grades.

FIELD TRIPS AND GUEST SPEAKERS: Occasionally, Central Noble Jr High School invites special speakers to the school or offers opportunities for students to participate in learning activities that are off campus. Participation in these events is a privilege offered to students who have proven their ability to exhibit appropriate behavior at school. If a student has not behaved at school, there is little reason to believe he or she will behave during a field trip or with a guest speaker. Students who have not proven they are capable of behaving responsibly, respectfully, and with consideration for others may not be allowed to participate in trip or programs away from the building or to attend special events in the school.

FIELD TRIPS AND GUEST SPEAKERS: Traditionally, the Junior High students have had the opportunity to take a trip as a reward for appropriate behavior and attendance. The location of the trip will be decided by the student council each year and must be approved by the school board. Eligibility for this trip is based upon student behavior, attendance, tardies, and grades throughout the entire year.

GUEST TEACHER: Occasionally the regular classroom teacher is unable to be at school. During these time Central Noble Junior High School will do its best to provide a guest teacher for that day. Guest teachers are important visitors whose impressions of our school will be carried into the community. Students are expected to treat them respectfully, politely, considerately, and follow the directions they give.
