

Coat Sizing By Grade

When exact sizing is unavailable, we recommend building your order using average sizes by grade. The chart below can be used to assume typical size span for each grade. For example, 48% of boys in 1st grade are wearing a size 7/8. Using that rationale, about half of your order for boys coats should include this size.

**Note: This guideline is a recommendation based on data collected from surveys and inventory averages. These are not guaranteed.*

Grade	4	5/6	7/8	10/12	14/16	Small	Medium	Large	XL
